

Meet Our Team – Christopher Condon

iByond Founder, Chairman, CEO & Investor
Global Digital Ecosystem | Intelligent Interoperability | Ai &
Quantum Transformation | Mini Mesh Ai Enhanced Data
Centers | Smart Cities to future Technopolis
SPG Strategic Advisor

- **Pioneered the world’s first “Platform of Platforms”**, redefining how complex systems integrate across AI, data, and infrastructure ecosystems.
- **Achieved seamless interoperability across legacy and advanced technologies**, unifying AI, cloud, edge, quantum, and biological systems into a single operational framework.
- **Enabled sovereign data control for nations and enterprises**, ensuring security, compliance, and ownership in an increasingly data-driven global economy.
- **Transformed fragmented infrastructures into a unified “system-of-systems” architecture**, dramatically improving operational efficiency and decision-making speed.
- **Delivered real-time, AI-driven intelligence at scale**, empowering governments and enterprises with actionable insights and predictive capabilities.
- **Connected multi-cloud, partner, and edge environments into a cohesive digital fabric**, eliminating silos and accelerating collaboration across ecosystems.
- **Drove measurable outcomes across public and private sectors**, including enhanced performance, reduced costs, and scalable digital transformation.
- **Positioned as a foundational platform for next-generation innovation**, supporting emerging technologies such as quantum computing, advanced AI, and bio-integrated systems.
