

Harmonic Tuning Method

Directions:

Step #1: Tune the A string to A 110Hz (use an app, electronic tuner, keyboard, etc.).

Step #2: Tune the 5th fret harmonic on the low E string to the 7th fret harmonic on the A string.

Step #3: Tune the 7th fret harmonic on the D string to the 5th fret harmonic on the A string.

Step #4: Tune the 7th fret harmonic on the G string to the 5th fret harmonic on the D string.

Step #5: Tune the open B string to the 7th fret harmonic on the low E string.

Step #6: Tune the open high E string to the 7th fret harmonic on the A string.
