Job Description: Based on initial meeting and existing Client documentation, PSC creates a detailed Job Description.

Action Plan: Based on job specifications and hiring timeline, PSC creates a Search Action Plan.

SEARCH

Job Announcement: PSC networks and contacts our established DB and posts job online.

Review and Screen: PSC reviews and screens resumes, narrowing down the candidate pool. PSC contacts candidates to perform phone, Skype/Zoom, and in-person interviews.

Candidate Selection: PSC selects up to 3 recommended candidates for the position, who are presented to Client via a Candidate Profile. Each profile provides a resume, a summary from the candidate about why they are interested in the position, and PSC's insight on the individual.

PLACE

Interview: Client decides which candidates they will interview internally. PSC will help set up the initial interview. Subsequent interviews will be set up by the Client.

Hire: PSC will continue to support the hiring process based on Client feedback, until the new employee or contractor is hired.
