Retired Athlete Business Transition & Economic Empowerment Program

A.Global.Pathway.for.Former.Athletes.to.Build.Their.Next.Chapter

1. Executive Overview

The career of an athlete is powerful but often limited by time, injury, relevance, competition, or the natural evolution of life. Yet the characteristics that define athletic success — discipline?leadership?resilience?teamwork?and.the.ability.to.perform.under.pressure — are the same qualities required to succeed in business.

Strategic Partner Group (SPG) has created the **Retired Athlete Transition Program**, designed specifically for athletes who have left the sports world and are now ready to build wealth, develop businesses, expand their networks, or enter new industries.

Our mission is simple:

To help retired athletes transition from performance excellence to business excellence — globally.

2. Why Athletes Are Perfect for SPG
