1**CHOICE OF 2025 CALF CROP****STILLWATER FARMS**

Stillwater Farms of Indiana are opening the gates to their 2025 calf crop. An operation known for exhibiting countless champions at the highest of levels, this is your chance to capture some of those great genetics. Selection will be from Stillwater Farms, member code 12937, of their 2025 calves. Calves associated with Junior members, partnerships, or recipient females are not included in this selection. Selection must be made by June 15, 2025.

An exciting opportunity to choose from a proven program! Grounded in the beef industry, Lehmann Farm strives to produce forage efficient cattle that work in the real world. This set of bred heifers are solid, top to bottom, and offer you the buyer a unique chance to select right out of the keeper pen. With 7 females to choose from, you can bet you will find the one best suited to your herd. All females are confirmed bred via Biopryn testing to BLC Dream Weaver 711L for exceptional calving ease and maternal value. Heifers offered for consideration are ECL L736 PB108037, ECL L728 BC108034, LOF L707 PB108026, LOF L713 PB108050, ECL L739 BC108040, ECL L719 BN108053, and ECL L716 BN108051. Due to start calving March 1st, the Lehmanns request that the buyer makes their selection prior to calving. Trucking can be negotiated at a reasonable rate, contact Sean for more details.

Wow! What an opportunity here! A cow that has done all the work in and out of the show ring and still looks this good. WCCR is very high on this cow and the future she has there. The first offering of its kind for the Wolken's and they chose to do it here at the National Sale. Dixie Darlin 0068 earned several titles at NAILE, Cattlemen's Congress, and Fort Worth as a heifer and just this fall was named Champion Cow-Calf Pair at both the Tulsa State Fair and The American Royal. The buyer will receive a minimum of six transferable embryos and guarantee of one 60-day pregnancy if transferred by a certified technician within one year's time. On all embryos produced above 10, buyer receives odd numbered embryos, seller receives even-numbered embryos. Buyer pays IVF charges, semen cost and all freezing and/or transfer fees, with all freezing costs over 10 embryos being split odd/even between the buyer and seller. Flush work to be completed at Cross Country Genetics as early as this February and March.

12	1.5	45	59	12	34	3.2	114.17	67.05

Two year old virgin bull that is homo polled and homo black. Developed and scanned at Alfadale Feedyard. Compact, muscular, and light on his feet, this is the closest replica of his sire 4Kings has ever produced. This bull can be a difference maker in your program.

Presented by: 4Kings Ranch

Webbers Falls, Oklahoma | Colby King 918-773-2153

BLC At Ease 771L brings calving ease and easy birth weights to the table. He is deep bodied with deep fore and rear flanks. His sire, EZ Sleep is highly proven for those same traits with 127 offspring and CED in the top 1% of the breed. 771L's pedigree is built on bulls that produced awesome breeding females in the Brink herd. His Wizard of Oz dam produced a full brother to the bull selling here. That bull was purchased by Dina and Bob Ferguson for their Texas herd. 771L was tested at Green Springs Bull Test where he had a 3.71 ADG/ratio 111, 13.0 sq. in. REA/ratio 103, a 99.8 RFI/ratio 102 and came off test October 9 weighing 1,045 lb. Retaining an in-herd semen interest in 771L for use by the Brink family.

LOT 6

When Brink's selected his sire, EZ Sleep 811G as a bull to use on first calf heifers, they had no idea the influence he would have on their entire herd. Not only are EZ Sleep calves born easily and thrive, they mature into useful bulls and females that go right to work. This bull selling has the genetics to succeed. He inherited calving ease from both sire and dam and has performed with a phenotype to make him a useful bull. Look at his API and TI! Plus he's homozygous polled. 712L was a member of the Champion Pen of Bulls at the 2024 Cattlemen's Congress. We have a full sister to 712L in our own replacement pen. Retaining an in-herd semen interest for use by the Brink family.

SUNDAY, JANUARY 19, 2025

A brood cow prospect here! BBB 420 is the cattlemen's kind as she stops to pose in the pen. From her length of spine, depth of body, dimensional design, and up headed look there is nothing to fault her for. Ask her travel out from her pose and she continues to impress, moving with authority about the pen in a smooth pace. Halter broke - This one can be at home on the backdrop or in the front pasture.

Lot 8 from Big Blue Braunvieh is an eye-catching Bonanza daughter that you can't help but appreciate for her dimension and profile. Powered up, she has plenty to offer on the performance side but never gives up on the femininity or dimension that you expect from a BBB prefixed female. Bonus juniors - she is halter broke.

LOT 8

Pure show heifer potential with this halter broke Beef Builder female. BBB has a reputation for producing some excellent females and this one is no different. Elegant about her head and neck with an envious amount of volume, this Bojangles daughter will capture the attention of many a judge on show day and earn her way right into the donor pen.

A traditionally colored female who has mass, bone, and volume to spare. 408M is one of those that just hits you hard from the moment you walk into the pen and keeps catching your eye throughout the day. Definitely a front pasture kind of female.

LOT 12

Wolken's Cornerstone Ranch is excited to offer this female at the National Sale. Stout and stylish, this New Horizon daughter is balanced in her design and travels with grace and authority filling her tracks smoothly on the move. Her length and levelness of spine combined with her center body and mass make her an excellent prospect. The New Horizon daughters are proving themselves with each generation. The cow families in this heifer's pedigree are some of WCCR's best. You'll really like her as a bred and for years to come!

LOT 14

Rosanna has some of the bells and whistles that are hard to come by. You must appreciate this one for her front end and how clean and feminine she is about her neck and head. Analyze the muscle and top shape along with her striking profile. These Payday daughters always make the Wolken's show string, and she could do the same with her next owner. Don't sit idle on this one.

Magnolia is a sweet heifer, sired by N7R Montoya crossed on a daughter of Star Goldmine. She is hetero polled with above average EPDs making her an asset for any program. Magnolia will be entered in the Fort Worth Stock Show and Texas Braunvieh Bonanza shows.

9.6	2.9	47	62	6	30	2.2	88.21	51.2

Presented by: Superior Braunvieh Farms
Kings Mountain, North Carolina | Ryan Grigg 704-813-7238

Superior Braunvieh is offering this homo polled Black Joker daughter who is very docile, deep bodied, and has great structure. Her grandsire on the maternal side (WW Flagstaff) is well known for making exceptional females and as you can see, he has not disappointed here. She is halter broke and has been entered into the National Braunvieh Show. Let this female move your herd forward with this spectacular phenotype and genotype packaged offering.

LOT 16

It's hard to make good fullbloods that look like this. Her sire has knocked it out of the park with his fullblood daughters. Half sibs have many champion titles and not only that, they make COWS. A big belly on her and extra shag makes her stick out big time as a fullblood. If desired, Jalyn will nominate her for the fullblood cup next show season beginning August '25. However, if you can't wait till August to get her in the showing, she's entered in the Fort Worth show. It is a shame they were not able to picture this one, but rest assured you will want to see this one in person.

MISS HLJ GOLDEN ROSE ET | GRANDDAM OF LOT 18

One pretty red head that has an impeccable build. She's out of a first calf heifer but you definitely can't tell. The Smith's have been watching this one grow and she gets better and better every day. They all agreed this one was one to break out extremely fast. Jalyn says, "I love this heifer and all the extras that go with her!" She's entered in the Fort Worth show! Just remember some of the best ones are not always pictured, but they always will surprise you at the sale.

SUNDAY, JANUARY 19, 2025

Homozygous polled halter broke show heifer prospect. The best way to describe this female is brood cow. This thick, stout made, easy doing female, keeps a feminine phenotype that blends easily with her powerful bone and structural correctness. Her name (Carefree) also describes her disposition accurately. When done showing this eye appealing female will become a front pasture kind of cow!

Halter broke show heifer prospect. Correctness, phenotype, brood cow and probability come to mind with Lot 20. This female is a square hipped, powerful, deep body, broody type female with great dimension and phenotype. Maria, sired by our senior herdsire Deacon 452D, co-owned with WW Cattle, is a maternal sib to the \$10,000 co-top selling bull, RDF Xerox 1315L, in the 2024 Adding Value Sale and a 3/4 sib to the \$20,000 top selling female, WW Lady Antebellum, in the 2022 National Sale. This female has the look, pedigree, and history to be a very profitable donor for her future owner. Waiting on DNA results, also possibly homo black.

An own daughter of one of the original Swiss Imports to the US, Riss Fabian, out of a female raised from Diamond H's Canadian imports. Her grandsire also goes back to a Swiss bull imported into Canada. This bred heifer has lots of style with power to boot! A young fullblood with great potential. AI bred to Woodring's Ranger 11R. Great pedigree throughout this package.

Sells AI bred 5-15-24 to AAA Woodring's Ranger 11R, PB53600. Pasture exposed until 7-1-24 to Mr BLU 206G, PB97684.

Diamond H has selected several females from Canada over the years, and this female is the favorite daughter of what Todd considers the top cow of all the selections, a Wonder Bar daughter, 51B. Sired by Goliath, a full brother of Northstar Vernon, he has proven to sire some exceptional females in the DHR program. She was bred AI to Ranger11R and cleaned up by their heifer specialist 206G.

Pasture exposed 6-1 to 8-1-24 to DHR Peterbilt 22E, BC94113.

This one has donor written all over her! Out of the 18P cow, Diamond H Ranch's most prolific donor who produced her last flush of 13 grade ones at 18 years old! Sired by their deceased female specialist, Beefmaker 77ZA. She is long with lots of volume and has the "front pasture" cow look for sure. Her second calf (a heifer) weaned a 102 ratio. She is hitting her sweet spot, bred to their Peterbilt 22E bull for her third calf. This is one Todd says is hard to let go of.

If you are a follower of Jon Bonsmar, this female is his type for fertile females. Lots of volume, short haired, correct amount of dewlap and feminine front to back. She is out of Diamond H's 89A donor and sired by 31W whose dam gave them two herd sires and has a full sib that has given them three and is an embryo factory at the age of 18! Todd is painting the "This is a great genetic package." picture. Don't miss out on the opportunity to buy a great female here.
