The Troysgate training system is the most powerful and effective methodology for preparing people for “real world” life-and-death situations.

Since I first experienced the training in 2014, it has progressed to world-class levels. Troysgate *immerses* you in a truly *unique* training environment, providing a “real deal” encounter, creating “pre-battle veterans” who experience the physiological effects of combat without the tragic cost of blood and lives lost. This training *will* save lives!

I sent my VP of Operations (retired Detective Mike Baldwin) to visit Troysgate in 2022. He came back stating that this was the best, most realistic use of force training he has experienced in over 20 years of law enforcement.

As soon as you walk in that door, you are *in the storm!* Stress levels go up. Tunnel vision, auditory exclusion, and other reactions to real-world combat, are a result of the amazing combat realism in the Troysgate system. Videos give instant feedback. There is no debate! You *know* you experienced tunnel vision and auditory exclusion because the video proves what happened and what you did not see or hear.

Without the artificial impact of other systems (VR headsets, simulator screens, and reality-based-training protective equipment), the Troysgate system makes the mind and body say, “This is real!” There is no other system that provides this kind of physiological reaction and stress inoculation in training!

I give Troysgate my highest personal recommendation. Check it out! You’ll be glad you did.

Lt. Col Dave Grossman (USA, ret.)
