<https://teslauniverse.com/nikola-tesla/articles/nikola-tesla-and-discovery-x-rays>

#breaking #radiation 1894: Nikola Tesla and the Discovery of X-rays. Tesla sent his images to Wilhelm Conrad Roentgen shortly after Roentgen published his discovery on November 8, 1895. <https://teslauniverse.com/nikola-tesla/articles/nikola-tesla-and-discovery-x-rays> -- Although Tesla gave Roentgen full credit for the finding, Roentgen congratulated Tesla on his sophisticated images, wondering how he had achieved such impressive results (Fig 4) (7). Moreover, Tesla described some clinical benefits of x-rays — for example, determination of foreign body position and detection of lung diseases (8) — noting that denser bodies were more opaque to the rays (9). -- May 5, 1897 Letter: Tesla On Hurtful Actions Of Lennard And Roentgen Tubes (X-Rays)<http://www.theteslasociety.com/archive/electrical-review-new-york/1897-05-05-000000/letter-tesla-hurtful-actions-lennard-and> -- August 11th, 1897 On the Source of Roentgen Rays and the Practical Construction and Safe Operation of Lenard Tubes <https://teslauniverse.com/nikola-tesla/articles/source-roentgen-rays-and-practical-construction-and-safe-operation-lenard> -- Nikola Tesla took the first X-RAY pictures, "Shadow-graphs", and sophisticated X-ray Leonard tubes.

<https://www.facebook.com/NikolaTeslaSerbianGenius/photos/a.596087540434024/2729381207104636/> -- He is also given credit to the concept of "Black body radiation" at the US Patent office filed under "NiCola Tesla".

<https://nikolateslasolar.blogspot.com/2017/01/tesla-leaks-nicola-tesla-missing.html> -- Nikola Tesla invents the current method of #Shadow #Graphs using X-ray source, radioactive film and a phosphorescent display.

<https://facebook.com/NikolaTeslaSerbianGenius/photos/a.513399415369504/2729705547072202/> -- Like Curie, who died of aplastic anemia as a result of her radium and polonium exposure, many early researchers—and the patients they worked on—were sickened by their would-be cure. <https://popsci.com/babe-ruth-cancer-treatment/> -- Mar 14, 2012 - "Don't talk to me about X-rays," Edison said after an assistant on one of his X-ray projects started showing signs of illness. "I am afraid of them."

Tesla Currents in Medicine. Tesla's greatest impact on medicine is his invention of a transformer (Tesla coil) for producing high

frequency and high voltage currents (Tesla currents). Tesla currents are used in diathermy, as they, while passing through the body, transform electrical energy into a therapeutic heat. In 1891, Tesla passed currents through his own body and was the first to experience their beneficial effects. He kept correspondence on electrotherapy with J. Dugan and S. H. Monell. In 1896, he used high frequency currents and designed an ozone generator for producing ozone, with powerful antiseptic and antibacterial properties. Tesla is famous for his extensive experiments with mechanical vibrations and resonance, examining their effects on the organ ism and pioneering their use for medical purposes. Tesla also designed an oscillator to relieve fatigue of the leg muscles. It is less known that Tesla's inventions (Tesla coil and wireless remote control) are widely used in modern medical equipment. Apart from this, wireless technology is nowadays widely applied in numerous diagnostic and therapeutic procedures.

Albert Einstein wrote in 1946 "A World Government must be created which is able to solve conflicts between nations by judicial decision. Albert Einstein called on governments to "proceed further by taking gradual steps towards forming an effectual federal World Government." <https://facebook.com/photo.php?fbid=1645279199118237&set=gm.771888692948891%2F> Source: [https://en.wikipedia.org/wiki/World\\_government](https://en.wikipedia.org/wiki/World_government) -- Albert Einstein Gravity Waves debunked by Nikola Tesla's "Dynamic Theory of Gravity" <https://youtube.com/watch?v=JPOGmEktQFs> -- Nikola Tesla's Faster than Light ( $V = \text{Pie}/2 \times C$ ) = 1.57C -- Albert Einstein Debunked in 1899! <https://youtube.com/watch?v=dnIfYx6NXXK4> -- Nikola Tesla solves "Maxwell's Demon" breaks 2nd Law of Thermodynamics with Quantum Coherence [https://youtube.com/watch?v=nPJCiA3Dm\\_w](https://youtube.com/watch?v=nPJCiA3Dm_w) -- Nikola Tesla debunks Albert Einstein's "Spooky" "Action at a Distance", "Faster than Light", "Photoelectric Effect", "Splitting an Atom", "Ether", "Curved Space", Nuclear Power & Nuclear Bomb Hoax <http://nikolateslasolar.blogspot.com/2015/10/nikola-tesla-debunks-albert-einsteins.html?view=flipcard> - Nuke Hoax Part 1 <https://youtube.com/watch?v=P88P89G8Aio> - Hiroshima Atom Bomb Hoax <https://youtube.com/watch?v=O8P49dujwAQ> -- After Tesla dies in 1943, the U.N. (founders of the New World Order) for several years had their offices at Sperry-Rand Corp in 1945-6 with Ford Corp at Lake Success LI & their conspirators at RCA/GE Radio Central at Rocky Point, Shoreham, LI within eyesight of Wardenclyffe. Tesla states in his 1919 Autobiography that Wardenclyffe at Shoreham LI was demolished on July 4th 1917, along with the Tesla/Marconi Station "Telefunken" in Sayville, LI in 1917 and ... In Margaret Cheney's book "Man out of Time", the not well known Tesla "Tuckerton" Radio Station was ceased by the U.S. government in 1917, all later to be replaced with RCA/GE by 1921. But Tesla states in 1919, "they are building more of them", referring to Tesla Towers!. After Tesla's autobiography, GE merged with Marconi in 1920, RCA was formed. By November 5th 1921, the first radio broadcast was sent from the President of the United States from the White House, using the new RCA system at Rocky Point, near Sayville. By 1943, after Tesla dies, in 1945-46, the Sperry Gyroscope Company takes over office space with the Ford Company at Lake Success, LI and RCA at Rocky Point, LI. According to the Tesla FBI File, Henry Ford is alleged to be involved with Tesla's missing inventions, which were to be turned into "idea factories". In 1946, the United Nations had their headquarters at the Sperry Company. By 1973, Sperry merges with Remington Rand to create the Sperry-Rand Corporation. --

The Government doesn't need your approval to use your patents and anything else they want. But, Tesla did have a proposal in 1918 for a "Magnetic Storm". Hillary Clinton recalssified all the classified documents as top secret; otherwise you would have a fully un-redacted Tesla FBI File in your hands.

Chris Edwards posted in TeslaLeaks.com - Nikola Tesla Leaks.

Nikola Tesla's inventions played at least 4 roles in WaterGate and the Pentagon Papers. First, the full Pentagon Papers have never been released. Of the released version, 11 words were redacted from final releases. Definition: A "Water Gate" is the gate that controls the water flow in a Hydro Dam. The 4 roles include 1) Secure communications 2) Bombing Hydro Dams in Vietnam 3) Weather Modification 4) Phone Tapping <http://nytimes.com/2011/07/24/sunday-review/24words.html> -- 1)) Nikola Tesla invented and patented the only methods for secure communications, multi-plexing, Telegeodynamics, submarine communications and detection "" 4. "" ...covering a two destroyer Patrol Group with on-line Crypto RATT..." (IV.C.3, p. 17) "" -- 2)) Nikola Tesla & Westinghouse held and shared with GE, over 40 patents for the generation of power, distribution and motors for Hydro Dams. Later, Hydro dams were also used to produce Hydrogen & Jet Fuel. 6. ""Of 91 known locks and dams in NVN, only 8 targeted..."(IV. C. 7 (a), p. 53) "" -- 3)) Nikola Tesla proposed, created and witnessed weather modification in 1899, in Colorado Springs, and in his treatise "Problem of Increasing Human Energy" in 1900 7. "" ...obvious bid to turn ROLLING THUNDER into a punitive bombing campaign..." (IV. C. 7 (a), p. 83) "" -- 4)) Thomas Edison used his version of the Phonograph invention to tap phones for the phone company since 1878. Physical cables (to be tapped) were layed prior to 1900, from the US, to Europe, to China, to Australia. "" 11. "...9:30 a.m. today according to a telephone intercept Kosygin called Brezhnev..." (VI.C.3 (1), p. 61-62) ""

<https://nsarchive.wordpress.com/2011/09/16/what-were-the-eleven-words-the-government-intended-to-censor-from-the-pentagon-papers/> -- More points: William "Bill" Cooper was finishing his book on Vietnam when he was murdered: <https://youtube.com/watch?v=ng--2FdYOqU> -- More points: Nikola Tesla's works would have been de-classified in 1973, just as WaterGate was progressing.

"What were they looking for", "what were the 11 words"? Proof of the Tesla inventions and patents at work are here:

By July 4th 1891 Nikola Tesla invents Wireless electrodeless vacuum tube capable of (Thermo-nuclear Fusion) & for electricity. Patent citation: <https://patents.google.com/patent/US5162094A/> Carbon or Diamond button type that also "consumes no fuel". <https://facebook.com/photo.php?fbid=2028643984115088&id=100009085196708&set=a.1621698638142960%2F> -- 'Nikola Tesla's 1891 Incandescent Carbon Button Electric Light Patent [https://facebook.com/story.php?story\\_fbid=2526425080733584&id=116710791705037](https://facebook.com/story.php?story_fbid=2526425080733584&id=116710791705037) --It is categorized at the Patent office as a Laser, Ion Trap & Meter. In one citation under NiCola Tesla, for ionic Thermo-nuclear Fusion Electrical Generator with 100% efficiency of the HE/H. These lights he refers to them in other patents as "translation devices". His translation devices are also used to Hydro-crack Ozone, Hydrogen or Nitrate's from the Air otherwise known as Nitrogen Fixation. Tesla refers to these methods in his 1900, Treatise "The Problem of Increasing Human Energy". Sources for the above is at the top of [www.teslaleaks.com](http://www.teslaleaks.com)

Update: Manhattan Project Fusion 1981-2. NiCola Tesla Invented Thermo-Nuclear Fusion in 1892 that is 100% efficient! Fusion power generating system patent expires today, April 14th, 2019. Achieving sustained fusion conditions allowing essentially 100% utilization of fuel with either the D-T or D-He3 reaction at the magnetic convergent point in the drift region of the present invention will require a high density of ions in addition to high relative energy between particles. As the geometry of the magnetic focus, fusion region of the present invention on is a mirror image of the ion source geometry, it is, of course, important that the ion source geometry have as small dimensions as possible to produce the highest concentration of input nuclei at the magnetic convergent point. --<https://facebook.com/photo.php?fbid=2263892493923568&id=100009085196708&set=a.1621698638142960&source=57> -- [https://facebook.com/story/graphql\\_permalink/?graphql\\_id=UzpfSTExNjcxMDc5MTcwNTAzNzoyNTI2NDI1MDgwNzZmNTg0](https://facebook.com/story/graphql_permalink/?graphql_id=UzpfSTExNjcxMDc5MTcwNTAzNzoyNTI2NDI1MDgwNzZmNTg0) -- From the Patent: One method of achieving this goal is to use a modification of an invention by the American inventor, ((Nicola Tesla)) (U.S. Pat. No. 493,776, Incandescent Electric Light, 1892). In this invention Tesla showed how a small button of refractory material such as diamond could be heated to incandescent temperatures by allowing the material to be bombarded by ions as caused by the application of a high voltage, high frequency excitation to the refractory material. One embodiment of the present invention makes use of Tesla's Incandescent Electric Light by adding a few thousands of an inch diameter hole through the refractory material button. The added hole allows the passage of the input gases as required for the fusion reaction. As the gases are passing though the hole in the center of the button, they are heated to a high temperature that can be in the range of 5,000 F. as they make contact with the inner walls of the refractory material (diamond, for example). Upon leaving the hole exit, the already thermally excited molecules of gas are then totally ionized by the high intensity, RF field in combination with the concentrated ion bombardment created by the RF field. The net result is a highly concentrated ion source insuring that the ion concentration at the magnetic focused point of the present invention will be sufficient for a high probability of fusion reactions occurring. <https://patents.google.com/patent/US5162094A/en> -- Full post atop <http://teslaleaks.com/> -- Project Fusion in the Tesla FBI File: <https://www.facebook.com/photo.php?fbid=2263892493923568&set=a.1621698638142960&type=3&theater> -- Page 2 & 3 is here in the extended Tesla FBI File in HD: <https://www.youtube.com/watch?v=vryqT3WPYkE&t=08m18s>

At the receiver, the Induction comes from the Ground to the elevated terminal and can be received at any part on Earth; even inside Mountains."" --Nikola Tesla in "The True Wireless"", and in Supreme Court Case 369, 1943 Marconi vs U.S. & Neil Degross Tyson. Bonus: If Newton's Gravity was a "Force" as it says in the Dictionary, then why isn't there a "Gravity Motor" that you set on your table and it just runs with no source of input but Gravity. Since all Motors and all Meters are also Generators, then there should be a "Gravity Meter" and Gravity Motor on eBay for you all to buy. <http://nikolateslasolar.blogspot.com/2015/10/nikola-tesla-debunks-albert-einsteins.html?m=1> -- Tesla Leaks website has over 1200 pages and an additional 10,000 sources <http://teslaleaks.com>

Chris Edwards replied to William S. Gatlos Jr's comment.

Group: TeslaLeaks.com - Nikola Tesla Leaks

You mean the Jets and Buildings disappeared, but Mohammad Atta's passport was found on the ground unscathed? The head fireman and Naudet Brothers were filming at the same time the fireman was looking for a "gas leak". Where was the gas leaking to? Filling WTC floors with gas maybe? If planes, surely only a plane made harder than aluminum would penetrate steel, like Depleted Uranium, Osmium or Iridium. Surely, only Hydrazine can weaken or melt steel. If planes, they were filled with Hydrazine aka Napalm. Surely at that speed, planes would only have 1 tenth of a second margin of error. Hardly a "Sure plan". If planes, they were remote controlled or tethered in.

Master Yoda -- Top 13) Debunking Einstein, Maxwell, Hertz, Ohm, Marconi & Newton by Nikola Tesla points written in 2 minutes: Point #1: You can't bend Space. Show us the experiment!. "Space has no properties. That would be akin to push something against nothing, I refuse to subscribe to such an idea" - --Nikola Tesla on Debunking Einstein. #2a) "All Energy in Matter comes from its Environment (a source)", 2b) In math  $A=A$  and not the invalid relationship  $E=M$  --quotes and sources Nikola Tesla, John Galt, U.S. DOE & Nuclear Power. 2c) Radioactive elements ceases to be radioactive when buried deeper away from the Energy source. DOE (Matter has no energy in-of-itself. There is no Big Bangs, and no Big Bombs) #3) Tesla inventions are Instantaneous, Infinite Speed, or Faster than Light and explains Spooky Action at a Distance. "If  $E=M$ , and I can send energy 22 miles away, why not matter?" - Nikola Tesla. Do you have that real matter projector teleporter yet? and (Standing Waves, TWTA amplifiers, Electro-static Induction, Constructive Interference aka Butterfly Effect, Loops & Nodes, Neutrino's (DOE)). Tesla describes the speed of the Induction between an A/C Generator and distant A/C Motor as an instantaneous "Manifestation". Thus, the electric induction does not travel "through the wires" from point A to point B. It manifests at the receiver. 4) The Law of Thermodynamics only applies to heat transfer,

not electro-static Induction (Does not Apply). 5) Reluctance Engine's are non deterministic with two unknown variables; Maxwell Equations Do Not Apply. 6) Magnets and Electromagnets cease to be magnetic in high temperature; described and proven in Tesla's U.S. Patent for a PyroMagneto Electric Generator 7) U.S. patent office approves the only 24/7, Superconductive, Perpetual Motion Machine in its history 'Apparatus for the Utilization of Radiant Energy" March 21 1901, using Tesla's "Law of the Ionosphere". 8) Over-unity U.S. patent approved for his "Increasing Electrical Oscillations using Cold Temperature", self Cooling aka "Magnifying transmitter" 9) The Phenomena of "Negative Resistance" in A/C systems. Reducing Ohms to Zero or Negative creates a Devide by Zero Error 10) There is such a thing as a 1 Million Hour Motor that will last for 500 years, "perfectly efficient", unobstructed and indestructible 11) Thermo-nuclear Fusion is done with 100% efficiency using the --Nikola Tesla Incandescent Carbon, Ruby, Diamond button laser light patent of 1892, that he demonstrated at the Franklin Institute in 1891 -- 12) The Atom is the smallest Unit. Atoms are not "Split", but described properly by Tesla is "shattering structures" NT. I shattered structures of all materials with 10's Million Volts, and never witnessed any excess energy than Input"" NT and Therefore ""Atomic power is not over-unity, but is only useful in its 13 ancillary benefits like a heat sink ballast for The Grid, Manufacture or "Breed" of exotic gasses like Krypton or Helium with a Tesla X-Ray or a Tesla High Luminosity source (a Light Bulb), Tesla calls a "translation device", Manufacture of All Fuels & Nitrogen Fixation, Depleted Uranium, Desalination and a --Nikola Tesla Wireless Power Neutron Source Generator"" --;--Nikola Tesla and John Galt in Atlas Shrugged speech 13) Tesla's Secure Continuous Wave Radio is not a Hertzian Phenomena, which is not recoverable except in short distance, and cannot pass a Mountain; My Radio is Electro-static Induction. At the receiver, the Induction comes from the Ground to the elevated terminal and can be received at any part on Earth; even inside Mountains."" --Nikola Tesla in "The True Wireless"", and in Supreme Court Case 369, 1943 Marconi vs U.S. & Neil Degross Tyson. Bonus: If Newton's Gravity was a "Force" as it says in the Dictionary, then why isn't there a "Gravity Motor" that you set on your table and it just runs with no source of input but Gravity. Since all Motors and all Meters are also Generators, then there should be a "Gravity Meter" on eBay for you all to buy. <http://nikolateslasolar.blogspot.com/2015/10/nikola-tesla-debunks-albert-einsteins.html?m=1> -- 1200 more pages and 10,000 more sources at [www.teslaleaks.com](http://www.teslaleaks.com)

Point #1: You can't bend Space. Show us the experiment!. "Space has no properties. That would be akin to push something against nothing, I refuse to subscribe to such an idea" - --Nikola Tesla on Debunking Einstein. #2a) "All Energy in Matter comes from its Environment (a source)", 2b) In math  $A=A$  and not the invalid relationship  $E=M$  --quotes and sources Nikola Tesla, John Galt, U.S. DOE & Nuclear Power. 2c) Radioactive elements ceases to be radioactive when buried deeper away from the Energy source. DOE (Matter has no energy in-of-itself. There is no Big Bangs, and no Big Bombs) #3) Tesla inventions are Instantaneous, Infinite Speed, or Faster than Light and explains Spooky Action at a Distance. "If  $E=M$ , and I can send energy 22 miles away, why not matter?" - Nikola Tesla. Do you have that real matter projector teleporter yet? and (Standing Waves, TWTA amplifiers, Electro-static Induction, Constructive Interference aka Butterfly Effect, Loops & Nodes, Neutrino's (DOE)). Tesla describes the speed of the Induction between an A/C Generator and distant A/C Motor as an instantaneous "Manifestation". Thus, the electric induction does not travel "through the wires" from point A to point B. It manifests at the receiver. 4) The Law of Thermodynamics only applies to heat transfer, not electro-static Induction (Does not Apply). 5) Reluctance Engine's are non deterministic with two unknown variables; Maxwell Equations Do Not Apply. 6) Magnets and Electromagnets cease to be magnetic in high temperature; described and proven in Tesla's U.S. Patent for a PyroMagneto Electric Generator 7) U.S. patent office approves the only 24/7, Superconductive, Perpetual Motion Machine in its history 'Apparatus for the Utilization of Radiant Energy' March 21 1901, using Tesla's "Law of the Ionosphere". 8) Over-unity U.S. patent approved for his "Increasing Electrical Oscillations using Cold Temperature", self Cooling aka "Magnifying transmitter" 9) The Phenomena of "Negative Resistance" in A/C systems. Reducing Ohms to Zero or Negative creates a Devide by Zero Error 10) There is such a thing as a 1 Million Hour Motor that will last for 500 years, "perfectly efficient", unobstructed and indestructible 11) Thermo-nuclear Fusion is done with 100% efficiency using the --Nikola Tesla Incandescent Carbon, Ruby, Diamond button laser light patent of 1892, that he demonstrated at the Franklin Institute in 1891 -- 12) The Atom is the smallest Unit. Atoms are not "Split", but described properly by Tesla is "shattering structures" NT. I shattered structures of all materials with 10's Million Volts, and never witnessed any excess energy than Input"" NT and Therefore ""Atomic power is not over-unity, but is only useful in its 13 ancillary benefits like a heat sink ballast for The Grid, Manufacture or "Breed" of exotic gasses like Krypton or Helium with a Tesla X-Ray or a Tesla High Luminosity source (a Light Bulb), Tesla calls a "translation device", Manufacture of All Fuels & Nitrogen Fixation, Depleted Uranium, Desalination and a --Nikola Tesla Wireless Power Neutron Source Generator"" --;--Nikola Tesla and John Galt in Atlas Shrugged speech 13) Tesla's Secure Continuous Wave Radio is not a Hertzian Phenomena, which is not recoverable except in short distance, and cannot pass a Mountain; My Radio is Electro-static Induction. At the receiver, the Induction comes from the Ground to the elevated terminal and can be received at any part on Earth; even inside Mountains."" --Nikola Tesla in "The True Wireless"", and in Supreme Court Case 369, 1943 Marconi vs U.S. & Neil Degross Tyson. Bonus: If Newton's Gravity was a "Force" as it says in the Dictionary, then why isn't there a "Gravity Motor" that you set on your table and it just runs with no source of input but Gravity. Since all Motors and all Meters are also Generators, then there should be a "Gravity Meter" on eBay for you all to buy. <http://nikolateslasolar.blogspot.com/2015/10/nikola-tesla-debunks-albert-einsteins.html?m=1> -- 1200 more pages and 10,000 more sources at [www.teslaleaks.com](http://www.teslaleaks.com)

Electrical Experimenter, Jan 1919 editors notes on Nikola Tesla's technical prints, inventions and discoveries. The following is only a partial list of terms now adopted and published in text books: Tesla two-phase, three-phase, multi-phase, poly-phase system of power transmission

Tesla principal

Tesla rotating magnetic field

Tesla rotating magnetic field transformer

Tesla induction motor

Tesla split-phase motor

Tesla system of distribution

Tesla rotary transformer

Tesla system of transformation by condenser discharges

Tesla coil

Tesla oscillation transformer  
Tesla electrical oscillator  
Tesla mechanical oscillator  
Tesla high frequency machines  
Tesla dynamo-electric oscillator  
Tesla tube  
Tesla lamp  
Tesla high-potential methods  
Tesla inductor  
Tesla marvels  
Tesla impedance phenomena  
Tesla electro-therapy  
Tesla electrical massage  
Tesla currents  
Tesla transmission  
Teslaic experiments  
Tesla capacity  
Tesla arclight system  
Tesla third brush regulation  
Tesla devices  
Tesla sparks  
Tesla arrangements  
Tesla theory  
Tesla point  
Tesla Steam Turbine  
Tesla Gas Turbine  
Tesla Water Turbine  
Tesla Pump  
Tesla Compressor  
Tesla Igniter  
Tesla condensers  
Tesla electro-static field  
Tesla effects  
Tesla wireless system  
Tesla methods of wireless transmission  
Tesla magnifying transmitter  
Tesla telautomata  
Tesla insulation  
Tesla underground transmission, etc.

Chris Edwards posted in TeslaLeaks.com - Nikola Tesla Leaks.

In 1933 Nikola Tesla announces a new source of power; opposed to Einstein's physics, would lead to cheap energy for all. He declares his A/C motors would last for 500 years, are indestructible, like Niagara Falls 30M HP, and, in a Tesla Model S would last for 500 years. After 60 years, the Niagara Falls generators are replaced and 95% recycled for more efficient or larger generators. They do not replace them because they are broken.

[<https://facebook.com/NikolaTeslaSerbianGenius/photos/gm.2094794780830218/2550415808334511/>]

(<https://facebook.com/NikolaTeslaSerbianGenius/photos/gm.2094794780830218/2550415808334511/>) -- "The apparatus for capturing the energy and transforming it will partake both of mechanical and electrical features, and will be of ideal simplicity. "At first the cost may be found too high, but this obstacle eventually will be overcome. Moreover, the instrument will be, so to speak,

indestructible, and will continue to function for any length of time without additional expenditures."

Repost: My plan for President! Everyone gets a FREE Tesla Cyber-Truck and a real Whoopee Cushion. Treatise to Inventions of Edison by Tesla Leaks: To demonstrate "Genius"; I hereby offer all gas, coal, tree burner people all their "stranded assets" for \$1. I will then use your Hero, Thomas Edison, his patent for a "Trash Compactor" and put it all in a "Hugh pile of scrap" --Nikola Tesla because of your "costly historical error" NT. I will then transport it using the millions of miles of gas, coal and tree rail-lines (that were never intended for People to travel on) and scrap the rails along the way. Along the way still; 3,000 Thomas Edison DC generators for those coal plant rails were already scrapped when Niagara Falls went online in 1896 (a job well done). Next, I will dump it using another Thomas Edison patent in 1903 for a "Dumping Mechanism" at the newly formed site called the "Niagara Falls Dinosaur Dump" where jobs will be available riding "Dinosaur's" and picking up "rubble" or rocks. There, I will dump it again into the first in the world in 1899 the Nikola Tesla Electric Furnace at Niagara Falls. The steel Smelter will turn it all into one big slag of super-luminescent Krypton, superconductive, diamond encrusted (Alien) Dinosaur Dung. The up to 30 carat synthetic diamonds come free as a waste product of an electric furnace. So, the carbon dust diamonds is an automatic; sprinkling on the dung to make it 1000X brighter or more luminescent than your LED. (China has a patent for lights using this diamond dust, 1000X more efficient than LED.) These special Tesla Dynamos and "translation device" (a Tesla light bulb) are also used to hydro-crack the superconductive Krypton gas from Air like they do in Westinghouse Nuclear Reactors. Any remaining plastic waste will be turned into real rubber "Whoopie Cushions" for everyone's new Tesla Model Y. Not the fake sound ones they have in their cars now. Real Ones! The Whoopie Cushions will be manufactured using the various and famous patents by Edison for Plastic Mold's. So, the cost of the Super-Slab of Dung, including the power, as described would be FREE. Lastly, I'm going to present it to the public for worship, pledges and allegiance called the "Thomas Edison" patent for a "Milking Machine". The Milking Machine will have an attachment; another Thomas Edison invention for the world's 1st "Cash Register"; so that the money changers can "calculate" what your "money" is worth; and keeps the rest anyhow. The "Milking Machine" will be available for pledges at the famous National Plastic Museum where the other statue of Edison resides for pledges (and allegiance) for his great work on "Plastic Moldings" for sex toys. I will then use those pledges to build a system where we don't need your crap. Ok? Thomas Edison, McGraw companies 2011 "Trash Compactor" <https://patents.google.com/patent/US9221600> / -- 1972 "Control Mechanisms for Trash Compactors".

<https://patents.google.com/patent/US9221600> / -- 1972 "Control Mechanisms for Trash Compactors".

<https://patents.google.com/patent/US3855919A/en> -- From all these inventions of Thomas Edison; the best Patent citation is for a giant "Trash Can". The Tesla Model 3 comes with no trash can; so get on Inventing! Thomas Edison's Trash Compactor: <https://patents.google.com/patent/US1311955A/en> -- Dumping Mechanism: <https://patents.google.com/patent/US1055524A/en> -- Plastic Slabs <https://books.google.com/books?id=HYkfVfNXIGIC&pg=PA9...> -- Milking Machine [<http://www.thebullvine.com/news/milking-machine-creator-recognised-100-years-after-his-invention-revolutionised-dairy-farming/>] (<http://www.thebullvine.com/news/milking-machine-creator-recognised-100-years-after-his-invention-revolutionised-dairy-farming/>) -- Cash Register <https://wired.com/2009/10/1021edison-light-bulb/> Moral of the story: (Edison & Tesla could have made a great team!)

Rise of the Jedi Podcastfacebook.com

Group: TeslaLeaks.com - Nikola Tesla Leaks

Rise of the Jedi Podcast: Episode 1 Transcript -- Welcome to Rise of the Jedi. I come to you with a message of the Empire and the for the Jedi; from the original Jedi Master, Nikola Tesla, known in cursive as Yoda. The emodiment of all Jedi's. In the last years, The Empire, basing it's New World Order on control of countries with food and continents with energy, has been shattered into a 1000 pieces. The old order of Clinton's Walmart, and George Herbert Walker Scherff, known as Curious George, HAARP, have been swept away. The old Jedi's who used The Force from the free powers of the sun, the wind, the Ocean and the Ether for the side of Light, like Tesla, have caused the Empire to attack the Jedi's hometown, his home, and museum, four times, and yours, using the idea of "World Wars" as the excuse. The powers of The Force are unlimited compared to the old powers of destroying resources for energy. Today, the Empire hired Donald Trump, as the Emperor, with Presidential Directive Powers, and Alex Jones as the self proclaimed "Cobra Commander" as Darth Vader. The dark forces of the Information War have been commanded to quote "release the greatest evil onto mankind" and to "jam the signals" of the Jedi on the Internet with quote "fake news". In the current episode, the Empire attempted to "end the Jedi", and failed. But in the previous episode, succeeded by the attempted assassination, castration and later kidnapping and torturing the old Jedi, Nikola Tesla. Despite the efforts of Princess Lea in hiding the plans to the Death Star, the Empire found the plans to the Death Star in a Multi-Decade Resistant Box; opened after 30 years of Yoda's disappearance. Their current attempt for a World Empire, however, has failed. The plans to the Death Star, at Wardencllyffe, and the free energy powers have been successfully hidden by the old Jedi and now transfered to R2D2 units around the Galaxy. Boba Fett hired by Darth Vader, failed to find and stop Hans Solo and his faster than light Mellenium Falcon from clearing a path for Luke Skywalker to destroy their Death Star. But the Emperor and the Empire is a Phantom Menace, of Fear, for Millenia using CRISES to create ORDER, and it will continue to be. Empire spy Snowden and troll trap Assange were sent throughout the Galaxy to determine what technology the Jedi's have created that would put an end to the power of the Empire. Both have failed. New Jedi energy ministers around Alderan, have declared "nothing can stop this transition". Since the capture and disappearance of Nikola Tesla, the Empire has spent hundreds of Trillions of dollars in newer elements of their defense; from Depleted Uranium, Osmium and Iridium, to HydraZine or Napalm, to the Death Star's Directed Energy Weapons. The Empire has already used their weaponry in World War 2, on Vietnam, Iraq, Serbia and New York. The great Jedi, William Bill Cooper, declared the Empire is "at least, 50-100 years beyond, what you can even imagine". Another Jedi, the publisher of Borderland Books declared "we are living at least 1000 years behind, what's already known". UNTIL THE LATEST of these conflicts, the Empire had no armaments industry. Only Thomas Edison's DC coal plants and Incandescent light bulbs. With the Empire's Dark Side forces, their makers of plowshares could, with time and as required, make light sabers as well. But now the Empire can no longer risk emergency improvisation of its defense; they have been compelled to create a permanent armaments industry of vast proportions. Added to this, 5 million men and women are directly engaged in the Empire's defense. The Empire spends on military security alone more than the net income of all private corporations. The Government has become the ultimate power in the Universe; as Emperor Obama declared "you must give your rights to an all powerful Sovereign". THIS CONJUNCTION of an immense military establishment and a large arms industry is new to the Empire. The total influence economic, political, even spiritual is felt in every city, every State house, every office of the Empire. The Emperor's loss of control of the Galaxy, created the imperative need for this development. Yet the Jedi must not fail to comprehend its grave implications. Our toil, resources and livelihood are all involved; so is the very structure of our society. IN THE COUNCILS of Empire, we must guard against the acquisition of unwarranted influence, whether sought or unsought, by the military industrial complex. The potential for the disastrous rise of misplaced power exists and will persist. WE MUST NEVER let the weight of this combination endanger our liberties or democratic processes. We should take nothing for granted. Only an alert and knowledgeable Jedi can compel the proper meshing of the huge industrial and military machinery of the Empire with the Jedi's peaceful methods and goals, so that security and liberty may prosper together. AKIN TO, and largely responsible for the sweeping changes in the Empire's industrial military posture, has been the technological revolution developed by Yoda. Yoda, under the auspices of the Empire, had been double crossed. The Empire, not aware of the powers of the Jedi, have spent your fortunes on

research of The Force; but it has become more formalized, complex, and costly. A steadily increasing share is conducted for, by, or at the direction of, the Empire. TODAY, the solitary Jedi, tinkering in his shop, has been overshadowed by task forces of New World Order stooges in laboratories and testing fields. In the same fashion, the free university, historically the fountainhead of free energy and scientific discovery, has experienced a revolution in the conduct of research. Partly because of the huge costs involved, an Empires contract becomes, virtually, a substitute for learning the true methods and uses of The Force. Even today, Disneyland, for example, was built by the Empires Army. THE PROSPECT of domination of the nation's scholars by Empire employment, project allocations, and the power of fiat money is ever present and is gravely to be regarded. YET, in holding scientific research and discovery of The Force in respect, as we should, we must also be alert to the equal and opposite danger that the Empire has become the captive of a Dark Side scientific-technological elite. In the following episode, Episode 2, learn the powers of The Force, Jedi Mind Tricks and the Instinct, Intuition and Imagination of the Jedi. Rise of the Jedi Podcast: Episode 1 Transcript -- Welcome to Rise of the Jedi. I come to you with a message of the Empire and the for the Jedi; from the original Jedi Master, Nikola Tesla, known in cursive as Yoda. The emodiment of all Jedi's. In the last years, The Empire, basing it's New World Order on control of countries with food and continents with energy, has been shattered into a 1000 pieces. The old order of Clinton's Walmart, and George Herbert Walker Scherff, known as Curious George, HAARP, have been swept away. The old Jedi's who used The Force from the free powers of the sun, the wind, the Ocean and the Ether for the side of Light, like Tesla, have caused the Empire to attack the Jedi's hometown, his home, and museum, four times, and yours, using the idea of "World Wars" as the excuse. The powers of The Force are unlimited compared to the old powers of destroying resources for energy. Today, the Empire hired Donald Trump, as the Emperor, with Presidential Directive Powers, and Alex Jones as the self proclaimed "Cobra Commander" as Darth Vader. The dark forces of the Information War have been commanded to quote "release the greatest evil onto mankind" and to "jam the signals" of the Jedi on the Internet with quote "fake news". In the current episode, the Empire attempted to "end the Jedi", and failed. But in the previous episode, succeeded by the attempted assassination, castration and later kidnapping and torturing the old Jedi, Nikola Tesla. Despite the efforts of Princess Lea in hiding the plans to the Death Star, the Empire found the plans to the Death Star in a Multi-Decade Resistant Box; opened after 30 years of Yoda's disappearance. Their current attempt for a World Empire, however, has failed. The plans to the Death Star, at Wardencylffe, and the free energy powers have been successfully hidden by the old Jedi and now transferred to R2D2 units around the Galaxy. Boba Fett hired by Darth Vader, failed to find and stop Hans Solo and his faster than light Mellenium Falcon from clearing a path for Luke Skywalker to destroy their Death Star. But the Emperor and the Empire is a Phantom Menace, of Fear, for Millenia using CRISES to create ORDER, and it will continue to be. Empire spy Snowden and troll trap Assange were sent throughout the Galaxy to determine what technology the Jedi's have created that would put an end to the power of the Empire. Both have failed. New Jedi energy ministers around Alderan, have declared "nothing can stop this transition". Since the capture and disappearance of Nikola Tesla, the Empire has spent hundreds of Trillions of dollars in newer elements of their defense; from Depleted Uranium, Osmium and Iridium, to HydraZine or Napalm, to the Death Star's Directed Energy Weapons. The Empire has already used their weaponry in World War 2, on Vietnam, Iraq, Serbia and New York. The great Jedi, William Bill Cooper, declared the Empire is "at least, 50-100 years beyond, what you can even imagine". Another Jedi, the publisher of Borderland Books declared "we are living at least 1000 years behind, what's already known". UNTIL THE LATEST of these conflicts, the Empire had no armaments industry. Only Thomas Edison's DC coal plants and Incandescent light bulbs. With the Empire's Dark Side forces, their makers of plowshares could, with time and as required, make light sabers as well. But now the Empire can no longer risk emergency improvisation of its defense; they have been compelled to create a permanent armaments industry of vast proportions. Added to this, 5 million men and women are directly engaged in the Empire's defense. The Empire spends on military security alone more than the net income of all private corporations. The Government has become the ultimate power in the Universe; as Emperor Obama declared "you must give your rights to an all powerful Sovereign". THIS CONJUNCTION of an immense military establishment and a large arms industry is new to the Empire. The total influence economic, political, even spiritual is felt in every city, every State house, every office of the Empire. The Emperor's loss of control of the Galaxy, created the imperative need for this development. Yet the Jedi must not fail to comprehend its grave implications. Our toil, resources and livelihood are all involved; so is the very structure of our society. IN THE COUNCILS of Empire, we must guard against the acquisition of unwarranted influence, whether sought or unsought, by the military industrial complex. The potential for the disastrous rise of misplaced power exists and will persist. WE MUST NEVER let the weight of this combination endanger our liberties or democratic processes. We should take nothing for granted. Only an alert and knowledgeable Jedi can compel the proper meshing of the huge industrial and military machinery of the Empire with the Jedi's

peaceful methods and goals, so that security and liberty may prosper together. AKIN TO, and largely responsible for the sweeping changes in the Empire's industrial military posture, has been the technological revolution developed by Yoda. Yoda, under the auspices of the Empire, had been double crossed. The Empire, not aware of the powers of the Jedi, have spent your fortunes on research of The Force; but it has become more formalized, complex, and costly. A steadily increasing share is conducted for, by, or at the direction of, the Empire. TODAY, the solitary Jedi, tinkering in his shop, has been overshadowed by task forces of New World Order stooges in laboratories and testing fields. In the same fashion, the free university, historically the fountainhead of free energy and scientific discovery, has experienced a revolution in the conduct of research. Partly because of the huge costs involved, an Empires contract becomes, virtually, a substitute for learning the true methods and uses of The Force. Even today, Disneyland, for example, was built by the Empires Army. THE PROSPECT of domination of the nation's scholars by Empire employment, project allocations, and the power of fiat money is ever present and is gravely to be regarded. YET, in holding scientific research and discovery of The Force in respect, as we should, we must also be alert to the equal and opposite danger that the Empire has become the captive of a Dark Side scientific-technological elite. In the following episode, Episode 2, learn the powers of The Force, Jedi Mind Tricks and the Instinct, Intuition and Imagination of the Jedi. Wrong. Wireless power can't provide the 13 functions of a Nuclear power plant, that Telsa & Westinghouse invented. Like purifying metals to Depleted Uranium, Desalination, manufacturing gasses like Krypton or even Gasoline, Demand Response, District Heating etc. etc. etc.

## Rise of the Jedi Podcast Episode 1: Transcript

Welcome to Rise of the Jedi. I come to you with a message of the Empire and the for the Jedi; from the original Jedi Master, Nikola Tesla, known in cursive as Yoda. The emodiment of all Jedi's. In the last years, The Empire, basing it's New World Order on control of countries with food and continents with energy, has been shattered into a 1000 pieces. The old order of Clinton's Walmart, and George Herbert Walker Scherff, known as Curious George, HAARP, have been swept away.

The old Jedi's who used The Force from the free powers of the sun, the wind, the Ocean and the Ether for the side of Light, like Tesla, have caused the Empire to attack the Jedi's hometown, his home, and museum, four times, and yours, using the idea of "World Wars" as the excuse. The powers of The Force are unlimited compared to the old powers of destroying resources for energy. Today, the Empire hired Donald Trump, as the Emperor, with Presidential Directive Powers, and Alex Jones as the self proclaimed "Cobra Commander" as Darth Vader. The dark forces of the Information War have been commanded to quote "release the greatest evil onto mankind" and to "jam the signals" of the Jedi on the Internet with quote "fake news".

In the current episode, the Empire attempted to "end the Jedi", and failed. But in the previous episode, succeeded by the attempted assassination, castration and later kidnapping and torturing the old Jedi, Nikola Tesla. Despite the efforts of Princess Lea in hiding the plans to the Death Star, the Empire found the plans to the Death Star in a Multi-Decade Resistant Box; opened after 30 years of Yoda's disappearance. Their current attempt for a World Empire, however, has failed. The plans to the Death Star, at Wardencylffe, and the free energy powers have been successfully hidden by the old Jedi and now transfered to R2D2 units around the Galaxy.

Boba Fett hired by Darth Vader, failed to find and stop Hans Solo and his faster than light Mellenium Falcon from clearing a path for Luke Skywalker to destroy their Death Star. But the Emperor and the Empire is a Phantom Menace, of Fear, for Millenia using CRISES to create ORDER, and it will continue to be. Empire spy Snowden and troll trap Assange were sent throughout the Galaxy to determine what technology the Jedi's have created that would put an end to the power of the Empire. Both have failed. New Jedi energy ministers around Alderan, have declared "nothing can stop this transition".

Since the capture and disappearance of Nikola Tesla, the Empire has spent hundreds of Trillions of dollars in newer elements of their defense; from Depleted Uranium, Osmium and Iridium, to HydraZine or Napalm, to the Death Star's Directed Energy Weapons. The Empire has already used their weaponry in World War 2, on Vietnam, Iraq, Serbia and New York. The great Jedi, William Bill Cooper, declared the Empire is "at least, 50-100 years beyond, what you can even imagine". Another Jedi, the publisher of Borderland Books declared "we are living at least 1000 years behind, what's already known".

UNTIL THE LATEST of these conflicts, the Empire had no armaments industry. Only Thomas Edisons's DC coal plants and Incandescent light bulbs. With the Empire's Dark Side forces, their makers of plowshares could, with time and as required, make light sabers as well. But now the Empire can no longer risk emergency improvisation of its defense; they have been compelled to create a permanent armaments industry of vast proportions. Added to this, 5 million men and women are directly engaged in the Empire's defense.

The Empire spends on military security alone more than the net income of all private corporations. The Government has become the ultimate power in the Universe; as Emperor Obama declared "you must give your rights to an all powerful Sovereign". THIS

CONJUNCTION of an immense military establishment and a large arms industry is new to the Empire. The total influence economic, political, even spiritual is felt in every city, every State house, every office of the Empire.

The Emperor's loss of control of the Galaxy, created the imperative need for this development. Yet the Jedi must not fail to comprehend its grave implications. Our toil, resources and livelihood are all involved; so is the very structure of our society. IN THE COUNCILS of Empire, we must guard against the acquisition of unwarranted influence, whether sought or unsought, by the military industrial complex.

The potential for the disastrous rise of misplaced power exists and will persist. WE MUST NEVER let the weight of this combination endanger our liberties or democratic processes. We should take nothing for granted. Only an alert and knowledgeable Jedi can compel the proper meshing of the huge industrial and military machinery of the Empire with the Jedi's peaceful methods and goals, so that security and liberty may prosper together.

AKIN TO, and largely responsible for the sweeping changes in the Empire's industrial military posture, has been the technological revolution developed by Yoda. Yoda, under the auspices of the Empire, had been double crossed. The Empire, not aware of the powers of the Jedi, have spent your fortunes on research of The Force; but it has become more formalized, complex, and costly. A steadily increasing share is conducted for, by, or at the direction of, the Empire.

TODAY, the solitary Jedi, tinkering in his shop, has been overshadowed by task forces of New World Order stooges in laboratories and testing fields. In the same fashion, the free university, historically the fountainhead of free energy and scientific discovery, has experienced a revolution in the conduct of research. Partly because of the huge costs involved, an Empires contract becomes, virtually, a substitute for learning the true methods and uses of The Force. Even today, Disneyland, for example, was built by the Empires Army.

THE PROSPECT of domination of the nation's scholars by Empire employment, project allocations, and the power of fiat money is ever present and is gravely to be regarded. YET, in holding scientific research and discovery of The Force in respect, as we should, we must also be alert to the equal and opposite danger that the Empire has become the captive of a Dark Side scientific-technological elite. In the following episode, Episode 2, learn the powers of The Force, Jedi Mind Tricks and the Instinct, Intuition and Imagination of the Jedi. [https://en.wikipedia.org/wiki/War\\_of\\_the\\_currents](https://en.wikipedia.org/wiki/War_of_the_currents)

Wikipedia on "The War of the Currents" tells lies and claim s that Westinghouse invented A/C; and doesn't include one word about --Nikola Tesla. "an alternating current system developed by George Westinghouse's company".

[[https://en.wikipedia.org/wiki/War\\_of\\_the\\_currents](https://en.wikipedia.org/wiki/War_of_the_currents)]([https://l.facebook.com/l.php?u=https%3A%2F%2Fen.wikipedia.org%2Fwiki%2FWar\\_of\\_the\\_currents%3Ffbclid%3DIwAR2B6Btpf07gSzv2SdghThI4\\_mZOqyYidZzZ8F6zzZIZ0BtxBGyUWRCw&h=AT10KBYdb6J8hWq8JrwXkWBIRQ60SplmYZAYJWPpNeeMOxjyC3WXkuB6Vt2bRw4KOTwu-QhaX5T\\_hAAAdJ2LhIxivHEywmhR5mNNJeNxUzJRaXlPbR7saJCDu0\\_xu7qsFuhs9rH0](https://l.facebook.com/l.php?u=https%3A%2F%2Fen.wikipedia.org%2Fwiki%2FWar_of_the_currents%3Ffbclid%3DIwAR2B6Btpf07gSzv2SdghThI4_mZOqyYidZzZ8F6zzZIZ0BtxBGyUWRCw&h=AT10KBYdb6J8hWq8JrwXkWBIRQ60SplmYZAYJWPpNeeMOxjyC3WXkuB6Vt2bRw4KOTwu-QhaX5T_hAAAdJ2LhIxivHEywmhR5mNNJeNxUzJRaXlPbR7saJCDu0_xu7qsFuhs9rH0)) --

George Westinghouse didn't invent anything A/C. The 40 Tesla Polyphase patents were already filed by 1887 for commercial use, and were purchased by Westinghouse for a "Kings Ransom". The patents were used by Tesla in 1889 (Wardenclyffe foreclosure appeal) and 1899 in Colorado Springs. Westinghouse then used the Tesla patents and Tesla's assistance to build the AMES Hydro-electric plant at Telluride in 1891 and Niagara Falls in 1895. Nine of the 13 patents for Niagara Falls are stamped in metal placards at the falls with the name 'Nikola Tesla' with the patent numbers. The search for Hydro-electric locations in the US was called "The Columbian Exposition"; named after The Columbian Exposition of 1893. After the Tesla A/C patents expired, in 1904, Tesla reports to JP Morgan that he, Tesla, had sold \$6B in his inventions since then. Westinghouse was merely a customer of Tesla. If Bugs Bunny buys the Tesla patents, makes no improvement or patents; does Bugs get credit for inventing it? -- Mr. AB Barron on the Tesla Transformers & Wardenclyffe Tower (The Electrical World and Engineer 1902) and 1889 [<https://books.google.com/books?id=z7VQAAAAAYAAJ&pg=PA499&lpg=PA499&dq=barron+nikola+tesla>](<https://l.facebook.com/l.php?u=https%3A%2F%2Fbooks.google.com%2Fbooks%3Fid%3Dz7VQAAAAAYAAJ%26pg%3DPA499%26lpg%3DPA499%26dq%3Dbarron%2Bnikola%2Btesla%26fbclid>)

The REAL "Current War" by Tesla Leaks: Nikola Tesla fingers JP Morgan who sets fire to Tesla's Lab in 1895 then pays Tesla \$150K to keep quiet (not investment for Wardenclyffe, which wasn't built until 1900-1907). Tesla abandons A/C for Wireless after Morgan buys Anaconda Copper; later the basis for the banking crash of 1907 that bankrupt Tesla & Westinghouse. Tesla allegedly tears up his A/C contract to save Westinghouse; and 50% of their income was for lawyers to protect lawsuits filed by Edison & GE. This led to a "patent sharing agreement" with GE for A/C.

Group: TeslaLeaks.com - Nikola Tesla Leaks

December 21 2019 Tesla Leaks published the updated price here years ago to get the entire world to 100% renewables is \$13-\$60T to pay itself off in 7 years. Then becomes "too cheap to meter) Nixon, or you'll be "paid to take it" due to overcapacity and Negative Prices. It would cost \$73 trillion to revamp power grids, transportation, manufacturing and other systems to run on wind, solar and hydro power, including enough storage capacity to keep the lights on overnight, Mark Jacobson said in a study published Friday in the journal One Earth. But that would be offset by annual savings of almost \$11 trillion, the report found.

Group: TeslaLeaks.com - Nikola Tesla Leaks

Nov. 17 2018 In 1893 Nikola Tesla introduced the first portable Tesla coil at the World's Columbian Exposition. By the early 20th century it had been adapted into Violet Ray High Frequency Current technology, an early American energy medicine categorized in the field of electrotherapy. Most violet rays were produced before the Great Depression. This Marvel Violet Ray was patented Aug. 24, 1924. According to the instruction booklet, "Violet Rays present a remedy upon which we can rely. They are positive and certain in action. They will reach where medicine does not, and often cannot – yet they cause no pain, no disagreeable sensation or discomfort. They furnish a soothing relief. They destroy germs and have a strong power over infection." Basically, the device was plugged in and the glass applicator tubes would glow bright purple with the high frequency energy. The energy waves being emitted could then be applied to the problem area of the body. A multitude of applicators were available (both internal and external ... but we'll not delve further into that topic.) Daily treatments were recommended for a wide variety of ailments, from abscesses to wrinkles. Yet, the Violet Ray came under attack in the 1940s. Numerous lawsuits eventually led to the ban of Violet Ray manufacturing in the US. However, companies outside of the U.S. still make and offer this device today. Several varieties can be found online, some even using the name of noted American clairvoyant, Edgar Cayce, who advocated for the use of Violet Rays in nearly 900 of his readings. Today there seems to be a renewed interest in holistic healing, homeopathic and alternative medicine, natural remedies and energy healing. Use of herbal supplements and essential oils as well as alternative and energy therapies like reiki, reflexology, and acupuncture are becoming more main stream. Is the current conflict over CBD oil and medical marijuana a modern replay of the Violet Ray saga? No matter your stance on these issues, further insight can always be gleaned by looking to our history. Nov 20th 2018 Repost on Westinghouse/Nikola Tesla's Nuclear Power Plant Functions, Safety and the Danger Hoax: No one has ever died from Westinghouse/Nikola Tesla nuclear power plants. The plants use Nikola Tesla's high frequency, high tension generator's, his "neutron" generators, Tesla Coils, Tesla Disc Turbine, his Methods to Purify (heavy) Metals (John G Trump, FBI file on Tesla), and Tesla's heat pump patent, use of Lithium (Tesla 1899), Uranium Salts (Uranium glass for Tesla's Wireless Lights), NiCola Tesla's Incandescent Lamp used for Thermo-nuclear fusion of Helium/Hydrogen where 100% of the fuel is consumed (recycled like "a perpetual motion machine" - Patent Office) ... to perform some of the 12 functions of the new plants that are "impossible to melt down". (Nothing to do with Einstein) <https://www.youtube.com/watch?v=FcGLNyM4VP4>

<https://www.uspto.gov/about-us/news-updates/remarks-director-iancu-center-strategic-and-international-studies-conference>

Group: TeslaLeaks.com - Nikola Tesla Leaks

Oct 31st 2018 USPO | Remarks by Director Iancu at the Center for Strategic and International Studies Conference on Nikola Tesla VS Thomas Edison (AC/DC) at the Chicago Worlds Fair in 1893. This awe-inspiring "City of Light" was the work of George Westinghouse and his company, backed by technology from inventor Nikola Tesla. Westinghouse beat out Thomas Edison and won the bid to illuminate the Exposition, and in doing so, enabled the public to observe firsthand the abilities of alternating current (or AC) power. <https://www.uspto.gov/about-us/news-updates/remarks-director-iancu-center-strategic-and-international-studies-conference> But the World's Columbian Exposition on Oct 9th 1893 was much more than simply the first all-electric fair in history. It also marked an end to the so-called "War of the Currents," as the fair made clear that Westinghouse's AC, and not Edison's DC, was the power of the future. The "War of the Currents" started with a patent that had been issued 13 years earlier. After analyzing "no fewer than 6,000 vegetable growths" and "ransacking the world for the most suitable filament material," Thomas Edison on October 21, 1879, completed 14 months of testing with an incandescent electric light bulb that lasted about half a day – more than 13 hours. And soon, he got a carbon-filament bulb to last 40 hours. Then on January 27, 1880, Edison was granted U.S. patent number 223,898 for his electric lamp, or light bulb, an invention he considered his "crowning triumph." But Edison's patented work was based on DC current. Westinghouse later started to compete with a different, AC-based system developed mostly by Tesla. And, with that different technology, Westinghouse "won" the War of the Currents. But beyond technology, the famous battle between the two visions—AC vs DC—is heavy with meaning for the patent system. First, it obviously illustrates that intellectual property incentivizes original innovation, such as Edison's, by protecting and rewarding one's original ideas. Edison was an experienced inventor and patent owner, and the patent system acted as a significant incentive for him to invest so much time, effort and resources to develop the light bulb and electricity system. And then, given Edison's success, Westinghouse and Tesla were incentivized to create something new themselves—something different from Edison's. If Edison's original technology were not patented, would Westinghouse have invested so much time, effort and resources to develop an alternative (and perhaps better) technology? Hard to tell.

Chris Edwards posted in TeslaLeaks.com - Nikola Tesla Leaks.

The Shanghai Museum and Belgrade Museum have cataloged "1000 Inventions" of Nikola Tesla's, not including inventions that appeared later based on his observed laws like the "Ionosphere" or Arts Of "Telegeodynamics" nor "patents I did not file" on new physics like "Teleforce". Patents he did not file after his 1896 lab fire. Patent citations to the existing Tesla patents. Patents involved with "Tuned Lightning". <https://shine.cn/news/metro/1810013015/> -- Tuned Lightning <http://tfcbooks.com/tesla/1907-03-08.htm> -- Teleforce <https://renew.com/general10/deathray.htm> -- Telegeodynamics <https://en.wikipedia.org/wiki/Telegeodynamics> -- Weather Modification <https://nikolateslasolar.blogspot.com/2017/09/9-11-anniversary-2017-nikola-tesla.html> -- His 1000 Lights at Wardencliff [http://tfcbooks.com/tesla/nt\\_on\\_ac\\_appendix\\_2.htm](http://tfcbooks.com/tesla/nt_on_ac_appendix_2.htm) -- The Ionosphere <https://www.facebook.com/photo.php?fbid=2028642334115253&set=pcb.2028642874115199&type=3&theater&ifg=1> -- Missing <https://nikolateslasolar.blogspot.com/2017/01/tesla-leaks-nikola-tesla-missing.html> -- Patent Applications <https://ieeexplore.ieee.org/document/6419149>

Oct 19th 2018 ORNL demonstrated 120KW wireless power transfer at the National Transportation Research Center, a DOE Office of Science User Facility at Oak Ridge National Lab. Tests confirmed a 97% efficiency at 6" coil separation, which is comparable to conventional, wired high-power fast chargers. ORNL researchers will explore innovations to increase power level to 350KW; which could charge a Tesla Model S to 300+ miles in under 15 min, while also refining dynamic wireless charging technology. A dynamic system enables the automatic charging of electric vehicles using wireless charging pads installed under roadways. Higher power charging systems are needed to minimize the cost and complexity of dynamic charging. "The goal is dynamic charging at highway speeds," Galigekere said. <https://www.ornl.gov/news/ornl-demonstrates-120-kilowatt-wireless-charging-vehicles>

Wireless Power Transmission improvements published in Sept-Oct 2018: #metasurface #metamaterials #surface #wave #amplification #flux #refocusing Oct 5th 2018 Analysis of coupling between magnetic dipoles enhanced by metasurfaces for wireless power transfer efficiency improvement. In our analysis, we have shown that using a proper equivalent inductive surface impedance embedded between the two magnetic dipoles of the WPT system, a metasurface could be designed for refocusing the flux due to the transmitter coil at the receiver coil and surface wave amplification. <https://www.nature.com/articles/s41598-018-33174-8>

#wireless #powered #autonomous #torpedo Sept 27th 2018 Research on wireless power transfer system for charging Torpedo autonomous underwater vehicles. The system works well with 100 W output and 72% efficiency. <http://journals.sagepub.com/doi/abs/10.1177/1687814018802563>

#wireless #power #transfer #emf #reduction Sept 26th 2018 A hybrid shielding structure for reduction of the leakage magnetic field in wireless power transfer system. A 80% reduction of EMF loss and a 77% efficiency was achieved. <https://onlinelibrary.wiley.com/doi/abs/10.1002/mop.31372>

Sept 25th 2018 Adaptive Resonant Beam Charging for Intelligent Wireless Power Transfer. Numerical evaluation demonstrates that ARBC can save 61% battery charging energy and 53%-60% supplied energy compared with RBC. Furthermore, ARBC has high energy-saving gain over RBC when the WPT is inefficient. ARBC in WPT is similar to link adaption in wireless communications. Both of them play the important roles in their respective areas. <https://arxiv.org/abs/1809.09364>

Oct 2018 #3rdharmonic #recycling Wireless Power Transfer Antenna Alignment Using Third Harmonic. Its power is completely returned to the base station by the same hybrid and another antenna pair working at the 3rd harmonic frequency. Maximum power

transfer is thus realized when both transmitting and receiving antennas are aligned. The proposed method is validated by ADS simulation and measurement.

Nov 5th 2018; The 117th Anniversary of Nikola Tesla's Patent "Apparatus for the Utilization of Radiant Energy". AURE is the only 24/7 perpetual motion machine ever approved by the patent office using the Tesla discovery of/and using the Ionosphere; approved by the PO just one month after the Assassination of President William McKinley.

<https://nikolateslasolar.blogspot.com/2014/11/nikola-tesla-apparatus-for-utilization.html>

-- Nov 5th is the 17th Anniversary of the murder of William (Bill) Cooper; who identified the fact that "every phone call in the world is being monitored"; what you are seeing on 9/11/2001 is "50-100 years beyond what you can even imagine".

<https://nikolateslasolar.blogspot.com/2017/09/9-11-anniversary-2017-nikola-tesla.html> -- REPOST: 9/11 Final Cut Featuring John G Trump, Nikola Tesla & William "Bill" Cooper <https://youtube.com/watch?v=ng--2FdYOqU>

For clarification, sources such as the JP Morgan Letters, Electrical Experimenter and others on Tesla Leaks reveal that Tesla's Tower Structure pictured and patented in 1907, approved in 1914, proposed at Niagara Falls and Wardencllyffe was supposed to contain a machine not yet constructed placed into the Cupola to create an artificial wire between the Ionosphere and through the Ground; creating concentric electrical standing waves using a high power, high frequency, high tension, UV generator. The "Apparatus for the Utilization of Radiant Energy" patent of 1901 was generally a receiving device filed after he theorized the "Ionosphere" in Colorado Springs. This device calls for a 5 mile high elevated condenser and metal; the most effective in di-electrics is Tin, able to absorb static electro positive electricity at a high capacity and discharge it efficiently, and/or, the battery material being efficiently electro-negative like Lithium or Uranium. This structure is connected to an Asynchronous, Reluctance motor to generate electricity or motive power. The complete system is self regulating based on the charge in the Ionosphere and converts the DC to AC for the motor/generator.

Oct 19, 2018 China to Launch Artificial Moon to Light Up Night Skies <http://time.com/5429288/china-chengdu-artificial-moon/> -- In Nikola Tesla's 1934 Treatise on "Powering Ships by Shore Beam"; he predicted ships would cross the ocean at far greater speeds by a high-tension current projected from power plants on shore to vessels at sea through the upper atmosphere. In short, high-tension currents of electricity passing through the stratosphere would light the sky and to a degree turn night into day.

Dr. Tesla, therefore, suggested that his other scheme, of stratosphere transmission of electricity, would be a far more feasible means of marine propulsion. The principles of the two plans are entirely distinct. The force beam is a thin barrage of tiny particles discharged at tremendous velocities from a kind of electrical gun. The other invention, which he has not hitherto discussed publicly, is of transmitting high tension currents through the upper air, and receiving them by means of a vertical ionizing beam which would be a sort of invisible electrode... "There is a method of conveying great power to ships at sea which would be able to propel them across oceans at high speed. This method I conceived between 1897 and 1899, and in Colorado Springs in 1899. I made experiments along this line on a large scale. <http://www.tfcbooks.com/tesla/1935-06-05.htm>

"The principle is this: A ray of great ionizing power is used to give to the atmosphere great powers of conduction. A high tension current of 10,000,000 to 12,000,000 volts is then passed along this ray to the upper strata of the air, which strata can be broken down very readily and will conduct electricity very well. "A ship would have to have equipment for producing a similar ionizing ray. The current which has passed through the stratosphere will strike this ray, travel down it and pass into the engines which propel the ship.

Pet Scheme to Light Ocean

"I will confess that I was disappointed when I first made tests along this line on a large scale. They did not yield practical results. At the time I used about 8,000,000 to 12,000,000 volts of electricity. As a source of ionizing rays I employed a powerful arc reflected up into the sky. At the time I was trying only to connect a high tension current and the upper strata of the air, because my pet scheme

for years has been to light the ocean at night.

"However, since 1902 I have made many improvements in my method which I know now will assure success. A power plant upon the Azores, for instance, could send a current up into the stratosphere and illuminate the sky sufficiently for pilots to discern objects upon the ocean at a safe distance."

Picture from "Powering ships by shore beam"; described in detail in Electrical Experimenter, 1920

<https://facebook.com/christopher.l.edwards13/videos/vb.716016631/10156722546496632/> -- Nikola Tesla's 5 original and final wireless power transmission publications from Electrical Experimenter magazine 1917-1920. Fake News Alert! There is no such thing as "Synthetic Marijuana" by Definition!. "Marijuana" is not a word; its a Mexican slang term. It's called "Cannabis". "Spice" has no cannabinoids synthesized from "Cannabis". The fake news claims there was 25 overdoses, I mean 30 overdoses, I mean 45 overdoses, No, 52 overdoses, I mean 70 overdoses, I mean 71 overdoses, No, 76 overdoses, I mean 80 overdoses, I mean 95 overdoses, at least 1000 overdoses! The news is always right even when they are always lying.

"Exploiting interference to amplify electrical waves" -- April 2, 2018 Focus: Wave Trick May Lead to Wireless Charging at a Distance.

A technique involving wave interference may improve the practicality of charging a phone wirelessly at some distance from the power source. April 19th 2018 Electromagnetic wizardry: Wireless power transfer enhanced by backward signal. "Exploiting interference to amplify waves". It may not be obvious, but wireless power transfer is already widely used. For example, unconnected induction coils are at the heart of transformers in television sets, smartphones, energy-saving lamps, power lines, etc.

A Tesla Leaks Original: Debunking Einstein -- <https://nikolateslasolar.blogspot.com/2015/10/nikola-tesla-debunks-albert-einsteins.html?view=flipcard> -- Nikola Tesla denied that Einstein's theory was true, not just because he rejected the idea that matter is convertible into energy, and energy into matter, or the existence of space-time, but because he himself had measured speeds traveling faster than light in numerous experiments... In 1899 he conducted experiments at Colorado Springs where he sent currents from his transmitter around earth and back to his receiver traveling at a mean velocity of 292,815 miles per second. On April of 1900 he published a patent on this transmitter titled the Art of Transmitting Electrical Energy Through the Natural Medium, which was just a play thing compared to his Magnifying Transmitter patented in 1914. Not only this, but as far back as 1896 he conducted experiments on cosmic rays where he measured cosmic ray velocities from the star, Antares, which he measured to be fifty times greater than the speed of light, thus demolishing one of the basic pillar of the structure of relativity.

<http://drnikolatesla.tumblr.com/post/159992409923/last-night-the-national-geographic-channel-began-a> -- Passages from Tesla's patent 787,412 were included verbatim in the introduction for special attention: -- The most essential requirement is that irrespective of frequency the wave or wave-train should continue for a certain period of time, which I have estimated to be not less than one-twelfth or probably 0.08484 of a second and which is taken in passing to and returning from the region diametrically opposite the pole over the earth's surface with a mean velocity of about 471,240 kilometers per second [292,822 miles per second, a velocity equal to one and a half times the "official" speed of light]. Group: TeslaLeaks.com - Nikola Tesla Leaks

7/19/2001 This Patent for an "Energy Conversion System" was approved 4 months before September 11th 2001. It describes the method to turn something "Mass Free" into "Kinetic Energy". <https://patents.google.com/patent/US20060082334A1/en> ... It refers to Nikola Tesla's 1897 Patent for a "System of Transmission of Electrical Energy". Energy conversion systems invention relates to apparatus for the conversion of massfree energy into electrical or kinetic energy, which uses in its preferred form a transmitter and a receiver both incorporating Tesla coils, the distal ends of whose secondary windings are co-resonant and connected to plates of a chamber, preferably evacuated or filled with water, such that energy radiated by the transmitter may be picked up by the receiver, the receiver preferably further including a pulsed plasma reactor driven by the receiver coil and a split phase motor driven by the reactor. Preferably the reactor operates in pulsed abnormal gas discharge mode, and the motor is an inertially damped drag motor. The invention also extends to apparatus in which an otherwise driven plasma reactor operating in pulsed abnormal gas discharge mode in turn used to drive an inertially damped drag motor. Nikola Tesla's System of transmission of electrical energy.

<https://www.cnbc.com/2018/06/26/electric-vehicles-will-prevail-despite-oil-industry-misinformation.html>

Former (Real) EPA Chief: Big Oil Is “Peddling Misinformation” About Electric Cars. Published on July 15th, 2018 | by Matt Pressman - Christine Todd Whitman served as head of the Environmental Protection Agency (EPA) under President George W. Bush back in 2001–2003. With experience having worked intimately with (and regulating) the energy industries, it should come as no surprise that she witnessed efforts from the oil industry to undermine clean energy solutions. Recently, Whitman came forward (via CNBC) to discuss Big Oil's misguided "misinformation" efforts.. <https://www.cnbc.com/2018/06/26/electric-vehicles-will-prevail-despite-oil-industry-misinformation.html>

What Does It Mean When Everybody Is Cheating On Emissions Standards? July 15th, 2018 by Steve Bakker. If you're keeping up

with all the post-Dieselgate news, you know that more and more automakers — to one degree or another — are being discovered to have falsified emission standards and/or fuel economy data. Here's a list of makers who have either admitted to emissions wrongdoing, or have been accused of it. <https://cleantechnica.com/2018/07/15/what-does-it-mean-when-everybody-is-cheating-on-emissions-standards/>

This is the original Nov. 5th 2015, Tesla Leaks retort on Debunking Einstein, Nuclear Bomb Hoax & Atomic Energy Danger Hoax: <http://nikolateslasolar.blogspot.com/2015/10/nikola-tesla-debunks-albert-einsteins.html> -- Nikola Tesla denied that Einstein's theory was true, not just because he rejected the idea that matter is convertible into energy, and energy into matter, or the existence of space-time, but because he himself had measured speeds traveling faster than light in numerous experiments... In 1899 he conducted experiments at Colorado Springs where he sent currents from his transmitter around earth and back to his receiver traveling at a mean velocity of 292,815 miles per second. On April of 1900 he published a patent on this transmitter titled the Art of Transmitting Electrical Energy Through the Natural Medium, which was just a play thing compared to his Magnifying Transmitter patented in 1914. <http://drnikolatesla.tumblr.com/post/159992409923/last-night-the-national-geographic-channel-began-a--> Passages from Tesla's patent 787,412 were included verbatim in the introduction for special attention: -- The most essential requirement is that irrespective of frequency the wave or wave-train should continue for a certain period of time, which I have estimated to be not less than one-twelfth or probably 0.08484 of a second and which is taken in passing to and returning from the

region diametrically opposite the pole over the earth's surface with a mean velocity of about 471,240 kilometers per second [292,822 miles per second, a velocity equal to one and a half times the "official" speed of light].

July 9th 2018 Veterans Today: Nikola Tesla and Albert Einstein, Part Three: Keys to the Universe. by Rand Clifford for Veterans Today. It's virtually impossible to fathom how far off the course of "betterment of humanity" we have been driven by the power status quo (PSQ) and its central banks. People, we've landed in a ditch called by the PSQ, "arrested human development". Perhaps more than any human ever born, Nikola Tesla could have steered us back on course with the Wheelwork of Nature (WON). Nikola Tesla said, "Science is but a perversion of itself unless it has as its ultimate goal the betterment of humanity." Too bad he is not driving— but wait, he actually is, in terms of the entire system of alternating current (AC) electricity that currently drives civilization, for starters, the list is long. So many contributions capitalized on by the PSQ came straight from the incredible mind of Tesla. But when he threatened the very foundations of power giving the PSQ utter domination of humanity, Tesla was and still is probably the most lied about person of all time. Eric Dollard says about 99% of mainstream information about Tesla is "worthless".

Who is Donald Trump's 'brilliant genius' nuclear Uncle John? 13 June 2018 -- During World War Two, When legendary physicist Nikola Tesla died in 1943, Prof Trump was asked by the FBI to examine Tesla's papers and equipment.

Prof Trump co-founded a company making generators for use in nuclear research, according to MIT archives.

AFP: Tesla File Releases Confirm FBI and Military Interest in Death Ray

June 9, 2018 - Nearly 75 years after the death of pioneering genius Nikola Tesla, questions still abound as to why the government was first to be notified of his death, and why much of the information from his notebook, seized by the government, has yet to be made public. Not even the Tesla museum in Belgrade, Serbia has been allowed access to all of his materials, leading some to wonder which of Tesla's ideas—such as the Death Ray—may indeed have been brought to fruition after his demise.

Group: TeslaLeaks.com - Nikola Tesla Leaks

May 11 2018 It's time to prepare for \$100 oil. A price of \$150, taking out the 2008 high, may also be a real possibility if events in the Middle East continue to escalate, as we have witnessed in recent days. While I believe that oil, given the vast supplies available around the world, has an economic value of about \$20 per barrel, it's becoming increasingly impossible to ignore a world that seems to want higher prices for crude. <https://www.cnn.com/2018/05/11/get-ready-for-100-a-barrel-oil-and-the-conflict-it-represents.html>

<https://intelligentfanatics.com/forums/topic/nikola-tesla-could-have-been-the-richest-man-ever/>

Tesla could have made billions of dollars if he hadn't ripped up his royalty contract with Westinghouse. It is estimated that Tesla could have become the first billionaire and histories' wealthiest individual, far surpassing John D. Rockefeller.

May 3rd 2018 Memes That Kill: The Future Of Information Warfare. After conducting research backed by DARPA — the same defense agency that helped spawn the internet — Dr. Robert Finkelstein proposed the creation of a brand new arm of the US military, a “Meme Control Center.” From “Tutorial: Military Memetics,” by Dr. Robert Finkelstein, presented at Social Media for Defense Summit, 2011. Basically, Dr. Finklestein’s Meme Control Center would pump the internet full of “memes” that would benefit the national security of the United States. Finkelstein saw a future in which guns and bombs are replaced by rumor, digital fakery, and social engineering. <https://www.cbinsights.com/research/future-of-information-warfare/>

Will the "flying desert turtle" strike back? April 4 2018 While renewable energy seems like a no-brainer for environmentalism, this type of wind farm has garnered pushback from environmental groups. They oppose the potential disturbance of wild lands and native species such as golden eagles and desert tortoises.

Last year, a similar project, Searchlight Wind, was abandoned after years of resistance from environmentalists. Conservation group Basin and Range Watch states opposition to development in the area because it is "surrounded by important lands and holds unique biodiversity and cultural landscapes." <https://lasvegassun.com/news/2018/may/04/renewable-energy-vs-the-environment-proposed-proje/>

May Day 2018 So far, there are exactly Zero (0) stories about Nikola Tesla in the US, nor about his system that gets electricity to everyone's home and all the devices in your home. With 10 Billion Bibles, 193 religions, Unlimited internet access for learning and the entire world population knows nothing compared to what the birds know. The so-called "bird brains"! That's the ultimate disrespect to any Bird! <https://youtube.com/watch?v=Ro068H6w8Vg>

Proven by Tesla Leaks in Oct. 2015: July 1st 2016 -- Cannabinoids remove plaque-forming Alzheimer's proteins from brain cells -- ScienceDaily - Scientists have found preliminary evidence that (THC) and other compounds found in marijuana can promote the cellular removal of amyloid beta, a toxic protein associated with Alzheimer's disease.

<http://www.sciencedaily.com/releases/2016/06/160629095609.htm> In 2015, the below blog published the function and mode of the cannabis cure for Alzheimers. The G-Protein receptor in Cannabinoids is responsible for the removal of protein-snippets in the brain. The cannabinoids are then excreted out of the body with the said proteins. Further, the cure for skin cancer was allegedly invented by Nikola Tesla using Ozone and Cannabis Oil and other oils. <http://nikolateslasolar.blogspot.com/2015/10/nikola-tesla-on-health-medical.html?view=flipcard> [https://en.wikipedia.org/wiki/Cannabinoid\\_receptor](https://en.wikipedia.org/wiki/Cannabinoid_receptor)

April 26 2018 This man surpasses Tesla by inventing an electric car that never needs charging. "The 1971 list indicates that patents for solar photovoltaic generators were subject to review and possible restriction if the photovoltaics were more than 20% efficient. Energy conversion systems were likewise subject to review and possible restriction if they offered conversion efficiencies in "excess of 70-80%." <https://www.disclose.tv/this-man-surpasses-tesla-by-inventing-an-electric-car-that-never-needs-charging-332283>

This is the Tesla/Marconi Station by Telefunken/AEG/AEG Live at Sayville, Long Island that was supposedly communicating with the Titanic at the time it sunk. But, radio waves are also designed to direct Automation Torpedoes to their target. The station used ULF radio waves (like a giant guitar) designed to communicate and send power to submarines as far south as South America and Australia. <https://teslauniverse.com/nikola-tesla/articles/high-frequency-oscillators-electro-therapeutic-and-other-purposes>

#electro #therapy #synchronism #defined The Electrical Engineer, November 17th, 1898 High Frequency Oscillators for Electro-therapeutic and Other Purposes by Nikola Tesla. One of the early observed and remarkable features of the high frequency currents, and one which was chiefly of interest to the physician, was their apparent harmlessness which made it possible to pass relatively great amounts of electrical energy through the body of a person without causing pain or serious discomfort. When a person is placed within such a loop, any pieces of metal, though of small bulk, are perceptibly warmed. Without doubt they would be also heated — particularly if they were of iron — when embedded in living tissue, and this suggests the possibility of surgical treatment by this method. It might be possible to sterilize wounds, or to locate, or even to extract metallic objects, or to perform other operations of this kind within the sphere of the surgeon's duties in this novel manner. The continuous improvement of the instruments and the study of the phenomenon may shortly lead to the establishment of a novel mode of hygienic treatment which would permit an instantaneous cleaning of the skin of a person, simply by connecting the same to, or possibly, by merely placing the person in the vicinity of a source of intense electrical oscillations, this having the effect of throwing off, in a twinkle of the eye, dust or particles of any extraneous matter adhering to the body. Such a result brought about in a practicable manner would, without doubt, be of incalculable value in hygiene and would be an efficient and time-saving substitute for a water bath, and particularly appreciated by those whose contentment consists in undertaking more than they can accomplish.-- <https://teslauniverse.com/nikola-tesla/articles/high-frequency-oscillators-electro-therapeutic-and-other-purposes> -- #synchronism #definition As before stated, when the oscillations in the primary and secondary circuits are in synchronism, the points of highest potential are on some portion of the terminal T. The synchronism being perfect and the length of the secondary coil just equal to one-quarter of the wave length, these points will be exactly on the free end of terminal T, that is, the one situated farthest from the end of the wire attached to the terminal. If this be so and if now the period of the oscillations in the primary be shortened, the points of highest potential will recede towards the secondary coil, since the wave-length is reduced and since the attachment of one end of the secondary coil to the ground determines the position of the nodal points, that is, the points of least potential. Thus, by varying the period of vibration of the primary circuit in any manner, the points of highest potential may be shifted accordingly along the terminal T, which has been shown, designedly, long to illustrate this feature. <https://teslauniverse.com/nikola-tesla/articles/high-frequency-oscillators-electro-therapeutic-and-other-purposes> -- Electrical Engineer, The, November 24th, 1898 Tesla's Complaint to Electrical Engineer Editor w/ Response <https://teslauniverse.com/nikola-tesla/articles/teslas-complaint-electrical-engineer-editor-w-response>

If this be so and if now the period of the oscillations in the primary be shortened, the points of highest potential will recede towards the secondary coil, since the wave-length is reduced and since the attachment of one end of the secondary coil to the ground determines the position of the nodal points, that is, the points of least potential. Thus, by varying the period of vibration of the primary circuit in any manner, the points of highest potential may be shifted accordingly along the terminal T, which has been shown, designedly, long to illustrate this feature. <https://teslauniverse.com/nikola-tesla/articles/high-frequency-oscillators-electro-therapeutic-and-other-purposes> -- Electrical Engineer, The, November 24th, 1898 Tesla's Complaint to Electrical Engineer Editor w/ Response <https://teslauniverse.com/nikola-tesla/articles/teslas-complaint-electrical-engineer-editor-w-response>

Group: TeslaLeaks.com - Nikola Tesla Leaks

**#electro #therapy #synchronism #defined** The Electrical Engineer, November 17th, 1898 High Frequency Oscillators for Electro-therapeutic and Other Purposes by Nikola Tesla. One of the early observed and remarkable features of the high frequency currents, and one which was chiefly of interest to the physician, was their apparent harmlessness which made it possible to pass relatively great amounts of electrical energy through the body of a person without causing pain or serious discomfort. When a person is placed within such a loop, any pieces of metal, though of small bulk, are perceptibly warmed. Without doubt they would be also heated — particularly if they were of iron — when embedded in living tissue, and this suggests the possibility of surgical treatment by this method. It might be possible to sterilize wounds, or to locate, or even to extract metallic objects, or to perform other operations of this kind within the sphere of the surgeon's duties in this novel manner. The continuous improvement of the instruments and the study of the phenomenon may shortly lead to the establishment of a novel mode of hygienic treatment which would permit an instantaneous cleaning of the skin of a person, simply by connecting the same to, or possibly, by merely placing the person in the vicinity of a source of intense electrical oscillations, this having the effect of throwing off, in a twinkle of the eye, dust or particles of any extraneous matter adhering to the body. Such a result brought about in a practicable manner would, without doubt, be of incalculable value in hygiene and would be an efficient and time-saving substitute for a water bath, and particularly appreciated by those whose contentment consists in undertaking more than they can accomplish.-- <https://teslauniverse.com/nikola-tesla/articles/high-frequency-oscillators-electro-therapeutic-and-other-purposes> -- **#synchronism #definition** As before stated, when the oscillations in the primary and secondary circuits are in synchronism, the points of highest potential are on some portion of the terminal T. The synchronism being perfect and the length of the secondary coil just equal to one-quarter of the wave length, these

points will be exactly on the free end of terminal T, that is, the one situated farthest from the end of the wire attached to the terminal. If this be so and if now the period of the oscillations in the primary be shortened, the points of highest potential will recede towards the secondary coil, since the wave-length is reduced and since the attachment of one end of the secondary coil to the ground determines the position of the nodal points, that is, the points of least potential. Thus, by varying the period of vibration of the primary circuit in any manner, the points of highest potential may be shifted accordingly along the terminal T, which has been shown, designedly, long to illustrate this feature. <https://teslauniverse.com/nikola-tesla/articles/high-frequency-oscillators-electro-therapeutic-and-other-purposes> -- Electrical Engineer, The, November 24th, 1898 Tesla's Complaint to Electrical Engineer Editor w/ Response <https://teslauniverse.com/nikola-tesla/articles/teslas-complaint-electrical-engineer-editor-w-response>

Thats a long conversationr depending on what your trying to do, how much money you have and whether the FCC will ever approve it. The idea of HF (sound waves) being the force to push electric fields with particle acellerators; aka Projected Kinetics. The force of "Electro-magnetic waves being perpendicular to the surface of the Earth; a Helmholtz resonator" NT. But, this ULF method is a similar way Whales communicate for thousands of miles. How surface waves from Earthquakes are measured; sesitive receivers. A large echo-chamber to amplify sound waves; small ones are used in cell phonoos. An inductive receiver of long wound coils tuned to 8Hz. Spark-gap transformers to increase voltage. Various receiving devices.

Group: Tesla's Ambassadors

Long metal tubes 420 ft by 1 foot, like a speaker box, would produce 1/4 of 8 Hz; buried horizontally to the earth surface would create the ULF surface waves; eventually standing waves.

This Electrical Experimenter is a 4 part series that includes his Autobiography, and last chapters on his Wireless System and Magnifying Transmitter. In his original writings he often refers properly and correctly to his previous patents, inventions and experiences, future needs, inventions he did not file, the work of other previous and contemporaty scientists and references to the work by his assistants; all while using his proper vernacular. You can't reproduce that with HAL 5000, the WOPR, Dave in a Space Odyssey, Captain Sulu, Spock or even Einstein's brain.

Chris Edwards commented on James Janota's post.

<https://patents.google.com/patent/US655838>

Group: The Tesla Society (UK)

The Wardenclyffe Tower "magnifying transmitter" in the adjustable Cupola, "the final machinery" NT. Tesla said to Morgan "If.you don't fund the rest of the project that "you will never seen that machinery's". However, in the final Electrical Experimenter, he calls for a special UV generator that is capable of creating a high tension radiant beam that acts as an artificial wire. You can go both ways with a "wire". Then you have to insulate it. See the Tesla patents for buried or elevated "conduits" for electrical conductors, like the Ionosphere of positive charge or Earth as the negative. A neutral space, neutron generator, would allow positive or negative charges to separate. <https://patents.google.com/patent/US655838>

<https://teslauniverse.com/nikola-tesla/books/publishers/houghton-mifflin-harcourt>

Houghton Mifflin, that publishes all your public school books, (who owns the S&P 500) has published a whole 2 books on Nikola Tesla and there is only 2 copies left in the entire world. One about the Electric Chair; having little to do with Tesla, and another one about "The Pigeon." Of course. All other 100 million books they publish is fake news, cartoons, mind control propaganda and bull-crap. <https://teslauniverse.com/nikola-tesla/books/publishers/houghton-mifflin-harcourt>

Didn't Thomas Edison electrocute elephant's and animals to claim A/C (5G, Radio or Wireless Power) was dangerous? He was lying. While at the same time, Edison's D/C trolleys were killing people. Thus the name "Brooklyn Trolley Dodgers". Later, the Trolley system of Edison's was replaced with the safer Westinghouse, Tesla system. Then the Brooklyn Trolley Dodgers could be renamed to the LA Dodgers. [https://youtube.com/watch?v=VD0Q5FeF\\_wU](https://youtube.com/watch?v=VD0Q5FeF_wU) -- He's not just a murder of animals, but also people.

Agenda 30 calls for 1-2 cents kW/hr from Wind turbines. Mexico just signed a contract for 1.8 cents, unsubsidized. That's 25 cents per electrical gallon. You just said you were against Agenda 2030? Then told some lie about the UN being the Totalitarian state and not Exxon and controlling your energy, food and water.

Alex Jones is that you? You're the one who claimed that wind turbines is the "new world order". The UN only sets guidelines and has no enforcement arm. Just like the Paris agreement that is purely voluntary. Are you going to start spouting about "carbon taxes" that don't exist! And subsidies for renewables that are no longer needed and in most cases don't exist?

[Apr 6, 2018, 12:19 AM](#)

Chris Edwards replied to his own comment.

Answer for commenters, Alex Jones trolls & Russian bots; "Is Nikola Tesla's system of worldwide wireless power dangerous?" "Not with my system" - NT. The loops and nodes of concentric electrical waves created by Wardencliff Towers "machinery" NT are tuned with the Ionosphere and the Schumann frequency by producing a "special type of lightning" he calls "tuned lightning" and therefore the electricity doesn't move. It becomes instantaneous and self-running. "You only have to request it, to receive it" - NT.

Tesla says it's Not electro-magnetic, but to reduce it towards zero. The more capacity added to the system creates the phenomena

of "negative resistance", also called "positive feedback"; and his "magnifying transmitter" functioned by reducing Ohms or resistance towards zero with his patent and process for "runaway superconductivity". It's not light, and is not limited to the speed of linear "electro-magnetic waves". That's besides the 25,000 people in the US who already get electrocuted with the current wired system. But of course, CNN, nor Alex Jones would ever mention those deaths. <https://youtube.com/watch?v=5x5qyaXX3Zc>

<https://nytimes.com/2018/04/03/opinion/tesla-model3-elon-musk.html>

Did Nikola Tesla really die "penniless" & "fornicate with a bird", will Tesla Inc. go bankrupt? Did Nikola Tesla die or was he murdered? Answer: No-No, Who knows and Murdered! The NY Times on Elon Musk, Tesla Inc & Nikola Tesla. (NY Times incorrectly claim Tesla died "penniless". NY Times is apparently not aware of the value of Nikola Tesla's possessions of 80 trunks, 30 bundles, multiple safe's, a multi-decade resistant box and 1000 points of lights he had at his Wardenclyffe appeal of 1922). Other inventions of Nikola Tesla's were stolen by competitors, purposeful lack of funding, government regulation, terrorist attacks, costly historical errors by Government and used by the U.S. Government for warfare, without payment to Tesla. For at least a year, there has been open warfare between the Tesla believers and the Tesla skeptics and short sellers. The believers see the advance orders for the Model 3 as testimony to the company's disruptive brilliance. The Tesla shorts — investors who bet against the stock — see the company as an automotive Ponzi scheme. To them, the founder and chief executive, Elon Musk, is beginning to look more like Tesla's corporate eponym, Nikola Tesla, the brilliant but eccentric scientist who in 1888 created the alternating current electrical grid that powers the world today and who died penniless. <https://nytimes.com/2018/04/03/opinion/tesla-model3-elon-musk.html>

Did Nikola Tesla really die "penniless" & "fornicate with a bird", will Tesla Inc. go bankrupt? Did Nikola Tesla die or was he murdered? Answer: No, Who knows and Murdered! The NY Times on Elon Musk, Tesla Inc and Nikola Tesla. (NY Times incorrectly claim that Tesla died "penniless". The NY Times is apparently not aware of the value of Nikola Tesla's possessions of 80 trunks, 30 bundles, multiple safe's, a multi-decade resistant box and 1000 points of lights he had at his Wardenclyffe appeal of 1922). Other inventions of Nikola Tesla's were stolen by competitors and used by the U.S. government for warfare. For at least a year, there has been open warfare between the Tesla believers and the Tesla skeptics and short sellers. The believers see the advance orders for the Model 3 as testimony to the company's disruptive brilliance. The Tesla shorts — investors who bet against the stock — see the company as an automotive Ponzi scheme. To them, the founder and chief executive, Elon Musk, is beginning to look more like Tesla's corporate eponym, Nikola Tesla, the brilliant but eccentric scientist who in 1888 created the alternating current electrical grid that powers the world today and who died penniless. <https://nytimes.com/2018/04/03/opinion/tesla-model3-elon-musk.html>

Christian Zenkl No. Plants breath it and you drink it in all your soda pop. All Gas Stations are "Superfund" sites because just being in the presence of gasoline of any sort causes Cancer, and the site clean-up is funded by your tax dollars. I don't see you protesting Chevron's gas station? There is propane tanks (that explode) lined up in front of every Walmart and Home Depot. I don't see you protesting there either!

Trump tells the public that it's the "wind turbine's" killing "ALL" your birds. It's funny because there is no off-shore wind turbine's in the U.S., not one. There is only one private commercial size grid in Tehachapi, but that's not killing "all your birds". No commercial size wind system or large hydro-electric plant in the U.S. was ever approved without a Presidential Directive. In fact, no one has ever seen a wind turbine killing a single bird on Youtube, no video exists. Not one. Even Alex Jones nor NASA could whip up a fake video of a bird hitting a wind turbine, "birds arn't that stupid". Trump Clueless Again: Wind Power "Kills All Your Birds"

<https://youtube.com/watch?v=2rSTwnKxjbY> -- Here's the only video on Youtube of a bird hitting a wind turbine, attracted to it by some "guy" and the bird didn't die. Bird vs Wind Turbine FAIL ! <https://youtube.com/watch?v=8NAAzBArYdw>

The original was Removed from YouTube and is now re-uploaded January 2018. -- COAST TO COAST AM - October 08 2017 - TESLA MYSTERIES. In the first half, investigator and author Tim Swartz, joined Richard Syrett to discuss his research into Tesla's lost papers—some of which were confiscated by the US government after his death in 1942. Swartz detailed the history of Tesla's last years and revealed that not only was he not as penniless as people think, he was apparently working for the US government, and the FBI maintained a presence in the New Yorker Hotel, which was Tesla's final residence. <https://youtube.com/watch?v=3caAcEYzghc>

Question: What is the actual frequency to break DNA, when was it discovered, and how much energy pressure in Volts and what vibration rate is needed to break it? Here's a clue. We published the number ad exact date years ago. Tick tock... tick tock ... tick tock. "You're not going to start singing the tune of Jeopardy are you"? - Chevy Chase

Group: Nikola Tesla

You have proof? You have his Autopsy? We're you working the CIA assassination gun; mimicking a heart attack? Tesla stated that he would live to 110-120. People are regularly living that old today. In fact, you don't know how old any of these people actually are.

Not one word on the blog, nor FB has ever been debunked. But, you can sure try to debunk it, Tesla and the patent office; all simultaneously. If your so smart; what is the actual frequency to break DNA, when was it discovered, and how much energy pressure in Volts and what vibration rate is needed to break it? Here's a clue. We published the number ad exact date years ago.

Oh sure. You can't prove a word of it. "Milliwatts" of non-ionizing radiation wouldn't hurt a fly. On the other hand, coal plants are 100x more radioactive than nuclear power. Petro-chemicals at the gas station, not only cause Cancer, they create cancer by definition. But I don't see you, nor anyone else pointing that out. Except the warning signs at the pump.

Group: TeslaLeaks.com - Nikola Tesla Leaks

April 2nd 2018 The worst-case scenario is that advanced targeting technologies fed by all this data will combine with new methods for automatically generating convincing content—not just text but also images, video, and audio, as a report on online political manipulation from the European Data Protection Supervisor warned last week. In his testimony to the British Parliament, now-suspended Cambridge Analytica CEO Alexander Nix said the company had generated thousands of pieces of creative content for the Trump campaign for its various targets. Most of this was presumably done by hand—the company included creative services. Imagine millions if not billions of precisely tailored messages, including synthetic video, in future campaigns—all machine-generated. These tools are available now. <https://technologyreview.com/s/610741/your-own-devices-will-give-the-next-cambridge-analytica-far-more-power-to-influence-your/>

Group: TeslaLeaks.com - Nikola Tesla Leaks

March 30 2018 Forbes does a hit-piece on Hydro-electric power. Building the 30-plus dams in the planning pipeline would address the energy needs, but would not be compatible with maintaining the river's fish productivity and many of its cultural values. The stalemate over the suspended Myistsone dam served as the opening salvo of a looming broader conflict.

<https://colorado.edu/today/2018/03/27/future-electric-cars-could-recharge-wirelessly-while-you-drive>

March 27 2018 Future electric cars could recharge wirelessly while you drive. The idea of wireless power transfer has fascinated scientists for over a century. In the 1890s, the inventor Nikola Tesla popularized the idea of sending energy across distance and famously demonstrated the idea in public, lighting up a bulb from across the stage. The idea led Tesla to begin work on a wireless power transmission station in Shoreham, New York that he believed would send electricity through the air, but the project was never completed due to financial difficulties. <https://colorado.edu/today/2018/03/27/future-electric-cars-could-recharge-wirelessly-while-you-drive> -- April 19 2018 A review on renewable energy powered wireless power transmission techniques for light electric vehicle charging applications <https://sciencedirect.com/science/article/pii/S2352152X17303535>

Group: Tesla's Ambassadors

This is fraudulent. GE/Edison were not allowed to use the Westinghouse Patents from Tesla to electrocute people. G/Edison used their own patents and their patent sharing agreements that came later.

<https://colorado.edu/today/2018/03/27/future-electric-cars-could-recharge-wirelessly-while-you-drive>

March 27 2018 Future electric cars could recharge wirelessly while you drive. The idea of wireless power transfer has fascinated scientists for over a century. In the 1890s, the inventor Nikola Tesla popularized the idea of sending energy across distance and famously demonstrated the idea in public, lighting up a bulb from across the stage. The idea led Tesla to begin work on a wireless power transmission station in Shoreham, New York that he believed would send electricity through the air, but the project was never completed due to financial difficulties. <https://colorado.edu/today/2018/03/27/future-electric-cars-could-recharge-wirelessly-while-you-drive> -- April 19 2018 A review on renewable energy powered wireless power transmission techniques for light electric vehicle charging applications <https://sciencedirect.com/science/article/pii/S2352152X17303535>

DeSmog UK has previously mapped how Cambridge Analytica ties to climate science denial through its Brexit & Trump connections. Now, Nafeez Ahmed at Motherboard has outlined the company ties to the fossil fuel industry. Based on that research, it's only a few steps between the company and some of the world's biggest coal and oil companies, many of which have had a revival since the election of Donald Trump. It's only a couple more steps to tie those connections to the already well-established web of power lobbying for Brexit. Here's an interactive map of how Cambridge Analytica has links to the fossil fuel industry: --

<https://uspto.gov/about-us/news-updates/patent-phonograph-issued-february-19-1878-one-edisons-first-great-inventions>

Thomas Edison patent war for the Gramophone / Phonograph: The devices officially are used by 1878 to record telephone conversations at the phone company, not to play rippidy rap music. <https://uspto.gov/about-us/news-updates/patent-phonograph-issued-february-19-1878-one-edisons-first-great-inventions> ((He figured out that the human voice, and other sounds, could cause a

light material plate to vibrate. And, when properly placed, a needle could indent the plate, recording the vibrations, and found that yet another needle could play them back.)) -- Alexander Graham Bell purchased the modern wired telephone patent from Elisha Gray. Bell did not invent telephone, US rules <https://theguardian.com/world/2002/jun/17/humanities.internationaleducationnews> -- Edison was a Patent Troll

[http://slate.com/articles/technology/history\\_of\\_innovation/2014/05/thomas\\_edison\\_charles\\_goodyear\\_and\\_elias\\_howe\\_jr\\_were\\_patent\\_trolls.html](http://slate.com/articles/technology/history_of_innovation/2014/05/thomas_edison_charles_goodyear_and_elias_howe_jr_were_patent_trolls.html) -- #trump #wiretapping #claim Trump hails failed inventions such as wired telephones, phone-tapping plastic recording devices, electric pens, (pre-cursor to the electric vibrator) and DC generators for Coal Plants:

<http://marketwatch.com/story/trump-hailed-one-failed-edison-invention-the-electric-pen-2017-02-28> -- Trump congratulate those who invented wiretapping, then turns around and claims he is being wiretapped. <https://youtube.com/watch?v=S02SNC8xpzU> -- TRUMP SPEECH TEXT -- "On our 100th anniversary, in 1876, citizens from across our Nation came to Philadelphia to celebrate America's centennial. At that celebration, the country's builders and artists and inventors showed off their creations. Alexander Graham Bell displayed HIS telephone for the first time. (You mean the patent rights he bought from someone else) ... Remington unveiled the first typewriter... An early attempt was made at electric light. (What?) Thomas Edison showed an automatic telegraph and an electric pen."

While at the same time Trump purposely disregards or is ignorant of the inventions of Nikola Tesla starting the next year, 1887 with his Alternation Current and Induction Motor patents. In 1888, Niagara Falls was proposed using the 13 Westinghouse/Tesla A/C patents for electrical generation, distribution, battery, motors and arc-lamps. Tesla sold his 40 A/C patents for a "King's Ransom" in 1888, approximately \$10 Million today, plus royalties of \$2.50 per Horsepower. By the 1893 World's Fair, Tesla demonstrated his A/C power, neon lights, wireless power and radio technology. By 1897, Tesla patents his own Incandescent (Ruby laser) lamps. They are capable of using diamonds and a high frequency, high tension generator to produce Thermo-nuclear fusion of H/HE and produce over 5,000 degrees. <https://historyrat.wordpress.com/2013/01/13/lighting-the-1893-worlds-fair-the-race-to-light-the-world/> Off Goes the Power Current Started by Thomas Edison <https://cityroom.blogs.nytimes.com/2007/11/14/off-goes-the-power-current-started-by-thomas-edison/> Edison's patent for DC generators for Coal Plants <https://google.com/patents/US434586> --

Nikola Tesla's HISTORY OF RADIO, PHONE TAPPING & SPIES: Nikola Tesla gave the first public demonstration of radio in St. Louis on March 1, 1893 <http://edn.com/electronics-blogs/edn-moments/4408090/Tesla-gives-1st-public-demonstration-of-radio-March-1--1893> -- Secure communications using "Multi-plexing" was patented by Nikola Tesla in remote control <http://tfcbooks.com/mall/more/337ntgw.htm> -- In Tesla's 1901 letters to JP Morgan on and after November 26th 1900, Tesla states 1) "I have perfected methods and apparatus, which permit the transmission of messages, at any distance, without wires ... safe manipulation of electrical pressures, capable of bringing into action instruments at any point on the globe; exact measurements embracing nearly 700 miles. 2) I have devised means for operating selectively a great number of instruments "without mutual interference", and can guarantee "absolute privacy" of all messages. 3) The legal position is rendered still more secure by my inventions of "entirely novel methods" <br><br> for receiving as well as for "individualizing the messages", with which none now known has the remotest chance of competing, and which are likewise patented. <https://youtube.com/watch?v=ZwdaHpeOOWI>

By January 1903, prior to the roll-out of Radio to the public, wired communications was already available all the way to China. Presidential letters confirm that this conspiracy was the cause of stock market crashes and even wars. cables in 1902 and 1903, the Atlantic submarine telegraph cable was completed in July of 1866

<https://evols.library.manoa.hawaii.edu/bitstream/10524/466/2/JL39041.pdf> -- 1901-1907 The early destruction of Radio technology by stock market manipulators: <http://earlyradiohistory.us/sec006.htm> [http://bibliotecapleyades.net/tesla/esp\\_tesla\\_45.htm](http://bibliotecapleyades.net/tesla/esp_tesla_45.htm) -- By 1911-1912 the Telefunken (Tesla/Marconi) Station was built. <http://sayville.com/wireless.html> -- By 1912 it was the station communicating with the Titanic. Radio intercepts by spies and a torpedo likely doomed the Titanic. John J Astor, Tesla's financier in his Colorado Springs wireless experiments died on the ship, while JP Morgan and Marconi conspicuously failed to board <http://pcmag.com/article2/0,2817,2402893,00.asp> -- Later, the Telefunken Station was allegedly tapped by spies. The spies claimed the station was sending out war communications. The same year, the Telefunken station was ceased by the U.S. secret service and later demolished by the Army. --

Also in 1917, Nikola Tesla's Wardencliff Tower was allegedly tapped by spies, alleging war communications or possible espionage. The Wardencliff Tower was also ceased and demolished. The U.S. Espionage Act of 1917 was created thereafter. -- By 1940, Tesla's FBI file reveals that the FBI was asked to protect Nikola Tesla because of his possible molestation, kidnapping etc. by other governments or spies. By April-June 1943, after Tesla's death, Supreme Court Case 369, gives original priority for Radio back to Nikola Tesla. <https://supreme.justia.com/cases/federal/us/320/1/case.html> <http://bibliotecapleyades.net/tesla/lostjournals/lostjournals00.htm> -- See: 1901 Patent US806052 - Receiver for wireless telegraphy. -

1938 Patent US2252083 - Radio traffic control - 1942 Patent US2598064 - Air-borne radio relaying system - 1952 Patent US2748266 - Radiant energy relay system - 1959 Patent US3130945 - Ionocraft - Google Patents -- Bipartisan bill seeks warrants for police use of 'stingray' cell trackers <http://usatoday.com/story/news/politics/onpolitics/2017/02/15/bipartisan-bill-seeks-warrants-police-use-stingray-cell-trackers/97954214/> -- William (Bill) Cooper 2001 - <https://youtube.com/watch?v=ZEgI65tTNIs> (( Are you kidding me? Is this some kind of joke that people would fall for this. When in hell are you going to wake up? You know how much money the CIA, NSA, FBI has each year? Do you know how many agents? Do you know the technology to be able to eavesdrop on every single call in the world? You have no idea, whatever you think the art of technology in the civilian sector, they are at least 50-100 years ahead of what you can ever imagine. William "Bill" Cooper RIP Nov 5th 2001 )) <https://youtube.com/watch?v=XXU2sHmN8SY> -- Tesla Leaks original post on Sandy Hook Radio Conspiracy - Nikola Tesla vs Marconi, AT&T, RCA & GE + The Titanic <https://nikolateslasolar.blogspot.com/2017/06/the-sand-hook-radio-conspiracy-nikola.html?m=1>

Sure. The first use of the Marconi radio system was so that JP Morgan could bet on boat races off of Sandy Hook.

<https://aeon.co/essays/how-science-fiction-feeds-the-fuel-solutions-of-the-future>

March 28th 2018 "Fuelling the future". In his short story 'Let There Be Light', the science-fiction author Robert A Heinlein introduced the energy source that would power his Future History series of stories and novels. First published in Super Science Stories magazine in May 1940, it described the Douglas-Martin sunpower screens that would provide (almost) free and inexhaustible energy to fuel the future in subsequent instalments of his alternative timeline. The sunpower screens were clay-coated panels that absorbed sunlight and turned it into electricity with almost 100 per cent efficiency, or worked the other way to turn electricity into light. Like most of Heinlein's Future History stories, this one offered readers a calculated blend of technology and culture. The sunscreens weren't technology from nowhere – they fitted into a particularly American history of invention that emphasised individual ingenuity against corporate and collective power: in the popular imagination, they were the descendants of Thomas Edison and Nikola Tesla. <https://aeon.co/essays/how-science-fiction-feeds-the-fuel-solutions-of-the-future>

Answer to commenter question: "The problem of increasing human energy", Century Magazine, June 1900 by Nikola Tesla. Tesla covered the issue in 1900 and nothing has changed but a dozen wars and more morons. We have proven here that 99.95% of

people can't prove even one thing that they "believe". These so-called people don't deserve anything, more less free energy. You are better off to feed the pigeons than give these morons 5 cents. Be sure to check local laws, morons have made it illegal to feed pigeons, or even people. 99% of people want to do nothing but Nuke the planet with the Nuke Button, even when they find out there is no button, nor Nukes. Morons will believe anything. Here, we don't call birds, bird brains, because they are Geniuses. Even the birds know there is no Thrust, Lift, Drag nor Drafting in "Space" and the birds can't even read the Dictionary!

Nikola Tesla's Homopolar Generator/s with Synchronism based in his Pulse-Width Modulation, its Self-Sustaining, Regenerative, with EMF recycling is used in the Prius, BMW & Tesla Model 3 -- <https://teslauniverse.com/nikola-tesla/articles/notes-unipolar-dynamo> -- His patent as an electrical generator is referred to and used by the US Dept. Of Energy in Nuclear Fusion Reactors <https://patents.google.com/patent/US4110648A/en> -- Nikola Tesla was interested in the Faraday disc and conducted work with homopolar generators,[2] and eventually patented an improved version of the device in U.S. Patent 406,968 <https://patents.google.com/patent/US406968> U.S. Patent 588,602A --- <https://patents.google.com/patent/US588602A/en> -- U.S. Patent 390,414 <https://patents.google.com/patent/US390414> -- Tesla's "Dynamo Electric Machine" patent/s describes an arrangement of two parallel discs with separate, parallel shafts, joined like pulleys by a metallic belt. Each disc had a field that was the opposite of the other, so that the flow of current was from the one shaft to the disc edge, across the belt to the other disc edge and to the second shaft. This would have greatly reduced the frictional losses caused by sliding contacts by allowing both electrical pickups to interface with the shafts of the two disks rather than at the shaft and a high-speed rim. Later, patents were awarded to C. P. Steinmetz and E. Thomson for their work with homopolar generators. Payoffs, scams and lies is "success"? I hold more records (including two that will never be beat) than Elon Musk could ever have in a 1000 lifetimes.

<https://www.washingtonpost.com/news/innovations/wp/2018/03/23/looks-lame-anyway-elon-musk-just-deleted-teslas-facebook-page-on-a-dare/>

In a moronic act of sabotage, Elon Musk deletes the Tesla Facebook page with 2 million likes. The only thing you can find now about Tesla on Facebook is Nikola Tesla fornicating with a Pigeon. He can deep6 Space X though. Your paying \$40/gal for gas after subsidies. Your not going to Mars, your going to the Chevron gas station to buy snacks.

whistleblower. Or, as Wylie describes it, he was the gay Canadian vegan who somehow ended up creating "Steve Bannon's psychological warfare mindfuck tool". Now, 28-year-old Christopher Wylie goes on the record to discuss his role in hijacking the profiles of millions of Facebook users in order to target the US electorate. In Wylie's stash, including a pitch made by Cambridge Analytica to Lukoil, Russia's second biggest oil producer. In an email dated 17 July 2014, about the US presidential primaries, Nix wrote to Wylie: "We have been asked to write a memo to Lukoil (the Russian oil and gas company) to explain to them how our services are going to apply to the petroleum business. Nix said that "they understand behavioural microtargeting in the context of elections" but that they were "failing to make the connection between voters and their consumers". The work, he said, would be "shared with the CEO of the business", a former Soviet oil minister and associate of Putin, Vagit Alekperov. "It didn't make any sense to me," says Wylie. "I didn't understand either the email or the pitch presentation we did. Why would a Russian oil company want to target information on American voters?" <https://theguardian.com/news/2018/mar/17/data-war-whistleblower-christopher-wylie-faceook-nix-bannon-trump> - Now meet "Nikola Tesla" Leaks! <http://facebook.com/groups/750861428384951/> -- : This is the original and first compilation of "Tesla Leaks", first post compiled on July 4th 2014, the day of the beginning of the oil price collapse and posted on Blogspot on November 5th 2014. They are the anniversary of dates of Nikola Tesla's destruction of his Wardenclyffe Tower on Long Island, and the former the date approved for Tesla's "Apparatus for the Utilization of Radiant Energy".

Group: NIKOLA TESLA SLOVENIA

Mr Sarboh found the 40 patents for "Teleforce"? The patents he said he "did not file"? The ones he wrote.in the NY Times that was "based on Physics no one has thought of before? He has those new Physics as well? Wow! He's better than the Army Intelligence that told the FBI director that they were gathering everything on Tesla. Mr. Sarboh must have got their first. He must also have Top Secret clearance for at least 50 years.

Fractional distillation of Krypton: Why the new Superman movie is named "Krypton" and not the fictitious element "Kryptonite": Scientific American Feb. 2nd, 1901 Tesla's Wireless Light by Nikola Tesla <https://teslauniverse.com/nikola-tesla/articles/teslas-wireless-light> - Nikola Tesla states that new illuminants, specifically Krypton gas extracted in 1898, has the best economy, hygienic properties and is the closest to pure white daylight, like Krypton, that has ever been reached. Krypton is the best, self illuminating,

superconductive gas. His wireless light accomplishes the most efficient method to separate the de-electric currents from his high frequency, high tension generators, creating high tension radiant streams using Uranium glass, today they produce Tritiated glass as a cheap alternative to contain the negative charges along a virtual path. The Krypton, or Radon are most conductive to "electrostatically induced rays" (1) or positive charges. The natural inductance between these two elements allows for a Krypton bulb to light up with just 1 Volt. The bulb in his hand would have a Krypton, Hydrogen spark-gap transformer, to transform the 1 Volt coming from the atmosphere or ground, in a one wire return system, to 10 Volts and light up the Krypton gas, wirelessly.

Oh great. Thanks for asking. The Superconductive gasses are used as the coolant in Nuclear Power and Fusion; sort of a heat pump system to transfer the heat to electrical Generators most efficiently. The IAEA likes Helium as a coolant, but Krypton is best for increasing Electrical oscillations due to it's high self-illumination properties. 80 Tons of Krypton is used at CERN. They also use liquid Lithium Salts, like Tesla used in 1899 pictured in Colorado Springs to create Electrical surges. These gasses are manufactured in Westinghouse Nuclear Power Plants using very specific, very high frequency and of tension, a modified to Impulse DC, induction Tesla Coil. Tesla's patent for increasing Electrical oscillations using cold temperature will explain more. Between his Ozone Generator and Superconductivity, he was capable of creating "runaway Superconductivity" at Wardencllyffe or in the receiving devices. This capability was published 4 years ago and was recently added to Nikola Tesla's Wikipedia page.

#splitting #atoms #hoax #transmutation #conversion #reduction #how #gasoline #is #made #hoax The "Splitting Atoms" hoax busted by Tesla Leaks, Nikola Tesla & by Definition: Nuclear "Transmutation" of Elements is not splitting atoms. In 1932, Lithium 7, using only 700,000 Volts, was transmuted to Helium and was afterwards called splitting atoms. "No atoms were ever split" - Nikola Tesla -- Smashing Atoms? Tesla also differed with Einstein and the quantum physicists in his view of the structure of the elementary particles and the possible consequences caused by the smashing of atoms. "I have disintegrated atoms in my experiments with a high potential vacuum tube... operat[ing] it with pressures ranging from 4,000,000 to 18,000,000 million volts.... But as to atomic energy, my experimental observations have shown that the process of disintegration is not accompanied by a liberation of such energy as might be expected from present theories."14 --.https://facebook.com/story.php?

#fake #news A family of conservative multimillionaires owns Sinclair Broadcast Group. And Sinclair Broadcast Group is on the cusp of owning enough local television stations to reach 70 percent of American households. Every news station under Sinclair's umbrella is required to syndicate commentary that comports with its owners' ideological views. Over the past 13 months, this has meant regularly providing viewers with the insights of Sinclair's chief political analyst, former Trump spokesman Boris Epshteyn. It has also meant featuring analysis from conservative pundit Mark Hyman, and updates from the "Terrorism Alert Desk" (sensationalized coverage of recent terror attacks from around the world) on a routine basis. <http://nymag.com/daily/intelligencer/2018/03/local-news-anchors-now-have-to-read-pro-trump-propaganda.html>

Feb 13 2018 Royal Society of Chemistry. An overview of metamaterials and their achievements in wireless power transfer. Metamaterials have been deployed for a wide range of fields including invisible cloak, superlens, electromagnetic wave absorption and magnetic resonance imaging, owing to their peculiar electromagnetic properties. However, few investigations on metamaterials were focused on wireless power transfer (WPT). WPT is the transmission of electrical energy from a power source to an electrical load without conductors like wires or cables. Metamaterials can enhance the transfer efficiency and enlarge the transfer distance due to their ability of focusing magnetic flux, which opens up a novel approach to promoting the development and application of WPT. This review paper aims to provide an overview of the fabrications, exotic properties, and their applications especially in the WPT field. Meanwhile, the perspective and future challenges of metamaterials and WPT are proposed

Mar 8 2018 Fast and efficient wireless power transfer via transitionless quantum driving. We show that it is possible to transfer power between the coils significantly fast compared to its adiabatic counterpart. The scheme is fairly robust against the variations in the coupling strength and the coupling distance between the coils. Also, the scheme is found to be reasonably immune to intrinsic losses in the coils. <https://nature.com/articles/s41598-018-22562-9> -- More on wireless power methods by Tesla Leaks:

Group: TeslaLeaks.com - Nikola Tesla Leaks

Released on Friday, the data found elevated levels of toxic pollutants like arsenic and radium in the groundwater near more than 70 coal-fired power plants and coal ash disposal sites across the U S. For decades, coal ash — which contains toxic heavy metals like mercury, arsenic, and lead, as well as radioactive elements — was a virtually unregulated waste stream in the United States.

Utilities were allowed to dispose of the waste in unlined landfills or earthen pits, and often mixed the coal ash with water to create massive ponds or lagoons located hundreds of feet from homes and communities. <https://thinkprogress.org/coal-ash-polluting-groundwater-utility-data-b60093030a0a/>

#thermonuclear #fusion (Thermo-Nuclear Fusion is not a bomb) 26 December, 2017 Central government backs plan to build world's first experimental nuclear fusion power station. With completion scheduled for 2035, the reactor would heat hydrogen gas to a temperature 10 times as hot as the core of the sun. At such temperatures, atoms of deuterium and tritium, two isotopes of hydrogen, merge to form helium. A small bit of mass would be lost, creating a huge amount of energy. The planned Chinese fusion reactor will rely heavily on the design of the International Thermonuclear Experimental Reactor (ITER) under construction in southern France, but is aiming for a much more ambitious goal. But it is only aiming for a fusion burn lasting about 10 minutes, while the researchers working on the Chinese reactor hope to achieve one lasting months. For instance, the reactor's inner wall would have to be made of super strong alloys to withstand the heat and bombardment of high-energy particles, the plasma would need to be tightly and precisely controlled to prevent destructive energy spikes and the electric coils would have to be bathed in a large volume of super-cold liquid to maintain their superconductivity, otherwise the magnetic field would disappear.

Group: T e s l a T u b e

#nikola #tesla #fusion Nikola Tesla invented Hydrogen-Helium Fusion: US Patent US5162094 - Fusion power generating system - refers to a missing Tesla Invention, Manhattan Project "Fusion" & 100% Efficiency. "An approach (10) is provided as a way of obtaining useful power from a fusion reaction utilizing light weight isotopes of hydrogen and helium. Achieving sustained fusion conditions allowing essentially 100% utilization of fuel with either the D-T or D-He3 reaction at the magnetic convergent point in the drift region of the present invention will require a high density of ions in addition to high relative energy between particles. As the geometry of the magnetic focus, fusion region of the present invention is a mirror image of the ion source geometry, it is, of course, important that the ion source geometry have as small dimensions as possible to produce the highest concentration of input nuclei at the magnetic convergent point. One method of achieving this goal is to use a modification of an invention by the American inventor, Nicola Tesla (U.S. Pat. No. 493,776, Incandescent Electric Light, 1892). In this invention Tesla showed how a small button of refractory material such as diamond could be heated to incandescent temperatures by allowing the material to be bombarded by ions as caused by the application of a high voltage, high frequency excitation to the refractory material. One embodiment of the present invention makes use of Tesla's Incandescent Electric Light by adding a few thousands of an inch diameter hole through the refractory material button. The added hole allows the passage of the input gases as required for the fusion reaction. As the gases are passing though the hole in the center of the button, they are heated to a high temperature that can be in the range of 5,000° F. as they make contact with the inner walls of the refractory material (diamond, for example). Upon leaving the hole exit, the already thermally excited molecules of gas are then totally ionized by the high intensity, RF field in combination with the concentrated ion bombardment created by the RF field. The net result is a highly concentrated ion source insuring that the ion concentration at the magnetic focused point of the present invention will be sufficient for a high probability of fusion reactions occurring."

drift region of the present invention will require a high density of ions in addition to high relative energy between particles. As the geometry of the magnetic focus, fusion region of the present invention is a mirror image of the ion source geometry, it is, of course, important that the ion source geometry have as small dimensions as possible to produce the highest concentration of input nuclei at the magnetic convergent point. One method of achieving this goal is to use a modification of an invention by the American inventor, Nicola Tesla (U.S. Pat. No. 493,776, Incandescent Electric Light, 1892). In this invention Tesla showed how a small button of refractory material such as diamond could be heated to incandescent temperatures by allowing the material to be bombarded by ions as caused by the application of a high voltage, high frequency excitation to the refractory material. One embodiment of the present invention makes use of Tesla's Incandescent Electric Light by adding a few thousands of an inch diameter hole through the refractory material button. The added hole allows the passage of the input gases as required for the fusion reaction. As the gases are passing through the hole in the center of the button, they are heated to a high temperature that can be in the range of 5,000° F. as they make contact with the inner walls of the refractory material (diamond, for example). Upon leaving the hole exit, the already thermally excited molecules of gas are then totally ionized by the high intensity, RF field in combination with the concentrated ion bombardment created by the RF field. The net result is a highly concentrated ion source insuring that the ion concentration at the magnetic focused point of the present invention will be sufficient for a high probability of fusion reactions occurring."

"An approach (10) is provided as a way of obtaining useful power from a fusion reaction utilizing light weight isotopes of hydrogen and helium. Achieving sustained fusion conditions allowing essentially 100% utilization of fuel with either the D-T or D-He3 reaction at the magnetic convergent point in the drift region of the present invention will require a high density of ions in addition to high relative energy between particles. As the geometry of the magnetic focus, fusion region of the present invention is a mirror image of the ion source geometry, it is, of course, important that the ion source geometry have as small dimensions as possible to produce the highest concentration of input nuclei at the magnetic convergent point. One method of achieving this goal is to use a modification of an invention by the American inventor, Nicola Tesla (U.S. Pat. No. 493,776, Incandescent Electric Light, 1892). In this invention Tesla showed how a small button of refractory material such as diamond could be heated to incandescent temperatures by allowing the material to be bombarded by ions as caused by the application of a high voltage, high frequency excitation to the refractory material. One embodiment of the present invention makes use of Tesla's Incandescent Electric Light by adding a few thousands of an inch diameter hole through the refractory material button. The added hole allows the passage of the input gases as required for the fusion reaction. As the gases are passing through the hole in the center of the button, they are heated to a high temperature that can be in the range of 5,000° F. as they make contact with the inner walls of the refractory material (diamond, for example). Upon leaving the hole exit, the already thermally excited molecules of gas are then totally ionized by the high intensity, RF field in combination with the concentrated ion bombardment created by the RF field. The net result is a highly concentrated ion source insuring that the ion concentration at the magnetic focused point of the present invention will be sufficient for a high probability of fusion reactions occurring."

#nicola #tesla #fusion Nikola Tesla invented Hydrogen-Helium Fusion: US Patent US5162094 - Fusion power generating system - refers to a missing Tesla Invention, Manhattan Project "Fusion" & 100% Efficiency. "An approach (10) is provided as a way of obtaining useful power from a fusion reaction utilizing light weight isotopes of hydrogen and helium. Achieving sustained fusion conditions allowing essentially 100% utilization of fuel with either the D-T or D-He3 reaction at the magnetic convergent point in the drift region of the present invention will require a high density of ions in addition to high relative energy between particles. As the geometry of the magnetic focus, fusion region of the present invention is a mirror image of the ion source geometry, it is, of course, important that the ion source geometry have as small dimensions as possible to produce the highest concentration of input nuclei at the magnetic convergent point. One method of achieving this goal is to use a modification of an invention by the American inventor, Nicola Tesla (U.S. Pat. No. 493,776, Incandescent Electric Light, 1892). In this invention Tesla showed how a small button of refractory material such as diamond could be heated to incandescent temperatures by allowing the material to be bombarded by ions as caused by the application of a high voltage, high frequency excitation to the refractory material. One embodiment of the present invention makes use of Tesla's Incandescent Electric Light by adding a few thousands of an inch diameter hole through the refractory material button. The added hole allows the passage of the input gases as required for the fusion reaction. As the gases are passing through the hole in the center of the button, they are heated to a high temperature that can be in the range of 5,000° F. as they make contact with the inner walls of the refractory material (diamond, for example). Upon leaving the hole exit, the already thermally excited molecules of gas are then totally ionized by the high intensity, RF field in combination with the concentrated ion bombardment created by the RF field. The net result is a highly concentrated ion source insuring that the ion concentration at the magnetic focused point of the present invention will be sufficient for a high probability of fusion reactions occurring."

#banning #renewables Feb 28 2018 The conspirators: Sierra Club, friends of the flying "desert turtle" act of 1994, goat trails, etc. claim that "dust" from solar panels is "the" reason to ban them. "There should be no further changes to the allocations of conservation, recreational or renewable energy designations in this comprehensive plan. Local residents see the degradation of the Basin's air quality from existing solar developments. When the desert crust is scraped and vegetation removed, the winds blow dust along sand transport paths. The effects are permanent and cannot be mitigated. "

<https://patents.google.com/patent/US5162094>

Group: TeslaLeaks.com - Nikola Tesla Leaks

Nikola Tesla invented Hydrogen-Helium Fusion: US Patent US5162094 - Fusion power generating system - refers to a missing Tesla Invention, Manhattan Project "Fusion" & 100% Efficiency. "An approach (10) is provided as a way of obtaining useful power from a fusion reaction utilizing light weight isotopes of hydrogen and helium. Achieving sustained fusion conditions allowing essentially 100% utilization of fuel with either the D-T or D-He3 reaction at the magnetic convergent point in the drift region of the present invention will require a high density of ions in addition to high relative energy between particles. As the geometry of the magnetic focus, fusion region of the present invention is a mirror image of the ion source geometry, it is, of course, important that the ion source geometry have as small dimensions as possible to produce the highest concentration of input nuclei at the magnetic convergent point. One method of achieving this goal is to use a modification of an invention by the American inventor, Nicola Tesla (U.S. Pat. No. 493,776, Incandescent Electric Light, 1892). In this invention Tesla showed how a small button of refractory material such as diamond could be heated to incandescent temperatures by allowing the material to be bombarded by ions as caused by the application of a high voltage, high frequency excitation to the refractory material. One embodiment of the present invention makes use of Tesla's Incandescent Electric Light by adding a few thousands of an inch diameter hole through the refractory material button. The added hole allows the passage of the input gases as required for the fusion reaction. As the gases are passing though the hole in the center of the button, they are heated to a high temperature that can be in the range of 5,000° F. as they make contact with the inner walls of the refractory material (diamond, for example). Upon leaving the hole exit, the already thermally excited molecules of gas are then totally ionized by the high intensity, RF field in combination with the concentrated ion bombardment created by the RF field. The net result is a highly concentrated ion source insuring that the ion concentration at the magnetic focused point of the present invention will be sufficient for a high probability of fusion reactions occurring." <https://patents.google.com/patent/US5162094> -- Patents and Inventions under the name "Nicola Tesla" <https://nikolateslasolar.blogspot.com/2017/01/tesla-leaks-nicola-tesla-missing.html?view=flipcard&m=1> -- "PERPETUAL MOTION MACHINES" - Google Scholar – Includes section on Nikola Tesla's systems which are considered "Perpetual Motion Machines" (Which all your school books say don't exist) Patent refers to a missing Tesla Inventions <https://scholar.google.com/scholar?q=PERPETUAL+MOTION+MACHINES>

Even more lies. Nikola Tesla's Inventions are used in Nuclear Power Plants and Westinghouse builds them. They work 100% as prescribed and can perform all 12 of those above functions perfectly. The "cost overruns" you mention are nothing but banking, regulations, insurance and save the bugs delays and SCAMS that make up the overruns. JUST like Solyndra, just like all other renewables today. You want a coal plant? Zero taxes, subsidies and \$1/ acre. You want a Wind Turbine? Tarrifs, no subsidies if not banned, and \$8000 per acre. Thanks for helping point out out that scam.

Wrong again. Nuclear can perform over 12 functions including demand response, frequency regulation, excess energy from the grid to heat, 24/7 power; water desalination, Hydrogen manufacture, other gasses like Krypton, Nitrates for fertilizer, synthetic do fuels...all for the last 75 years. What did you say solar could do?

<https://cnn.com/2014/07/10/tech/innovation/elon-musk-tesla-museum-oatmeal/index.html>

#fake #news #cnn #nasa #elon #musk CNN, like NASA, has never published a story on Nikola Tesla in 37 years. The only story to mention Nikola Tesla is the fake news story that hoaxer Elon Musk donated \$1M to save the Tesla property at Wardenclyffe. The fact is, Elon Musk didn't donate a nickel; nor did any other famous person. Elon only claimed that he would install a Tesla car supercharger station next to the now saved Nikola Tesla lab and property at Wardenclyffe in Shoreham, LI.

Answer to question about Tunguska and the fate of Wardenclyffe. If Wardenclyffe wasn't operational, like the Death Star, then by 1917 there would be no reason for the secret service to cease the plant, and allow the army to demolish it in the guise of Espionage. There is reports Tesla was at Wardenclyffe in 1906-1907. There is also reports of other towers in Europe. If Tesla missed the target, the only variable would be whether the Earth is round, flat iron something else.

Nikola Tesla states in The Washington Herald March 17th, 1912 “The most important is electric transmission lines from Hydro-Electric central plants. Although the specter of GOVERNMENT RESTRICTION has had a deterrent effect on the development of this important industry, it has not inflicted a permanent injury... “A perfect means for this purpose has been afforded through the discovery of the STATIONARY WAVES, but unfortunately there is no plant as yet in operation with these waves, which, as I have shown, pass from one to the other end of the globe without diminution of intensity, producing stationary loops and nodes, the danger of collisions at sea will be greatly reduced.” <https://teslauniverse.com/nikola-tesla/articles/what-future-electricity> -- [https://teslauniverse.com/sites/default/files/styles/sharing\\_image/public/19120317-washington-herald.pdf.png](https://teslauniverse.com/sites/default/files/styles/sharing_image/public/19120317-washington-herald.pdf.png)

Fake News. The "Friends of the Ocean" people at the World Economic Forum want to steal 20% of Earth's oceans (equivalent to all land mass) while banning things like offshore renewables claiming there is more trash in the oceans than fish. They have a \$40M cash infusion to pay for propaganda like this. <http://www.scmp.com/lifestyle/technology/article/1713454/wireless-rail-track-china-seeks-develop-world-first-power>

This story was re-post in the previous Tesla Leaks that was removed from FB, Feb 15th 2015 Wireless power rail is on track as China seeks to develop world-first power system. Sun said his system could "beam" more than 13,000 horsepower, or 9.7MW, to a

train using resonant magnetic induction, enough to easily propel a fully loaded subway train or a high-speed train at 350km/h or more. From the story "Wireless energy transfer was an early dream in the field of electrical research, as demonstrated by the legendary inventor Nikola Tesla as early as 1891. But technical issues and safety concerns have limited its applications to small devices such as mobile phone chargers and medical implants." <http://www.scmp.com/lifestyle/technology/article/1713454/wireless-rail-track-china-seeks-develop-world-first-power>

<http://www.powerelectronics.com/automotive/wireless-charging-electric-vehicles>

#wireless #charging #banned #ICNIRP1998 Feb 7 2018 Wireless Charging of Electric Vehicles - The successful convergence of new technologies will require electric vehicles (EVs) that are low cost and fully autonomous. These attributes can be realized through wireless charging. While the concept of medium-range wireless power transfer (WPT), achieved using near-field (non-radiative) electromagnetic coupling, has existed since the pioneering work of Nikola Tesla (1891) more than a century ago, the technology to enable effective dynamic WPT for EVs is still in its nascent stage. Numerous challenges related to performance, cost, and safety need to be overcome before the vision of wirelessly powered EVs can be realized. But achieving high efficiencies at high switching frequencies is very challenging. And the fringing fields of WPT systems must be within safe levels (as defined by the International Commission on Non-Ionizing Radiation Protection; ICNIRP 1998) in areas occupied by people and animals (e.g., the vehicle cabin and outside the perimeter of the chassis). These requirements for capacitive WPT systems can be met through circuit stages that provide appropriate voltage and current gain (to reduce displacement currents) as well as reactive compensation (Fig. 1). An active area of research is the design of these circuit stages (Lu et al. 2015; Theodoridis 2012). While high power wireless energy is banned, oil pipelines are approved! Oil and Coal trains are approved! Gas stations with warning signs of Cancer and Birth Defects, are approved. The burning the gas, coal and trees are perfectly approved! Whatever waste is left, they will dump it in your river. Approved! Tesla cars are not equipped with in car wireless phone charging, mat wireless car charging, nor in-road inductive charging. If you call Tesla Inc about this fact or mention Nikola Tesla, they will laugh at you and hang up the phone. (2012)

The IEEE agreed with Tesla Leaks post on Lithium. "It should be the same price as ordinary table salt" and lithium batteries were used by Nikola Tesla in 1899. Your being scammed again by the oil, gas, coal and tree burner people.

This is the original Nov. 5th 2015, Tesla Leaks retort on Debunking Einstein, Nuclear Bomb Hoax & Atomic Energy Danger Hoax: <http://nikolateslasolar.blogspot.com/2015/10/nikola-tesla-debunks-albert-einsteins.html> -- Nikola Tesla denied that Einstein's theory was true, not just because he rejected the idea that matter is convertible into energy, and energy into matter, or the existence of space-time, but because he himself had measured speeds traveling faster than light in numerous experiments... In 1899 he conducted experiments at Colorado Springs where he sent currents from his transmitter around earth and back to his receiver traveling at a mean velocity of 292,815 miles per second. On April of 1900 he published a patent on this transmitter titled the Art of Transmitting Electrical Energy Through the Natural Medium, which was just a play thing compared to his Magnifying Transmitter patented in 1914. Not only this, but as far back as 1896 he conducted experiments on cosmic rays where he measured cosmic ray

velocities from the star, Antares, which he measured to be fifty times greater than the speed of light, thus demolishing one of the basic pillar of the structure of relativity. <http://drnikolatesla.tumblr.com/post/159992409923/last-night-the-national-geographic-channel-began-a> -- Passages from Tesla's patent 787,412 were included verbatim in the introduction for special attention: -- The most essential requirement is that irrespective of frequency the wave or wave-train should continue for a certain period of time, which I have estimated to be not less than one-twelfth or probably 0.08484 of a second and which is taken in passing to and returning from the region diametrically opposite the pole over the earth's surface with a mean velocity of about 471,240 kilometers per second [292,822 miles per second, a velocity equal to one and a half times the "official" speed of light].

The Original Sept. 2015 Diesel-gate Retort and reply to this making claims that Tesla is being given or taken false credit for other scientists: Nikola Tesla is given full credit for the "perfectly efficient" A/C Induction Motor (Ford's reluctance engine), the Mono-polar DC Dynamo in the Prius, and all Internal Combustion Engines are Nikola Tesla's "Reciprocating Engines" ... The Patent Office/s, referring patent holders and the Patent office "common classifications" give him credit. And in the Tesla patents he rarely refers to others patents, but does refer to his own earlier or simultaneous patents. Plus, the Patent Office didn't require him to refer to other scientists works. The retort includes analysis of the original Diesel Engine patent and why software defeat devices were needed to hide the Diesel's fatal flaws. <http://nikolateslasolar.blogspot.com/2015/09/dieselgate-volkswagen-vw-clean-diesel.html?m=1>

Then what's the reason for Obama to cease all the prime Geothermal property around Hawaii? They are sitting on a Volcano, yet tapping into it is banned. The coal plants and Diesel generators are perfectly approved.

<https://ww2.kqed.org/science/2018/02/05/the-forgotten-renewable-geothermal-energy-production-heats-up-in-the-mojave/>

Group: TeslaLeaks.com - Nikola Tesla Leaks

Jan 5th 2018 - Geothermal could provide 500 Gigawatts, or 1/2 the current electrical power needs if the U.S. -- Hydro-electric power, just the high spots, according to Nikola Tesla in 1904 could provide another 150GW, today 300GW and "would displace the need for Billions of slaves" Williams says scientists and engineers are still working on the technology for enhanced geothermal systems, but if they are able to make it a reality, that could potentially open up thousands of megawatts of energy potential from new reservoirs.

And that could someday take from the country's current 3,000 megawatts of geothermal energy production to almost 500,000. "To put that into perspective," Williams says, "the entire electric power generating capacity in the United States is about a million megawatts." So if there's that much clean energy just waiting in the ground, what's taking so long? Allyson Anderson Book directs the American Geosciences Institute, a nonprofit network of geoscientists around the country. She says that geothermal energy has been historically overlooked as a renewable energy source, to the point that it is sometimes referred to as the "forgotten renewable."

<http://www.teslaleaks.com/>

Voted the most Awesome, Epic retort in Internet history. Responds to those who claim "They know everything about "Nikola Tesla"", then go on to claim they can "debunk" Tesla. Even though it's unlikely they know how to spell his name or where he is from, since the town he was born in doesn't exist anymore. Tesla Leaks has sourced the documents and admission by Tesla and the Library of Congress in 1891, his name is spelt with a (C) "Nicola Tesla". <http://www.teslaleaks.com/> -- Some think that everything online about Tesla, is made up! Most of it is. But, how could you know "everything"? You've read all the top secret documents in every country on Earth, you must work for the CIA. In fact, you must have written the entire un-redacted FBI File and the other 3 files referred to in the FBI File. Do you have the Alien skeletons too? And the real pictures of Space, not the 100% fake Photoshop pictures NASA puts out. Only "Space Raven" knows for sure. To his credit, Tesla invented Photoshop in 1899 with his composite picture of him sitting there inside his Colorado Springs Lab. Either way, the Tyrannasaur bone, rock, fossil fuel tooth looking thing you have might catch \$10M on eBay. The 800,000 documents, newspapers, articles, Library of Congress and 900 patents and Inventions at the Tesla Museum; much available online to find in 5 seconds is "made up"? You must have also worked for the 13 companies Doctor Tesla

owned, have his 600 missing patents and Inventions (900 FBI File) and read the 400,000 documents locked up at the Tesla Museum. You also must have worked at the Tesla society in 1915 during WW1, worked at his Museum that was bombed in WW2 and the one that Bill Clinton bombed in 1999. It must have been a miracle that you survived the 10,000 tons of depleted Uranium NATO dropped on Serbia. Was it you that compiled the Colorado Springs Experiments Notes in 1955, from events that took place in 1899, or is it 1889 according to Tesla at his Wardenclyffe appeal. You must be sure "he had it all in his head". Of course it also helps to have the other 400,000 documents, 40 trunk's, 30 bundles, a safe and a multi-decade resistance box you were able to impossibly crack. Instead it was people who called themselves "government officials" and John G Trump who admitted reviewing the information in Tesla's NY storage unit. While you were there, you must have seen the two pictures of everything the FBI said they took. Sava Kosanovich told the FBI under oath that the 200 page notebook Tesla was writing, was also missing. You must have snatched that too! Even beyond that, you must have gotten access to Einstein's brain held in (according to Tesla, non destructive) cryogenic freezing at CERN. And of course you are aware that Tesla has the earliest patent for superconductivity "Means for increasing electrical intensity using cold temperature" in 1900. As you know, CERN gets its superconductive gasses like Krypton using a Westinghouse Nuclear Power Plant or Tesla's Electrical method using his 1897 Patent and Apparatus for producing Ozone and other gasses. The point being, with Einstein's brain you can figure out Nuclear Power and the Nuclear Bomb Hoax, since, according to UN and US law, Nuclear is considered "classified on birth". It's a benefit if you can speak and write 13 languages, because his Serbian handwriting is terrible. They should have brought you in to analyze the Tesla papers, instead of the FBI bringing in Deforest. If you're right there like his Assistants Marconi, Hammond, Kolman Tzito Father and Son, Lowenstein, Scherff, Hettinger or agents Spanel & Fitzgerald, you might have seen it all. Were you the get away driver in the movie "Fragments from Olympus" that tells the story of real-life FBI agents P. E Foxworth and Dennis Haberfeld, who died on January 15, 1943 during the posthumous investigation of Nikola Tesla's property. Described by FBI documents as being part of "a secret mission of critical importance", the two were killed on their way to General Eisenhower, when their military transport mysteriously crashed? The cause of the crash was never ascertained. It must have been the faulty Autonomous driving technology that crashed the 2 truck loads of Tesla's effects. Like other great minds study scientists before them, it's also great that you have the 1000 points of lights, tubes that Tesla said he had in a separate room on the Wardenclyffe property, under oath of his 1922 Supreme Court foreclosure appeals case, and that "each light described a scientific discovery". We're all glad you have that, because, it's been missing since 1943. Since Fitzgerald told the FBI director in 1945 that because the Russians had access to the "Entire Tesla Collection" behind the Iron Curtain, and because of experiments going on at Hill AFB, that he was soliciting Army Intelligence and "Wealthy Backers" like the Ford Foundation, to accumulate all they can on Tesla's effects and turn them into "Idea Factories". You being a double-agent for the Army and the Air Force, and a Russian agent would be the coup de gras; you might even get to work for Alex Jones at Infowars. If you could return those audio recordings of Tesla's real voice and videos of the real person, since they are also ALL missing, that would be great. If you could just fallaciously go back in time like Einstein said, then you could have asked Tesla's financier in Radio, Peck, his financiers John Astor & JP Morgan, his last co-designer in Wardenclyffe, the famous Stanford White, friend witness and politician Mark Twain, or even President William McKinley who was shot immediately after touring the Westinghouse, Tesla Hydro-electric plant at Niagara Falls; what they knew about Wireless Power and the Death Ray, because they were all assassinated. Within the same year, Nikola Tesla told JP Morgan that the Niagara electric company already approved Tesla using 10,000 horsepower from the Niagara Falls generators for wireless power. Tesla even offered the electric company stock in his company. Tesla told Morgan that he, Tesla, had secured all worldwide rights to his and the only practical method to generate, "Trillions" of simultaneous, secure, pulse-width and pulse-position modulated (Terrestrial GPS) radio signals. By March 8th 1907, prior to the 1907 stock market crash that bankrupt Westinghouse & Tesla, Tesla secured "all" patents on what he calls "Tuned Lightning", the processes, appliances, generation, transmission, transformation, distribution, direction, storage, regulation, control and economic utilization. Two months later the patent office accepted his refiling of his patent for the Wardenclyffe Tower Structure, but did not approve it until 1914. This delay gave time for the Federal Reserve Act to be passed to create a Fiat money system, and when WW1 started, the supposed entire world attacked Tesla's hometown, Serbia. But, you knew all that! Granted, a few years earlier, Tesla did tell JP Morgan that if he did not provide the next \$250,000 or more to finish Wardenclyffe that you, JP Morgan would "Never see that machinery". Since Tesla mentioned to Morgan that he, Tesla, was responsible for more than \$6 Trillion in sales to industry based on his inventions, that this venture would work as sure as "my name is Tesla". But later in Tesla's 1919 Autobiography in Electrical Experimenter, he wanted to dispell a rumor in the press about the destruction of his tower, Wardenclyffe, he said "They were building more of them". In the same Autobiography he states "every one of my Inventions prior to 1919 worked 100% as he prescribed". Days after Tesla dies, Spanel tells the FBI that Fitzgerald told him that Tesla had "completed and perfected" wireless power transmission and that the main goal of Tesla's latest works was to provide electricity to the world absolutely for free. Is Tesla lying? If you think so, prove it up! (Now you're looking for the secret, but you won't find it, because of course, you're not really looking, you don't want to work it out, ... You want to be Fooled! -- Ending sequence in The Prestige) <https://youtu.be/GZc3EsElqeA>

If you we're right there like his Assistants Marconi, Hammond, Kolman Tzito Father and Son, Lowenstein, Scherff, Hettinger or agents Spanel & Fitzgerald, you might have seen it all. Were you the get away driver in the movie "Fragments from Olympus" that tells the story of real-life FBI agents P. E Foxworth and Dennis Haberfeld, who died on January 15, 1943 during the posthumus investigation of Nikola Tesla's property. Described by FBI documents as being part of "a secret mission of critical importance", the two were killed on their way to General Eisenhower, when their military transport mysteriously crashed? The cause of the crash was never ascertained. It must have been the faulty Autonomous driving technology that crashed the 2 truck loads of Tesla's effects. Like other great minds study scientists before them, it's also great that you have the 1000 points of lights, tubes that Tesla said he had in a separate room on the Wardenclyffe property, under oath of his 1922 Supreme Court foreclosure appeals case, and that "each light described a scientific discovery". We're all glad you have that, because, it's been missing since 1943. Since Fitzgerald told the FBI director in 1945 that because the Russians had access to the "Entire Tesla Collection" behind the Iron Curtain, and because of experiments going on at Hill AFB, that he was soliciting Army Intelligence and "Wealthy Backers" like the Ford Foundation, to accumulate all they can on Tesla's effects and turn them into "Idea Factories". You being a double-agent for the Army and the Air Force, and a Russian agent would be the coup de gras; you might even get to work for Alex Jones at Infowars. If you could return those audio recordings of Tesla's real voice and videos of the real person, since they are also ALL missing, that would be great. If you could just fallaciously go back in time like Einstein said, then you could have asked Tesla's financier in Radio, Peck, his financiers John Astor & JP Morgan, his last co-designer in Wardenclyffe, the famous Stanford White, friend witness and politician Mark Twain, or even President William McKinley who was shot immediately after touring the Westinghouse, Tesla Hydro-electric plant at Niagara Falls; what they knew about Wireless Power and the Death Ray, because they were all assassinated. Within the same year, Nikola Tesla told JP Morgan that the Niagara electric company already approved Tesla using 10,000 horsepower from the Niagara Falls generators for wireless power. Tesla even offered the electric company stock in his company. Tesla told Morgan that he, Tesla, had secured all woldwide rights to his and the only practical method to generate, "Trillions" of simultaneous, secure, pulse-width and pulse-position modulated (Terrestrial GPS) radio signals. By March 8th 1907, prior to the 1907 stock market crash that bankrupt Westinghouse & Tesla, Tesla secured "all" patents on what he calls "Tuned Lightning", the processes,

appliances, generation, transmission, transformation, distribution, direction, storage, regulation, control and economic utilization. Two months later the patent office accepted his refiling of his patent for the Wardenclyffe Tower Structure, but did not approve it until 1914. This delay gave time for the Federal Reserve Act to be passed to create a Fiat money system, and when WW1 started, the supposed entire world attacked Tesla's hometown, Serbia. But, you knew all that! Granted, a few years earlier, Tesla did tell JP Morgan that if he did not provide the next \$250,000 or more to finish Wardenclyffe that you, JP Morgan would "Never see that machinery". Since Tesla mentioned to Morgan that he, Tesla, was responsible for more than \$6 Trillion in sales to industry based on his inventions, that this venture would work as sure as "my name is Tesla". But later in Tesla's 1919 Autobiography in Electrical Experimenter, he wanted to dispell a rumor in the press about the destruction of his tower, Wardenclyffe, he said "They were building more of them". In the same Autobiography he states "every one of my Inventions prior to 1919 worked 100% as he prescribed". Days after Tesla dies, Spanel tells the FBI that Fitzgerald told him that Tesla had "completed and perfected" wireless power transmission and that the main goal of Tesla's latest works was to provide electricity to the world absolutely for free. Is Tesla lying? If you think so, prove it up! (Now you're looking for the secret, but you won't find it, because of course, you're not really looking, you don't want to work it out, ... You want to be Fooled! -- Ending sequence in The Prestige) <https://youtu.be/GZc3EsElqeA>

Voted the most Awesome, Epic retort in Internet history. Respons to those who claim "They know everything about "Nikola Tesla"", then go on to claim they can "debunk" Tesla. Even though it's unlikely they know how to spell his name or where he is from, since the town he was born in doesn't exist anymore. Tesla Leaks has sourced the documents and admission by Tesla and the Library of Congress in 1891, his name is spelt with a (C) "Nicola Tesla". <http://www.teslaleaks.com/> -- Some think that everything online about Tesla, is made up! Most of it is. But, how could you know "everything"? You've read all the top secret documents in every country on Earth, you must work for the CIA. In fact, you must have written the entire un-redacted FBI File and the other 3 files referred to in the FBI File. Do you have the Alien skeletons too? And the real pictures of Space, not the 100% fake Photoshop pictures NASA puts out. Only "Space Raven" knows for sure. To his credit, Tesla invented Photoshop in 1899 with his composite picture of him sitting there inside his Colorado Springs Lab. Either way, the Tyrannasaur bone, rock, fossil fuel tooth looking thing you have might catch \$10M on eBay. The 800,000 documents, newspapers, articles, Library of Congress and 900 patents and Inventions at the Tesla Museum; much available online to find in 5 seconds is "made up"? You must have also worked for the 13 companies Doctor Tesla owned, have his 600 missing patents and Inventions (900 FBI File) and read the 400,000 documents locked up at the Tesla Museum. You also must have worked at the Tesla society in 1915 during WW1, worked at his Museum that was bombed in WW2 and the one that Bill Clinton bombed in 1999. It must have been a miracle that you survived the 10,000 tons of depleted Uranium NATO dropped on Serbia. Was it you that compiled the Colorado Springs Experiments Notes in 1955, from events that took place in 1899, or is it 1889 according Tesla at his Wardenclyffe appeal. You must be sure "he had it all in his head". Of course it also helps to have the other 400,000 documents, 40 trunk's, 30 bundles, a safe and a multi-decade resistance box you were able to impossibly crack. instead it was people who called themselves "government officials" and John G Trump who admitted reviewing the information in Tesla's NY storage unit. While you were there, you must have seen the two pictures of everything the FBI said they took. Sava Kosanovich told the FBI under oath that the 200 page notebook Tesla was writing, was also missing. You must have snatched that too! Even beyond that, you must have gotten access to Einstein's brain held in (according to Tesla, non destructive) cryogenic freezing at CERN. And of course you are aware that Tesla has the earliest patent for superconductivity "Means for increasing electrical intensity using cold temperature" in 1900. As you know, CERN gets it's superconductive gasses like Krypton using a Westinghouse Nuclear Power Plant or Tesla's Electrical method using his 1897 Patent and Apparatus for producing Ozone and other gasses. The point being, with Einstein's brain you can figure out Nuclear Power and the Nuclear Bomb Hoax, since, according to UN and US law, Nuclear is considered "classified on birth". It's a benefit if you can speak and write 13 languages, because his Serbian handwriting is terrible. They should have brought you in to analyze the Tesla papers, instead of the FBI bringing in Deforest. If you we're right there like his Assistants Marconi, Hammond, Kolman Tzito Father and Son, Lowenstein, Scherff, Hettinger or agents Spanel & Fitzgerald, you might have seen it all. Were you the get away driver in the movie "Fragments from Olympus" that tells the story of real-life FBI agents P. More "Fake News" from Alex Jones about electric cars. Just because a car has Autonomous features, which you don't have to use, doesn't mean you should "run it off the road" like you said in your show. The last Tesla staged accident involved a Tesla Model S hitting a fire truck at 65MPH. The driver walked off with just a scratch. Can your F150 survive that crash and your gas tank not explode? [https://youtu.be/\\_qwIMN0xwhE](https://youtu.be/_qwIMN0xwhE)

Alex Jones said "his dad lobbies to keep the coal plants on" and wants you poisoned by his Iodine he gets from a 5 mile deep pit, sells and claims will save you from "Fukushima radiation". Whilst they burn the entire spectrum of Earthy materials directly into the air, on the ground, into your rivers and even the Oceans. Classic Repost from Tesla Leaks on Alex Jones admission of who is the "New World Order". Plus, as a side note, The Tesla Science Center at Wardencllyffe, Discovery Channel, any science board, comment box, greenie sites, renewable sites, Tesla the car. If you start talking about Nikola Tesla, or actually prove something, (even by definition) they will block you faster than the WTC fell. Now I know what you are thinking, "FreeFall", but 30 ft per sec. would take 45 seconds, I mean "Terminal Velocity"! What about WTC 7 they ask? There is no such thing as WTC 7! The WTC complex is 1-6. Alex Jones changed it's name from the inventors of the petro-dollar, "The Solomon Brothers" building, to WTC 7. To confuse you to who the real criminals are. <https://m.facebook.com/photo.php?fbid=1782033585442797&id=100009085196708&set=gm.929452900525802&source=48>

So what really happened to Solyndra? Solyndra went bankrupt because of 7 years of delays and lawsuits by the Cowboys, Indians, Hippies, the Edison Institute, and even representatives of the Crown, that believe in the "Flying Desert Turtle Act of 1994" as a reason to block all renewable energy. Other Acts started the bans as early as 1908 in the US. Nuclear is the "safest industry in the history of mankind". No one has ever died from radiation from reactors, nor in a Tesla car in 75 years. The newest 12 pack modular function reactors are "impossible to melt down". In the case of the flying turtles, when Ivanpah was built by essentially a Presidential Directive, a whole 20 turtles were moved to another spot, fed well and got their pictures taken. No turtles are ever harmed by Wind Turbines or Solar Panels. This gave time for Obama to add 78% tariffs on solar panels, while 500,000,000 solar panels sat idle in California warehouses since 2009. <https://youtu.be/FcGLNyM4VP4>

<http://www.teslaleaks.com/>

Voted the most Awesome, Epic retort in Internet history. Respons to those who claim "They know everything about "Nikola Tesla"", then go on to claim they can "debunk" Tesla. Even though it's unlikely they know how to spell his name or where he is from, since the town he was born in doesn't exist anymore. Tesla Leaks has sourced the documents and admission by Tesla and the Library of Congress in 1891, his name is spelt with a (C) "Nicola Tesla". <http://www.teslaleaks.com/> -- Some think that everything online about Tesla, is made up! Most of it is. But, how could you know "everything"? You've read all the top secret documents in every country on Earth, you must work for the CIA. In fact, you must have written the entire un-redacted FBI File and the other 3 files referred to in the

FBI File. Do you have the Alien skeletons too? And the real pictures of Space, not the 100% fake Photoshop pictures NASA puts out. Only "Space Raven" knows for sure. To his credit, Tesla invented Photoshop in 1899 with his composite picture of him sitting there inside his Colorado Springs Lab. Either way, the Tyrannasaur bone, rock, fossil fuel tooth looking thing you have might catch \$10M on eBay. The 800,000 documents, newspapers, articles, Library of Congress and 900 patents and Inventions at the Tesla Museum; much available online to find in 5 seconds is "made up"? You must have also worked for the 13 companies Doctor Tesla owned, have his 600 missing patents and Inventions (900 FBI File) and read the 400,000 documents locked up at the Tesla Museum. You also must have worked at the Tesla society in 1915 during WW1, worked at his Museum that was bombed in WW2 and the one that Bill Clinton bombed in 1999. It must have been a miracle that you survived the 10,000 tons of depleted Uranium NATO dropped on Serbia. Was it you that compiled the Colorado Springs Experiments Notes in 1955, from events that took place in 1899, or is it 1889 according Tesla at his Wardenclyffe appeal. You must be sure "he had it all in his head". Of course it also helps to have the other 400,000 documents, 40 trunk's, 30 bundles, a safe and a multi-decade resistance box you were able to impossibly crack. instead it was people who called themselves "government officials" and John G Trump who admitted reviewing the information in Tesla's NY storage unit. While you were there, you must have seen the two pictures of everything the FBI said they took. Sava Kosanovich told the FBI under oath that the 200 page notebook Tesla was writing, was also missing. You must have snatched that too! Even beyond that, you must have gotten access to Einstein's brain held in (according to Tesla, non destructive) cryogenic freezing at CERN. And of course you are aware that Tesla has the earliest patent for superconductivity "Means for increasing electrical intensity using cold temperature" in 1900. As you know, CERN gets it's superconductive gasses like Krypton using a Westinghouse Nuclear Power Plant or Tesla's Electrical method using his 1897 Patent and Apparatus for producing Ozone and other gasses. The point being, with Einstein's brain you can figure out Nuclear Power and the Nuclear Bomb Hoax, since, according to UN and US law, Nuclear is considered "classified on birth". It's a benefit if you can speak and write 13 languages, because his Serbian handwriting is terrible. They should have brought you in to analyze the Tesla papers, instead of the FBI bringing in Deforest. If you we're right there like his Assistants Marconi, Hammond, Kolman Tzito Father and Son, Lowenstein, Scherff, Hettinger or agents Spanel & Fitzgerald, you might have seen it all. Were you the get away driver in the movie "Fragments from Olympus" that tells the story of real-life FBI agents P. E Foxworth and Dennis Haberfeld, who died on January 15, 1943 during the posthumus investigation of Nikola Tesla's property. Described by FBI documents as being part of "a secret mission of critical importance", the two were killed on their way to General Eisenhower, when their military transport mysteriously crashed? The cause of the crash was never ascertained. It must have been the faulty Autonomous driving technology that crashed the 2 truck loads of Tesla's effects. Like other great minds study scientists before them, it's also great that you have the 1000 points of lights, tubes that Tesla said he had in a separate room on the Wardenclyffe property, under oath of his 1922 Supreme Court foreclosure appeals case, and that "each light described a scientific discovery". We're all glad you have that, because, it's been missing since 1943. Since Fitzgerald told the FBI director in 1945 that because the Russians had access to the "Entire Tesla Collection" behind the Iron Curtain, and because of experiments going on at Hill AFB, that he was soliciting Army Intelligence and "Wealthy Backers" like the Ford Foundation, to accumulate all they can on Tesla's effects and turn them into "Idea Factories". You being a double-agent for the Army and the Air Force, and a Russian agent would be the coup de gras; you might even get to work for Alex Jones at Infowars. If you could return those audio recordings of Tesla's real voice and videos of the real person, since they are also ALL missing, that would be great. If you could just fallaciously go back in time like Einstein said, then you could have asked Tesla's financier in Radio, Peck, his financiers John Astor & JP Morgan, his last co-designer in Wardenclyffe, the famous Stanford White, friend witness and politician Mark Twain, or even President William McKinley who was shot immediately after touring the Westinghouse, Tesla Hydro-electric plant at Niagara Falls; what they knew about Wireless Power and the Death Ray, because they were all assassinated. Within the same year, Nikola Tesla told JP Morgan that the Niagara electric company already approved Tesla using 10,000 horsepower from the Niagara Falls generators for wireless power. Tesla even offered the electric company stock in his company. Tesla told Morgan that he, Tesla, had secured all woldwide rights to his and the only practical method to generate, "Trillions" of simultaneous, secure, pulse-width and pulse-position modulated (Terrestrial GPS) radio signals. By March 8th 1907, prior to the 1907 stock market crash that bankrupt Westinghouse & Tesla, Tesla secured "all" patents on what he calls "Tuned Lightning", the processes, appliances, generation, transmission, transformation, distribution, direction, storage, regulation, control and economic utilization. Two months later the patent office accepted his refilling of his patent for the Wardenclyffe Tower Structure, but did not approve it until 1914. This delay gave time for the Federal Reserve Act to be passed to create a Fiat money system, and when WW1 started, the supposed entire world attacked Tesla's hometown, Serbia. But, you knew all that! Granted, a few years earlier, Tesla did tell JP Morgan that if he did not provide the next \$250,000 or more to finish Wardenclyffe that you, JP Morgan would "Never see that machinery". Since Tesla mentioned to Morgan that he, Tesla, was responsible for more than \$6 Trillion in sales to industry based on his inventions, that this venture would work as sure as "my name is Tesla". But later in Tesla's 1919 Autobiography in Electrical Experimenter, he wanted to dispell a rumor in the press about the destruction of his tower, Wardenclyffe, he said "They were building more of them". In the same Autobiography he states "every one of my Inventions prior to 1919 worked 100% as he

prescribed". Days after Tesla dies, Spanel tells the FBI that Fitzgerald told him that Tesla had "completed and perfected" wireless power transmission and that the main goal of Tesla's latest works was to provide electricity to the world absolutely for free. Is Tesla lying? If you think so, prove it up! (Now you're looking for the secret, but you won't find it, because of course, you're not really looking, you don't want to work it out, ... You want to be Fooled! -- Ending sequence in The Prestige) <https://youtu.be/GZc3EsElqeA>

Voted the most Awesome, Epic retort in Internet history. Respons to those who claim "They know everything about "Nikola Tesla"", then go on to claim they can "debunk" Tesla. Even though it's unlikely they know how to spell his name or where he is from, since the town he was born in doesn't exist anymore. Tesla Leaks has sourced the documents and admission by Tesla and the Library of Congress in 1891, his name is spelt with a (C) "Nicola Tesla". <http://www.teslaleaks.com/> -- Some think that everything online about Tesla, is made up! Most of it is. But, how could you know "everything"? You've read all the top secret documents in every country on Earth, you must work for the CIA. In fact, you must have written the entire un-redacted FBI File and the other 3 files referred to in the FBI File. Do you have the Alien skeletons too? And the real pictures of Space, not the 100% fake Photoshop pictures NASA puts out. Only "Space Raven" knows for sure. To his credit, Tesla invented Photoshop in 1899 with his composite picture of him sitting there inside his Colorado Springs Lab. Either way, the Tyrannasaur bone, rock, fossil fuel tooth looking thing you have might catch \$10M on eBay. The 800,000 documents, newspapers, articles, Library of Congress and 900 patents and Inventions at the Tesla Museum; much available online to find in 5 seconds is "made up"? You must have also worked for the 13 companies Doctor Tesla owned, have his 600 missing patents and Inventions (900 FBI File) and read the 400,000 documents locked up at the Tesla Museum. You also must have worked at the Tesla society in 1915 during WW1, worked at his Museum that was bombed in WW2 and the one that Bill Clinton bombed in 1999. It must have been a miracle that you survived the 10,000 tons of depleted Uranium NATO dropped on Serbia. Was it you that compiled the Colorado Springs Experiments Notes in 1955, from events that took place in 1899, or is it 1889 according Tesla at his Wardenclyffe appeal. You must be sure "he had it all in his head". Of course it also helps to have the other 400,000 documents, 40 trunk's, 30 bundles, a safe and a multi-decade resistance box you were able to impossibly crack. instead it was people who called themselves "government officials" and John G Trump who admitted reviewing the information in Tesla's NY storage unit. While you were there, you must have seen the two pictures of everything the FBI said they took. Sava Kosanovich told the FBI under oath that the 200 page notebook Tesla was writing, was also missing. You must have snatched that too! Even beyond that, you must have gotten access to Einstein's brain held in (according to Tesla, non destructive) cryogenic freezing at CERN. And of course you are aware that Tesla has the earliest patent for superconductivity "Means for increasing electrical intensity using cold temperature" in 1900. As you know, CERN gets it's superconductive gasses like Krypton using a Westinghouse Nuclear Power Plant or Tesla's Electrical method using his 1897 Patent and Apparatus for producing Ozone and other gasses. The point being, with Einstein's brain you can figure out Nuclear Power and the Nuclear Bomb Hoax, since, according to UN and US law, Nuclear is considered "classified on birth". It's a benefit if you can speak and write 13 languages, because his Serbian handwriting is terrible. They should have brought you in to analyze the Tesla papers, instead of the FBI bringing in Deforest. If you we're right there like his Assistants Marconi, Hammond, Kolman Tzito Father and Son, Lowenstein, Scherff, Hettinger or agents Spanel & Fitzgerald, you might have seen it all. Were you the get away driver in the movie "Fragments from Olympus" that tells the story of real-life FBI agents P. E Foxworth and Dennis Haberfeld, who died on January 15, 1943 during

the posthumus investigation of Nikola Tesla's property. Described by FBI documents as being part of "a secret mission of critical importance", the two were killed on their way to General Eisenhower, when their military transport mysteriously crashed? The cause of the crash was never ascertained. It must have been the faulty Autonomous driving technology that crashed the 2 truck loads of Tesla's effects. Like other great minds study scientists before them, it's also great that you have the 1000 points of lights, tubes that Tesla said he had in a separate room on the Wardenclyffe property, under oath of his 1922 Supreme Court foreclosure appeals case, and that "each light described a scientific discovery". We're all glad you have that, because, it's been missing since 1943. Since Fitzgerald told the FBI director in 1945 that because the Russians had access to the "Entire Tesla Collection" behind the Iron Curtain, and because of experiments going on at Hill AFB, that he was soliciting Army Intelligence and "Wealthy Backers" like the Ford Foundation, to accumulate all they can on Tesla's effects and turn them into "Idea Factories". You being a double-agent for the Army and the Air Force, and a Russian agent would be the coup de gras; you might even get to work for Alex Jones at Infowars. If you could return those audio recordings of Tesla's real voice and videos of the real person, since they are also ALL missing, that would be great. If you could just fallaciously go back in time like Einstein said, then you could have asked Tesla's financier in Radio, Peck, his financiers John Astor & JP Morgan, his last co-designer in Wardenclyffe, the famous Stanford White, friend witness and politician Mark Twain, or even President William McKinley who was shot immediately after touring the Westinghouse, Tesla Hydro-electric plant at Niagara Falls; what they knew about Wireless Power and the Death Ray, because they were all assassinated. Within the same year, Nikola Tesla told JP Morgan that the Niagara electric company already approved Tesla using 10,000 horsepower from the Niagara Falls generators for wireless power. Tesla even offered the electric company stock in his company. Tesla told Morgan that he, Tesla, had secured all worldwide rights to his and the only practical method to generate, "Trillions" of simultaneous, secure, pulse-width and pulse-position modulated (Terrestrial GPS) radio signals. By March 8th 1907, prior to the 1907 stock market crash that bankrupt Westinghouse & Tesla, Tesla secured "all" patents on what he calls "Tuned Lightning", the processes, appliances, generation, transmission, transformation, distribution, direction, storage, regulation, control and economic utilization. Two months later the patent office accepted his refiling of his patent for the Wardenclyffe Tower Structure, but did not approve it until 1914. This delay gave time for the Federal Reserve Act to be passed to create a Fiat money system, and when WW1 started, the supposed entire world attacked Tesla's hometown, Serbia. But, you knew all that! Granted, a few years earlier, Tesla did tell JP Morgan that if he did not provide the next \$250,000 or more to finish Wardenclyffe that you, JP Morgan would "Never see that machinery". Since Tesla mentioned to Morgan that he, Tesla, was responsible for more than \$6 Trillion in sales to industry based on his inventions, that this venture would work as sure as "my name is Tesla". But later in Tesla's 1919 Autobiography in Electrical Experimenter, he wanted to dispell a rumor in the press about the destruction of his tower, Wardenclyffe, he said "They were building more of them". In the same Autobiography he states "every one of my Inventions prior to 1919 worked 100% as he prescribed". Voted the most Awesome, Epic retort in Internet history. Responds to those who claim "They know everything about "Nikola Tesla"", then go on to claim they can "debunk" Tesla. Even though it's unlikely they know how to spell his name. Tesla Leaks has sourced the documents and admission by Tesla and the Library of Congress in 1891, his name is spelt with a (C) "Nicola Tesla".

<http://www.teslaleaks.com/> -- Some think that everything online about Tesla, is made up! How do you know "everything"? You've read all the top secret documents in every country on Earth, you must work for the CIA. In fact, you must have written the entire un-redacted FBI File and the other 3 files referred to in the FBI File. Do you have the Alien skeletons too? And the real pictures of Space, not the 100% fake Photoshop pictures NASA puts out. Only "Space Raven" knows for sure. To his credit, Tesla invented Photoshop in 1899 with his composite picture of him sitting there inside his Colorado Springs Lab. Either way, the Tyrannasaur bone, rock, fossil fuel tooth looking thing you have might catch \$10M on eBay. The 800,000 documents, newspapers, articles and 900 patents and Inventions at the Tesla Museum much available online to find in 5 seconds is "made up"? You must have also worked for the 13 companies Doctor Tesla owned, have his 600 missing patents and Inventions (900 FBI File) and read the 400,000 documents at the Tesla Museum. You also must have worked at the Tesla society in 1915, worked at his Museum that was bombed in WW2 and the one that Bill Clinton bombed in 1999. Was it you that compiled the Colorado Springs Notes in 1955, from events that took place in 1899, or is it 1889 according Tesla at his Wardenclyffe appeal. You must be sure "he had it all in his head". Of course it also helps to have the other 400,000 documents, 40 trunk's, 30 bundles, a safe and a multi-decade resistance box you were able to crack, which John G Trump admitting reviewed in Tesla's NY storage unit and also have seen the two pictures of everything the FBI said they took. Sava Kosanovich told the FBI under oath that the 200 page notebook Tesla was writing, was also missing. You must have snatched that too! Even beyond that, you must have gotten access to Einstein's brain held in (according to Tesla, non destructive) cryogenic freezing at CERN. And of course you are aware that Tesla has the earliest patent for superconductivity "Means for increasing electrical intensity oscillations using cold temperature" in 1900. As you know, CERN gets it's superconductive gasses like Krypton using a Westinghouse Nuclear Power Plant or Tesla's Electrical method using his 1897 Patent and Apparatus for producing Ozone and other gasses. The point being, with Einstein's brain you can figure out Nuclear

Power and the Nuclear Bomb Hoax, since, according to UN and US law, Nuclear is considered "classified on birth". It's a benefit if you can speak and write 13 languages, because his Serbian handwriting is terrible. They should have brought you in to analyze the Tesla papers, instead of the FBI bringing in Deforest. If you were right there like his Assistants Marconi, Hammond, Kolman Tzito Father and Son, Lowenstein, Scherff, Hettinger or agents Spanel & Fitzgerald, you might have seen it all. Were you the get away driver as "FRAGMENTS FROM OLYMPUS" tells the story of real-life FBI agents P. E Foxworth and Dennis Haberfeld, who died on January 15, 1943 during the posthumous investigation of Nikola Tesla's property. Described by FBI documents as being part of "a secret mission of critical importance", the two were killed on their way to General Eisenhower, when their military transport mysteriously crashed. The cause of the crash was never ascertained. Like all other great minds study scientists before them, it's also great that you have the 1000 points of lights, tubes that Tesla said he had, under oath of his 1922 Supreme Court foreclosure appeals case, and that "each light described a scientific discovery". We're all glad you have that, because, it's been missing since 1943. Since Fitzgerald told the FBI director in 1945 that because the Russians had access to the "Entire Tesla Collection" behind the Iron Curtain, and because of experiments going on at Hill AFB, that he was soliciting Army Intelligence and "Wealthy Backers" like the Ford Foundation, to accumulate all they can on Tesla's effects and turn them into "Idea Factories". You being a double-agent for the Army and the Air Force, and a Russian agent would be the coup de gras; you might even get to work for Alex Jones at Infowars. If you could return those audio recordings of Tesla's real voice and videos of the real person, since they are also ALL missing, that would be great. If you could just fallaciously go back in time like Einstein said, then you could have asked Tesla's financier in Radio, Peck, his financiers John Astor & JP Morgan, his last co-designer in Wardenclyffe, the famous Stanford White, friend witness and politician Mark Twain, or even President William McKinley who was shot immediately after touring Niagara Falls; what they knew about Wireless Power and the Death Ray, because they were all assassinated. Granted, Tesla did tell JP Morgan that if he did not provide the next \$250,000 or more to finish Wardenclyffe that you, JP Morgan would "Never see that machinery". But, since Tesla stated in his 1919 Autobiography in Electrical Experimenter, he wanted to dispell a rumor in the press about the destruction of his tower, Wardenclyffe, he said "They were building more of them". In the same Autobiography he states "every one of my Inventions prior to 1919 worked 100% as he prescribed". Days after Tesla dies, Spanel tells the FBI that Fitzgerald told him that Tesla had "completed and perfected" wireless power transmission and that the main goal of Tesla's latest works was to provide electricity to the world absolutely for free. Is Tesla lying? If you think so, prove it up! (Now you're looking for the secret, you won't find it because of course you don't want to really work it out, You want to be Fooled! -- Ending sequence in The Prestige)

If you could just fallaciously go back in time like Einstein said, then you could have asked Tesla's financier in Radio, Peck, his financiers John Astor & JP Morgan, his last co-designer in Wardenclyffe, the famous Stanford White, friend witness and politician Mark Twain, or even President William McKinley who was shot immediately after touring the Westinghouse, Tesla Hydro-electric plant at Niagara Falls; what they knew about Wireless Power and the Death Ray, because they were all assassinated. Within the same year, Nikola Tesla told JP Morgan that the Niagara electric company already approved Tesla using 10,000 horsepower from the Niagara Falls generators for wireless power. Tesla even offered the electric company stock in his company. Tesla told Morgan that he, Tesla, had secured all worldwide rights to his and the only practical method to generate, "Trillions" of simultaneous, secure, pulse-width and pulse-position modulated (Terrestrial GPS) radio signals. By March 8th 1907, prior to the 1907 stock market crash that bankrupt Westinghouse & Tesla, Tesla secured "all" patents on what he calls "Tuned Lightning", the processes, appliances, generation, transmission, transformation, distribution, direction, storage, regulation, control and economic utilization. Two months later the patent office accepted his refilling of his patent for the Wardenclyffe Tower Structure, but did not approve it until 1914. This delay gave time for the Federal Reserve Act to be passed to create a Fiat money system, and when WW1 started, the supposed entire world attacked Tesla's hometown, Serbia. But, you knew all that! Granted, a few years earlier, Tesla did tell JP Morgan that if he did not provide the next \$250,000 or more to finish Wardenclyffe that you, JP Morgan would "Never see that machinery". Since Tesla mentioned to Morgan that he, Tesla, was responsible for more than \$6 Trillion in sales to industry based on his inventions, that this venture would work as sure as "my name is Tesla". But later in Tesla's 1919 Autobiography in Electrical Experimenter, he wanted to dispell a rumor in the press about the destruction of his tower, Wardenclyffe, he said "They were building more of them". In the same Autobiography he states "every one of my Inventions prior to 1919 worked 100% as he prescribed". Days after Tesla dies, Spanel tells the FBI that Fitzgerald told him that Tesla had "completed and perfected" wireless power transmission and that the main goal of Tesla's latest works was to provide electricity to the world absolutely for free. Voted the most Awesome, Epic retort in Internet history. Respones to those who claim "They know everything about "Nikola Tesla"", then go on to claim they can "debunk" Tesla. Even though it's unlikely they know how to spell his name. Tesla Leaks has sourced the documents and admission by Tesla and the Library of Congress in 1891, his name is spelt with a (C) "Nicola Tesla".

<http://www.teslaleaks.com/> -- Some think that everything online about Tesla, is made up! How do you know "everything"? You've read all the top secret documents in every country on Earth, you must work for the CIA. In fact, you must have written the entire un-redacted FBI File and the other 3 files referred to in the FBI File. Do you have the Alien skeletons too? And the real pictures of Space, not the 100% fake Photoshop pictures NASA puts out. Only "Space Raven" knows for sure. To his credit, Tesla invented

Photoshop in 1899 with his composite picture of him sitting there inside his Colorado Springs Lab. Either way, the Tyrannasaur bone, rock, fossil fuel tooth looking thing you have might catch \$10M on eBay. The 800,000 documents, newspapers, articles and 900 patents and Inventions at the Tesla Museum much available online to find in 5 seconds is "made up"? You must have also worked for the 13 companies Doctor Tesla owned, have his 600 missing patents and Inventions (900 FBI File) and read the 400,000 documents at the Tesla Museum. You also must have worked at the Tesla society in 1915, worked at his Museum that was bombed in WW2 and the one that Bill Clinton bombed in 1999. Was it you that compiled the Colorado Springs Notes in 1955, from events that took place in 1899, or is it 1889 according Tesla at his Wardenclyffe appeal. You must be sure "he had it all in his head". Of course it also helps to have the other 400,000 documents, 40 trunk's, 30 bundles, a safe and a multi-decade resistance box you were able to crack, which John G Trump admitting reviewed in Tesla's NY storage unit and also have seen the two pictures of everything the FBI said they took. Sava Kosanovich told the FBI under oath that the 200 page notebook Tesla was writing, was also missing. You must have snatched that too! Even beyond that, you must have gotten access to Einstein's brain held in (according to Tesla, non destructive) cryogenic freezing at CERN. And of course you are aware that Tesla has the earliest patent for superconductivity "Means for increasing electrical intensity oscillations using cold temperature" in 1900. As you know, CERN gets it's superconductive gasses like Krypton using a Westinghouse Nuclear Power Plant or Tesla's Electrical method using his 1897 Patent and Apparatus for producing Ozone and other gasses. The point being, with Einstein's brain you can figure out Nuclear Power and the Nuclear Bomb Hoax, since, according to UN and US law, Nuclear is considered "classified on birth". It's a benefit if you can speak and write 13 languages, because his Serbian handwriting is terrible. They should have brought you in to analyze the Tesla papers, instead of the FBI bringing in Deforest. If you we're right there like his Assistants Marconi, Hammond, Kolman Tzito Father and Son, Lowenstein, Scherff, Hettinger or agents Spanel & Fitzgerald, you might have seen it all. Were you the get away driver as "FRAGMENTS FROM OLYMPUS" tells the story of real-life FBI agents P. E Foxworth and Dennis Haberfeld, who died on January 15, 1943 during the posthumus investigation of Nikola Tesla's property. Described by FBI documents as being part of "a secret mission of critical importance", the two were killed on their way to General Eisenhower, when their military transport mysteriously crashed. The cause of the crash was never ascertained. Like all other great minds study scientists before them, it's also great that you have the 1000 points of lights, tubes that Tesla said he had, under oath of his 1922 Supreme Court foreclosure appeals case, and that "each light described a scientific discovery". We're all glad you have that, because, it's been missing since 1943. Since Fitzgerald told the FBI director in 1945 that because the Russians had access to the "Entire Tesla Collection" behind the Iron Curtain, and because of experiments going on at Hill AFB, that he was soliciting Army Intelligence and "Wealthy Backers" like the Ford Foundation, to accumulate all they can on Tesla's effects and turn them into "Idea Factories". You being a double-agent for the Army and the Air Force, and a Russian agent would be the coup de gras; you might even get to work for Alex Jones at Infowars. If you could return those audio recordings of Tesla's real voice and videos of the real person, since they are also ALL missing, that would be great. If you could just fallaciously go back in time like Einstein said, then you could have asked Tesla's financier in Radio, Peck, his financiers John Astor & JP Morgan, his last co-designer in Wardenclyffe, the famous Stanford White, friend witness and politician Mark Twain, or even President William McKinley who was shot immediately after touring Niagara Falls; what they knew about Wireless Power and the Death Ray, because they were all assassinated. Granted, Tesla did tell JP Morgan that if he did not provide the next \$250,000 or more to finish Wardenclyffe that you, JP Morgan would "Never see that machinery". But, since Tesla stated in his 1919 Autobiography in Electrical Experimenter, he wanted to dispell a rumor in the press about the destruction of his tower, Wardenclyffe, he said "They were building more of them". In the same Autobiography he states "every one of my Inventions prior to 1919 worked 100% as he prescribed". Days after Tesla dies, Spanel tells the FBI that Fitzgerald told him that Tesla had "completed and perfected" wireless power transmission and that the main goal of Tesla's latest works was to provide electricity to the world absolutely for free. Is Tesla lying? If you think so, prove it up! (Now you're looking for the secret, you won't find it, because of course you don't want to really work it out, You want to be Fooled! -- Ending sequence in The Prestige)

If you could just fallaciously go back in time like Einstein said, then you could have asked Tesla's financier in Radio, Peck, his financiers John Astor & JP Morgan, his last co-designer in Wardenclyffe, the famous Stanford White or even President William McKinley what they knew about Wireless Power and the Death Ray, because they were all assassinated. Granted, Tesla did tell JP Morgan that if he did not provide the next \$250,000 or more to finish Wardenclyffe that you, JP Morgan would "Never see that machinery". But, since Tesla stated in his 1919 Autobiography in Electrical Experimenter, he wanted to dispell a rumor in the press about the destruction of his tower, Wardenclyffe, he said "They were building more of them". In the same Autobiography he states "every one of my Inventions prior to 1919 worked 100% as he prescribed". Days after Tesla dies, Spanel tells the FBI that Fitzgerald told him that Tesla had "completed and perfected" wireless power transmission and that the main goal of Tesla's latest works was to provide electricity to the world absolutely for free. Is Tesla lying? If you think so, prove it up! (Now you're looking for the secret, you won't find it because of course you don't want to really work it out, You want to be Fooled! -- Ending sequence in The Prestige) <https://youtu.be/GZc3EsElqeA>

<http://www.teslaleaks.com/>

Voted "the most Awesome, Epic retort in the history of the Internet. It's time to shut the rest down!" Response to commenters who claim "They know everything about "Nikola Tesla"" and the Trump Empire, then go on to claim they can "debunk" Tesla. Even though it's unlikely they know how to spell his name. Tesla Leaks has sourced the documents and admission by Tesla and the Library of Congress in 1891, his name is spelt with a (C) "Nicola Tesla". <http://www.teslaleaks.com/> -- Some think that everything online about Tesla, is made up! How do you know "everything"? You've read all the top secret documents in every country on Earth, you must work for the CIA. In fact, you must have written the entire un-redacted FBI File and the other 3 files referred to in the FBI File. Do you have the Alien skeletons too? And the real pictures of Space, not the 100% fake Photoshop pictures NASA puts out. Only "Space Raven" knows for sure. To his credit, Tesla invented Photoshop in 1899 with his composite picture of him sitting there inside his Colorado Springs Lab. Either way, the Tyrannasaur bone, rock, fossil fuel tooth looking thing you have might catch \$10M on eBay. The 800,000 documents, newspapers, articles and 900 patents and Inventions at the Tesla Museum much available online to find in 5 seconds is "made up"? You must have also worked for the 13 companies Doctor Tesla owned, have his 600 missing patents and Inventions (900 FBI File) and read the 400,000 documents at the Tesla Museum. You also must have worked at the Tesla society in 1915, worked at his Museum that was bombed in WW2 and the one that Bill Clinton bombed in 1999. Was it you that compiled the Colorado Springs Notes in 1955, from events that took place in 1899, or is it 1889 according Tesla at his Wardencllyffe appeal. You must be sure "he had it all in his head". Of course it also helps to have the other 400,000 documents, 40 trunk's, 30 bundles, a safe and a multi-decade resistance box you were able to crack, which John G Trump admitting reviewed in Tesla's NY storage unit and also have seen the two pictures of everything the FBI said they took. Sava Kosanovich told the FBI under oath that the 200 page notebook Tesla was writing, was also missing. You must have snatched that too! Even beyond that, you must have gotten access to Einstein's brain held in (according to Tesla, non destructive) cryogenic freezing at CERN. And of course you are aware that Tesla has the earliest patent for superconductivity "Means for increasing electrical intensity oscillations using cold temperature" in 1900. As you know, CERN gets it's superconductive gasses like Krypton using a Westinghouse Nuclear Power Plant or Tesla's Electrical method using his 1897 Patent and Apparatus for producing Ozone and other gasses. The point being, with Einstein's brain you can figure out Nuclear Power and the Nuclear Bomb Hoax, since, according to UN and US law, Nuclear is considered "classified on birth". It's a benefit if you can speak and write 13 languages, because his Serbian handwriting is terrible. They should have brought you in to analyze the Tesla papers, instead of the FBI bringing in Deforest. If you we're right there like his Assistants Marconi, Hammond, Kolman Tzito Father and Son, Lowenstein, Scherff, Hettinger or agents Spanel & Fitzgerald, you might have seen it all. Like all other great minds study scientists before them, it's also great that you have the 1000 points of lights, tubes that Tesla said under oath of his 1922 Supreme Court foreclosure appeals case, that each light described a scientific secret. We're all glad you have that, because, it's been missing since 1943. Since Fitzgerald told the FBI director in 1945 that because the Russians had access to the "Entire Tesla Collection" behind the Iron Curtain, and because of experiments going on at Hill AFB, that he was soliciting Army Intelligence and "Wealthy Backers" like the Ford Foundation, to accumulate all they can on Tesla's effects and turn them into "Idea Factories". You being a double-agent for the Army and the Air Force, and a Russian agent would be the coup de gras; you might even get to work for Alex Jones at Infowars. If you could return those audio recordings of Tesla's real voice and videos of the real person, since they are also ALL missing, that would be great. If you could just fallaciously go back in time like Einstein said, then you could have asked Tesla's financier in Radio, Peck, his financiers John Astor & JP Morgan, his last co-designer in Wardencllyffe, the famous Stanford White or even President William McKinley what they knew about Wireless Power and the Death Ray, because they were all assassinated. <http://www.teslaleaks.com/>

Voted the most Awesome, Epic retort in Internet history. Respons to those who claim "They know everything about "Nikola Tesla"", then go on to claim they can "debunk" Tesla. Even though it's unlikely they know how to spell his name or where he is from, since the town he was born in doesn't exist anymore. Tesla Leaks has sourced the documents and admission by Tesla and the Library of Congress in 1891, his name is spelt with a (C) "Nicola Tesla". <http://www.teslaleaks.com/> -- Some think that everything online about Tesla, is made up! Most of it is. But, how could you know "everything"? You've read all the top secret documents in every country on

Earth, you must work for the CIA. In fact, you must have written the entire un-redacted FBI File and the other 3 files referred to in the FBI File. Do you have the Alien skeletons too? And the real pictures of Space, not the 100% fake Photoshop pictures NASA puts out. Only "Space Raven" knows for sure. To his credit, Tesla invented Photoshop in 1899 with his composite picture of him sitting there inside his Colorado Springs Lab. Either way, the Tyrannasaur bone, rock, fossil fuel tooth looking thing you have might catch \$10M on eBay. The 800,000 documents, newspapers, articles, Library of Congress and 900 patents and Inventions at the Tesla Museum; much available online to find in 5 seconds is "made up"? You must have also worked for the 13 companies Doctor Tesla owned, have his 600 missing patents and Inventions (900 FBI File) and read the 400,000 documents locked up at the Tesla Museum. You also must have worked at the Tesla society in 1915 during WW1, worked at his Museum that was bombed in WW2 and the one that Bill Clinton bombed in 1999. It must have been a miracle that you survived the 10,000 tons of depleted Uranium NATO dropped on Serbia. Was it you that compiled the Colorado Springs Experiments Notes in 1955, from events that took place in 1899, or is it 1889 according Tesla at his Wardenclyffe appeal. You must be sure "he had it all in his head". Of course it also helps to have the other 400,000 documents, 40 trunk's, 30 bundles, a safe and a multi-decade resistance box you were able to impossibly crack. instead it was people who called themselves "government officials" and John G Trump who admitted reviewing the information in Tesla's NY storage unit. While you were there, you must have seen the two pictures of everything the FBI said they took. Sava Kosanovich told the FBI under oath that the 200 page notebook Tesla was writing, was also missing. You must have snatched that too! Even beyond that, you must have gotten access to Einstein's brain held in (according to Tesla, non destructive) cryogenic freezing at CERN. And of course you are aware that Tesla has the earliest patent for superconductivity "Means for increasing electrical intensity using cold temperature" in 1900. As you know, CERN gets it's superconductive gasses like Krypton using a Westinghouse Nuclear Power Plant or Tesla's Electrical method using his 1897 Patent and Apparatus for producing Ozone and other gasses. The point being, with Einstein's brain you can figure out Nuclear Power and the Nuclear Bomb Hoax, since, according to UN and US law, Nuclear is considered "classified on birth". It's a benefit if you can speak and write 13 languages, because his Serbian handwriting is terrible. They should have brought you in to analyze the Tesla papers, instead of the FBI bringing in Deforest. If you we're right there like his Assistants Marconi, Hammond, Kolman Tzito Father and Son, Lowenstein, Scherff, Hettinger or agents Spanel & Fitzgerald, you might have seen it all. Were you the get away driver in the movie "Fragments from Olympus" that tells the story of real-life FBI agents P. E Foxworth and Dennis Haberfeld, who died on January 15, 1943 during the posthumus investigation of Nikola Tesla's property. Described by FBI documents as being part of "a secret mission of critical importance", the two were killed on their way to General Eisenhower, when their military transport mysteriously crashed? The cause of the crash was never ascertained. It must have been the faulty Autonomous driving technology that crashed the 2 truck loads of Tesla's effects. Like other great minds study scientists before them, it's also great that you have the 1000 points of lights, tubes that Tesla said he had in a separate room on the Wardenclyffe property, under oath of his 1922 Supreme Court foreclosure appeals case, and that "each light described a scientific discovery". We're all glad you have that, because, it's been missing since 1943. Since Fitzgerald told the FBI director in 1945 that because the Russians had access to the "Entire Tesla Collection" behind the Iron Curtain, and because of experiments going on at Hill AFB, that he was soliciting Army Intelligence and "Wealthy Backers" like the Ford Foundation, to accumulate all they can on Tesla's effects and turn them into "Idea Factories". You being a double-agent for the Army and the Air Force, and a Russian agent would be the coup de gras; you might even get to work for Alex Jones at Infowars. If you could return those audio recordings of Tesla's real voice and videos of the real person, since they are also ALL missing, that would be great. If you could just fallaciously go back in time like Einstein said, then you could have asked Tesla's financier in Radio, Peck, his financiers John Astor & JP Morgan, his last co-designer in Wardenclyffe, the famous Stanford White, friend witness and politician Mark Twain, or even President William McKinley who was shot immediately after touring the Westinghouse, Tesla Hydro-electric plant at Niagara Falls; what they knew about Wireless Power and the Death Ray, because they were all assassinated. Within the same year, Nikola Tesla told JP Morgan that the Niagara electric company already approved Tesla using 10,000 horsepower from the Niagara Falls generators for wireless power. Tesla even offered the electric company stock in his company. Tesla told Morgan that he, Tesla, had secured all woldwide rights to his and the only practical method to generate, "Trillions" of simultaneous, secure, pulse-width and pulse-position modulated (Terrestrial GPS) radio signals. By March 8th 1907, prior to the 1907 stock market crash that bankrupt Westinghouse & Tesla, Tesla secured "all" patents on what he calls "Tuned Lightning", the processes, appliances, generation, transmission, transformation, distribution, direction, storage, regulation, control and economic utilization. Two months later the patent office accepted his refilling of his patent for the Wardenclyffe Tower Structure, but did not approve it until 1914. This delay gave time for the Federal Reserve Act to be passed to create a Fiat money system, and when WW1 started, the supposed entire world attacked Tesla's hometown, Serbia. But, you knew all that! Granted, a few years earlier, Tesla did tell JP Morgan that if he did not provide the next \$250,000 or more to finish Wardenclyffe that you, JP Morgan would "Never see that machinery". Since Tesla mentioned to Morgan that he, Tesla, was responsible for more than \$6 Trillion in sales to industry based on his inventions, that this venture would work as sure as "my name is Tesla". But later in Tesla's 1919 Autobiography in Electrical Experimenter, he wanted to dispell a rumor in the press about the destruction of his tower, Wardenclyffe, he said "They were

building more of them". In the same Autobiography he states "every one of my Inventions prior to 1919 worked 100% as he prescribed". Days after Tesla dies, Spanel tells the FBI that Fitzgerald told him that Tesla had "completed and perfected" wireless power transmission and that the main goal of Tesla's latest works was to provide electricity to the world absolutely for free. Is Tesla lying? If you think so, prove it up! (Now you're looking for the secret, but you won't find it, because of course, you're not really looking, you don't want to work it out, ... You want to be Fooled! -- Ending sequence in The Prestige) <https://youtu.be/GZc3EsElqeA>

Voted the most Awesome, Epic retort in Internet history. Responds to those who claim "They know everything about "Nikola Tesla"", then go on to claim they can "debunk" Tesla. Even though it's unlikely they know how to spell his name or where he is from, since the town he was born in doesn't exist anymore. Tesla Leaks has sourced the documents and admission by Tesla and the Library of Congress in 1891, his name is spelt with a (C) "Nicola Tesla". <http://www.teslaleaks.com/> -- Some think that everything online about Tesla, is made up! Most of it is. But, how could you know "everything"? You've read all the top secret documents in every country on Earth, you must work for the CIA. In fact, you must have written the entire un-redacted FBI File and the other 3 files referred to in the FBI File. Do you have the Alien skeletons too? And the real pictures of Space, not the 100% fake Photoshop pictures NASA puts out. Only "Space Raven" knows for sure. To his credit, Tesla invented Photoshop in 1899 with his composite picture of him sitting there inside his Colorado Springs Lab. Either way, the Tyrannasaur bone, rock, fossil fuel tooth looking thing you have might catch \$10M on eBay. The 800,000 documents, newspapers, articles, Library of Congress and 900 patents and Inventions at the Tesla Museum; much available online to find in 5 seconds is "made up"? You must have also worked for the 13 companies Doctor Tesla owned, have his 600 missing patents and Inventions (900 FBI File) and read the 400,000 documents locked up at the Tesla Museum. You also must have worked at the Tesla society in 1915 during WW1, worked at his Museum that was bombed in WW2 and the one that Bill Clinton bombed in 1999. It must have been a miracle that you survived the 10,000 tons of depleted Uranium NATO dropped on Serbia. Was it you that compiled the Colorado Springs Experiments Notes in 1955, from events that took place in 1899, or is it 1889 according Tesla at his Wardenclyffe appeal. You must be sure "he had it all in his head". Of course it also helps to have the other 400,000 documents, 40 trunk's, 30 bundles, a safe and a multi-decade resistance box you were able to impossibly crack. instead it was people who called themselves "government officials" and John G Trump who admitted reviewing the information in Tesla's NY storage unit. While you were there, you must have seen the two pictures of everything the FBI said they took. Sava Kosanovich told the FBI under oath that the 200 page notebook Tesla was writing, was also missing. You must have snatched that too! Even beyond that, you must have gotten access to Einstein's brain held in (according to Tesla, non destructive) cryogenic freezing at CERN. And of course you are aware that Tesla has the earliest patent for superconductivity "Means for increasing electrical intensity using cold temperature" in 1900. As you know, CERN gets it's superconductive gasses like Krypton using a Westinghouse Nuclear Power Plant or Tesla's Electrical method using his 1897 Patent and Apparatus for producing Ozone and other gasses. The point being, with Einstein's brain you can figure out Nuclear Power and the Nuclear Bomb Hoax, since, according to UN and US law, Nuclear is considered "classified on birth". It's a benefit if you can speak and write 13 languages, because his Serbian handwriting is terrible. They should have brought you in to analyze the Tesla papers, instead of the FBI bringing in Deforest. If you're right there like his Assistants Marconi, Hammond, Kolman Tzito Father and Son, Lowenstein, Scherff, Hettinger or agents Spanel & Fitzgerald, you might have seen it all. Were you the get away driver in the movie "Fragments from Olympus" that tells the story of real-life FBI agents P. E Foxworth and Dennis Haberfeld, who died on January 15, 1943 during the posthumus investigation of Nikola Tesla's property. Described by FBI documents as being part of "a secret mission of critical importance", the two were killed on their way to General Eisenhower, when their military transport mysteriously crashed? The cause of the crash was never ascertained. It must have been the faulty Autonomous driving technology that crashed the 2 truck loads of Tesla's effects. Like other great minds study scientists before them, it's also great that you have the 1000 points of lights, tubes that Tesla said he had in a separate room on the Wardenclyffe property, under oath of his 1922 Supreme Court foreclosure appeals case, and that "each light described a scientific discovery". We're all glad you have that, because, it's been missing since 1943. Since Fitzgerald told the FBI director in 1945 that because the Russians had access to the "Entire Tesla Collection" behind the Iron Curtain, and because of experiments going on at Hill AFB, that he was soliciting Army Intelligence and "Wealthy Backers" like the Ford Foundation, to accumulate all they can on Tesla's effects and turn them into "Idea Factories". You being a double-agent for the Army and the Air Force, and a Russian agent would be the coup de gras; you might even get to work for Alex Jones at Infowars. If you could return those audio recordings of Tesla's real voice and videos of the real person, since they are also ALL missing, that would be great. If you could just fallaciously go back in time like Einstein said, then you could have asked Tesla's financier in Radio, Peck, his financiers John Astor & JP Morgan, his last co-designer in Wardenclyffe, the famous Stanford White, friend witness and politician Mark Twain, or even President William McKinley who was shot immediately after touring the Westinghouse, Tesla Hydro-

electric plant at Niagara Falls; what they knew about Wireless Power and the Death Ray, because they were all assassinated. Within the same year, Nikola Tesla told JP Morgan that the Niagara electric company already approved Tesla using 10,000 horsepower from the Niagara Falls generators for wireless power. Tesla even offered the electric company stock in his company. Tesla told Morgan that he, Tesla, had secured all worldwide rights to his and the only practical method to generate, "Trillions" of simultaneous, secure, pulse-width and pulse-position modulated (Terrestrial GPS) radio signals. By March 8th 1907, prior to the 1907 stock market crash that bankrupt Westinghouse & Tesla, Tesla secured "all" patents on what he calls "Tuned Lightning", the processes, appliances, generation, transmission, transformation, distribution, direction, storage, regulation, control and economic utilization. Two months later the patent office accepted his refilling of his patent for the Wardenclyffe Tower Structure, but did not approve it until 1914. This delay gave time for the Federal Reserve Act to be passed to create a Fiat money system, and when WW1 started, the supposed entire world attacked Tesla's hometown, Serbia. But, you knew all that! It's a "Space Raven" shot. Space Raven can fly in space with bird wings and has a camera better than Photoshop, but doesn't have a zoom function you can get from China for 5 cents.
