

ELEVATE
SAFETY SYSTEMS

> Taking Elevator and Escalator Safety to New Heights

In addition to affecting your employees and your bottom line, your safety performance can also impact your customer base and your brand. If you're not 100% confident you have the right safety policies and processes in place, we can help.

SAFETY AS A STRATEGY

Elevate Safety Systems designs, develops, and deploys proven, successful safety programs and initiatives. We have experience refining existing programs for large companies as well as integrating and launching programs for companies just beginning their safety journey.

OUR METHODOLOGY

Elevate Safety Systems' 360° approach for discovery and safety initiative development begins with key stakeholder interviews as well as field observations. During the research phase, our best practice, industry-specialized templates guide the creation of customized action plans to elevate your organizational safety.

Are you depending on a proven process for your company's safety program...or luck?

If your answer is no to any of these questions, you may be putting your employees, and your business, in jeopardy:

YES	NO	
<input type="checkbox"/>	<input type="checkbox"/>	We have a well-managed employee health and safety program
<input type="checkbox"/>	<input type="checkbox"/>	If a serious or tragic incident were to occur, our programs and records are mature and detailed enough to mitigate exposure
<input type="checkbox"/>	<input type="checkbox"/>	We have financial resources available to absorb compensation losses
<input type="checkbox"/>	<input type="checkbox"/>	If a safety agency were to visit a job site unannounced, we would be in compliance
<input type="checkbox"/>	<input type="checkbox"/>	Our employee safety efforts demonstrate our commitment to protecting our teams
<input type="checkbox"/>	<input type="checkbox"/>	Supervisors and field employees have the necessary skills to identify unsafe conditions and at-risk behaviors
<input type="checkbox"/>	<input type="checkbox"/>	Our training and inspection programs are in place and effective in preventing injuries
<input type="checkbox"/>	<input type="checkbox"/>	We have safety sales strategies to improve site conditions

OUR SERVICES

Elevate Safety Systems offers a variety of solutions: from company and program assessments, inspection and field auditing to field training and supervisor development, we can design a safety solution to fit your needs.

SAFETY ASSESSMENT

Many times companies do safety just to do safety or believe a lack of injuries is the indicator of safety success. With a proper assessment of gaps and needs you can be assured that your actions and initiatives keep you in compliance and reduce ultimate risk for SIF (serious injury or fatality) injuries.

- ✓ Comprehensive Company Safety programs (Programs, Documents, Site Visits)
- ✓ Field High Risk / Life Safety (Job Site) Evaluations and Assessments
- ✓ Safety Documentation Review
- ✓ Worker Compensation Management and Loss Exposure
- ✓ Injury Analysis and Trends
- ✓ OSHA Program Compliance
- ✓ Safety Equipment Survey Portfolio Review
- ✓ Construction, Modernization, Repair Risk Safe Method
- ✓ Merger / Acquisition Due Diligence and Integration

EDUCATION & TRAINING

Employees are your greatest asset, and while no one goes to work looking for an injury, many do not have the guidance needed to make safe choices. The right programs can drive sustainable safety improvement and provide employees with the awareness, education, and procedures they need to prevent serious injury.

- ✓ Safety Manager Development
- ✓ Learning Management Systems Review
- ✓ Field Life Safety Hands-on Training (Fall Protection, Hoistway Access, Lock Out)
- ✓ Personal Protective Equipment
- ✓ Manager and Supervisor Safety Leadership Programs
- ✓ Supervisor Safety Roles and Responsibilities
- ✓ Onboarding Training for Technicians and Supervisors
- ✓ OSHA Compliance
- ✓ Training Curriculum Development and Delivery
- ✓ Inspection and Auditor Training

PROGRAM DEVELOPMENT

Safety is a way of doing business. From full reviews and assessments to program development or enhancement, we help companies mitigate exposure and build sustainable and pragmatic employee safety programs.

- ✓ Safety Program Management System
- ✓ Safety Program Tracking Platforms
- ✓ OSHA Elevator / Escalator Specific Programs
- ✓ Field Practice Safety Rule Handbook
- ✓ Toolbox Safety Talks
- ✓ Field, Warehouse, Vehicle Inspection and Audit Programs
- ✓ Incident Investigation Training and Support
- ✓ M&A EH&S Integration
- ✓ Behavior Safety Observation Process
- ✓ Pre-task Job Hazard Analysis and Risk Assessments
- ✓ Work Method and Standard Work Reviews
- ✓ Safety Communication Plans and Process
- ✓ Safety Recognition Programs
- ✓ Enforcement Process
- ✓ Safety Culture Surveys
- ✓ Manager and Supervisor Field Visit Programs
- ✓ Auditor Training and Evaluation
- ✓ Management Accident Review Process

Develop team members into company safety ambassadors, and make safety part of the DNA of the company.

YOUR FIRST STEP TO SAFETY FIRST

If you have any doubts about the thoroughness of your existing safety program or the culture of safety among your employees, Elevate Safety Systems can help you identify gaps, develop programs, and make health and safety more than just a priority but a core value for your company.

With over **20 years of safety experience** in the elevator and escalator industry, Elevate Safety Systems owner Lou DeLoreto has had the opportunity to develop and drive sustainable continuous safety improvement for companies of all size.

By integrating programs and practices into the business safety success becomes not separate but part of the business. His programs engage all levels of an organization and approach is pragmatic and business sensitive. His passion and energy for employee safety develops team members into company safety ambassadors, making safety part of the DNA of the company.
