

F-SS-OZ-B-101 Faucet

F-SS-OZ-B-PU Pull-Out Stream

OZONE IS MOTHER NATURE'S ANTI-MICROBIAL DISINFECTANT

Protect & Safeguard Your Home with an Aqualogic by LENOVA® Faucet

Ozone (O₃) is an antibacterial agent that is very effective at oxidizing and destroying organic and other compounds on equipment and surfaces. The Aqualogic by LENOVA® faucet features a small, thin ozone generator that uses regular house current to economically and naturally produce this strong oxidant. When the ozone water comes into contact with micro-organisms it oxidizes them. Ozone is approved by the FDA

as an additive to kill foodborne pathogens and leaves no toxic residue on treated surfaces providing a natural, safe, and inexpensive anti-microbial solution for all kitchens. Chemical cleaners cannot match its effectiveness.

The Aqualogic by LENOVA® brings a new standard to kitchen cleaning.

Safe Healthy Food

Optimize Freshness

Disinfect Utensils

Neutralize Pesticides

Washed with Ozonized Water

Washed with Regular Water

THE BENEFITS OF AN AQUALOGIC BY LENOVA® FAUCET ARE EXTRAORDINARY!

Simply rinsing fruits and vegetables with ozone water will improve shelf life, remove odors and increase the level of protection from food born illnesses. Ozone treated water is the easiest and most economical way to assure that your kitchen is germ free and the food being prepared is absolutely safe for consumption.

- Ozone is 100 times stronger than Chlorine and kills bacteria 3100 times faster.
- Ozone kills ALL common Food Pathogens: E-coli, Listeria, Shigella, Salmonella, Norovirus and Legionella; and removes pesticides.
- Ozone can eliminate the use of hot water and conventional sanitizers.
- Ozone is chemical free; it produces no toxic by-products and leaves no residues.
- Aqualogic by LENOVA® is UPC certified and is the only ozone faucet that is tested and certified by the FDA on the market in the US.

The **AQUALOGIC OZONE FAUCET LINE** is the first and only faucet to be a conventional hot/cold faucet and a green, ecologically safe way to clean food and hands and any other water safe surface without any chemicals or chemical residue. The faucet features a small, thin ozone generator that uses regular house current to economically and naturally produce ozone water. The **AQUALOGIC** line is simply as elegant in design as it is extraordinary in function.

This powerhouse faucet hides its extreme cleaning strength in a sleek form with sophisticated curves and modern style.
