# Value Adds

## Process driven approach

We follow battle-tested, unique processes for everything that we do, ensuring high-quality, efficient, and debt-free delivery.

## Truly global

Our longstanding experience in working with start-ups to big brands in multi-language, multi-cultural and multi-time zones globally makes us truly global.

## Digital acceleration with agile mindset

Our agile engineering practices will bring software craftsmanship, quality, and consistency to the table, all in a flexible state to guarantee ever-changing requirements.

# Pricing and Deployment models

One size does not fit all. Every customer is unique, every solution is custom made. Total flexible and truly agile.

## Pricing Models

- 01 Time & Material (T&M)
- 02 Fixed Price Contracts
- 03 Custom Contracts

## Deployment Models

- 01 Offshore
- 02 Nearshore
- 03 Onsite

# +300

# Global Presence

# Testimonials

**Jeremy Foster**  
Founder & CEO

Data Template has been a true partner. They interface fluidly with our product team, communicate clearly, and most importantly, deliver a quality product on time and under budget.

*Calque Inc.,  
Austin, USA*

**Pawan Uberoy**  
VP Engineering

I have worked with Data Template and Anil for over several years and across several companies. Data template is very versatile and honest. We worked together on products ranging from 5G embedded controllers to Satellite communications and SAAS. They have all around skills to work on everything from mobile apps to complex embedded real-time software. The management is very open and friendly taking feedback very seriously

*ViaSat Inc,  
San Jose, USA*

**Dori Daganhardt**  
Senior Leader, Product Management

Data Template has been a key partner for ClosingCorp, now a division of Corelogic. The team of developers and data analysts assigned to us have contributed significantly to our strategic objectives. Their deep understanding of our industry have allowed the Data Template team to go above and beyond traditional development staff augmentation. The team has offered technical design recommendations and data insights that continue to allow us to achieve our business objectives.

highly recommend Data Template.

*Corelogic Inc  
Los Angeles, USA*

**Deo Massawe**  
Chief Technology Officer

BKTECHHOUSE has been using Data Template technology services to help us with our digital transformation journey. We are very pleased with the professionalism of the management team, project management, and various engineering expertise. We are looking forward to our continuing partnership and I highly recommend their services. Thank you for being a great partner.

*Bank of Kigali TechHouse  
Kigali, Rwanda.*

# Testimonials

**Siddharth Vajirkar**  
Director of Software

Data Template is sincerely committed to customer's success. Thank you for your contribution in our success.

*Securiti Inc*  
*San Jose, USA*

**Kamel Boulos**  
Chief Technology Officer

The Data Template team is a highly collaborative and results driven group. They did an outstanding job integrating with our onsite team and developing in-depth knowledge about our business. They worked hard to meet our aggressive timelines and ensure they delivered high quality products. I value their partnership very much and grateful to the entire team for helping us successfully execute our IT strategy.

*Strong Home*  
*Irvine, USA*

**Brian Nkuruh**  
Country Director

CRG engaged with Data Template for the development and management for our web & USSD solutions. Our experience of Data Template has been extremely positive. They managed to take over our USSD suite management from a tricky previous supplier with minimal knowledge transfer or handover. The flexibility that Data Template offers is critical to an organization like ours. Our working hours are unique. The dedication and flexibility Data Template demonstrates is core build in their DNA and hence it made it extremely pleasurable and easy to work with the team. Not to mention the vast and in-depth technical knowledge they possess is extremely valuable.

*Cheza Rwanda Games*  
*Kigali, Rwanda*

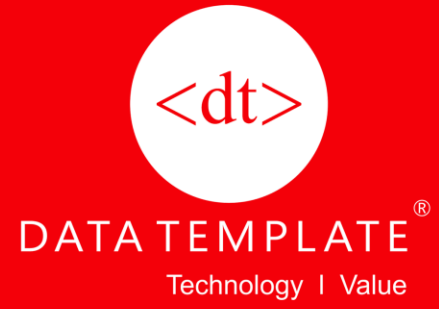

**Barbara O'Connell**  
Chief Executive Officer

Challenges that were initially thought to not be feasible to achieve on the application, Data Template's team was able to research and come up with a very impressive solution. Data Template has made it clear to us that they are committed to the success of our application and continue to show their dedication to this day.

*Enovasis*  
*Detroit, USA*
