G'day

The weather has been absolutely fantastic these last few days! It's refreshing to finally be able to enjoy the outdoors without the intense heat—goodbye to those scorching 40+ degree days!

It's been a busy few weeks in town, with the Alice Springs Cup Carnival concluding this past weekend. We hope those who attended had an enjoyable time and were fortunate enough to back a few winners!

As we approach Easter, it's not only time for chocolate but also the annual Aileron Bush Weekend. Be sure to check out our Community Notices.

There are numerous community activities coming up in the next few months, and the team at Centre Ag is eager to support them, whether it's by lending a hand at BBQs or participating in working bees. We look forward to connecting with everyone and celebrating our vibrant community together.

In-store, things are bustling as well, with new arrivals almost daily! We've recently restocked our Kent Saddlery section, offering an excellent selection of products.

With mustering season in full swing, we've got vaccines, castrating equipment, supplements, and veterinary supplies in stock. While a few items have been harder to source, rest assured, our team is doing everything possible to ensure we have what you need.

If you're looking for a specific product, don't hesitate to give us a call or send an email. We'll do our best to get it in for you.

We look forward to seeing you in-store soon!

Andrew & Casey

CORN RIBS

<https://www.recipetineats.com/corn-ribs/>

Ingredients

- 4 whole corn cobs
- 3 tbsp extra virgin olive oil
- 2 tbsp parsley or coriander (YUM)

Seasoning:

- 1 ½ tsp garlic powder
- 2 ½ tsp smoked paprika
- 2 tsp salt
- 2 tsp black pepper

Garlic Butter:

- 500g unsalted butter
- 1 garlic clove

INSTRUCTIONS

1. Cut corn – Using a sharp knife and a non-slip cutting board, cut off the base and the pointy end of the corn. Stand the corn upright then cut the corn into half then half again to make quarters.

Bang the knife with your hand to lock it into the top of the corn, then keep hitting the knife to move it down the corn. Halfway, you might be able to stop banging and just rock the knife down.

2. Easiest method – Cut half length ribs. Shorter ribs = easier to cut

COOKING INSTRUCTIONS

1. BBQ (best!) or oven – Heat BBQ on high or oven 200°C/375°F (180°C fan).
2. Garlic butter – Melt the butter in a small saucepan over medium heat. Then add the garlic and cook for 20 seconds until it smells amazing! Remove from the stove and keep warm/liquid (I usually put it on the side of the BBQ).
3. Seasoning – mix in a small bowl.
4. Season corn – Place corn in a large bowl. Toss with olive oil. Then sprinkle the seasoning over gradually, tossing in between, to coat as evenly as possible.
5. BBQ – Place corn on the BBQ kernel side down. Cook for 8 minutes or until you get charred spots – watch it curl into "ribs"! Then cook each cut side for 1 minute.
6. Oven – Bake for 25 to 30 minutes, kernel side up. (Note: the corn doesn't curl as much, also, no charred spots).
7. Butter it – Transfer corn back into the bowl. Pour over garlic butter and toss.
8. Serve – Pile onto plate, sprinkle with parsley then grab and eat like ribs!
