

AI Innovation Challenge

Building AI-powered Early Warning System for Extreme Weather Conditions in Tanzania

CERTIFICATE OF
ACHIEVEMENT

This certificate is presented to

Md Riadul Islam

Junior ML Engineer

Project Impact:

The team developed an AI-powered early warning system for predicting extreme weather in Tanzania, achieving accurate temperature and wind speed forecasts to enhance disaster preparedness and response.

Omdena has confirmed the participation of this individual in the program. Confirm program completion at confirm.omdena.com/INg2dbd
