

Marie Josée Malzone
Soul Painting Artist
Calgary, Alberta Canada

At the age of 21, I received my diploma in Graphic Arts. For the ten following years I followed this venue, got married, and travelled to many countries. I had the privilege to live in Brussels, Istanbul, Switzerland and visit France, Germany, Austria, Italy, Greece, Luxembourg, Maldives etc. It was a beautiful time in my life, but at the same time I felt that something was missing ...like I was not following my real dreams. At this point, I decided to listen to my intuition and this brought me to discover a brand new, joyful, and peaceful world ... a world within that we are all entitled too and deserve.

I am now a full time Soul Painting Artist (hand painting, oil, mixed media) and I incorporate my meditation practices learnt from UE (Universal Energy) schooling. I am presently hosting and coaching Universal Energy courses worldwide with the inclusion of hand painting arts and techniques. This is a process that helps the growth of oneself and particularly aids in facing our shadows and light.

The paintings created are generated on the spot with no previous planning's. It was a process in which I had to really work hard on as it meant that I had to "let go" of all that I had known. When you have no idea where to start, what colors to use or what will come about, it can be a daunting feeling. Though now, with time and practice, it's quite liberating with a sense of excitement as to know what will present itself in the end. With this, I show this sense of liberation through all my paintings. With so much chaos and mistrust in the world, I enjoy exposing what *can* be for those who feel what *can't* possibly be.

Once I surpassed my fears, I came to appreciate even more the beauty and structure of everything around us and within us. I recognized how much power (love) we possess in our lives. Every thought, every motion, leads us on different paths...how we are capable to comprehend the wanted and unwanted results we bring forth to ourselves and others.

I am proud to say that I have a great support team of family, friends, guides and a rich abundance of nature around me. They are always helping me improve myself and develop skills that, in turn, I can provide and share with you, and so you may grow and improve yourselves too.

When you realize there is no lacking, the whole world belongs to you.
– Lau Tzu

MJMALZONE

Oil & Mixed Media Artist
