

NEO AI

One assistant. An entire AI team.

Talk naturally. NEO selects the models,
coordinates agents and checks the work.

ONE CONVERSATION. ALL THAT POWER.

THE PROBLEM

AI is powerful. Using it is hard.

- 01 **Too many subscriptions**
Separate tools. Separate bills.
- 02 **Too much prompt trial and error**
You keep rewriting instead of working.
- 03 **Too many models to choose from**
You become the AI operator.

Your goal gets lost in the tools.

THE SOLUTION

One AI assistant for all your needs

Tell NEO your goal. It asks, plans and works with you through completion.

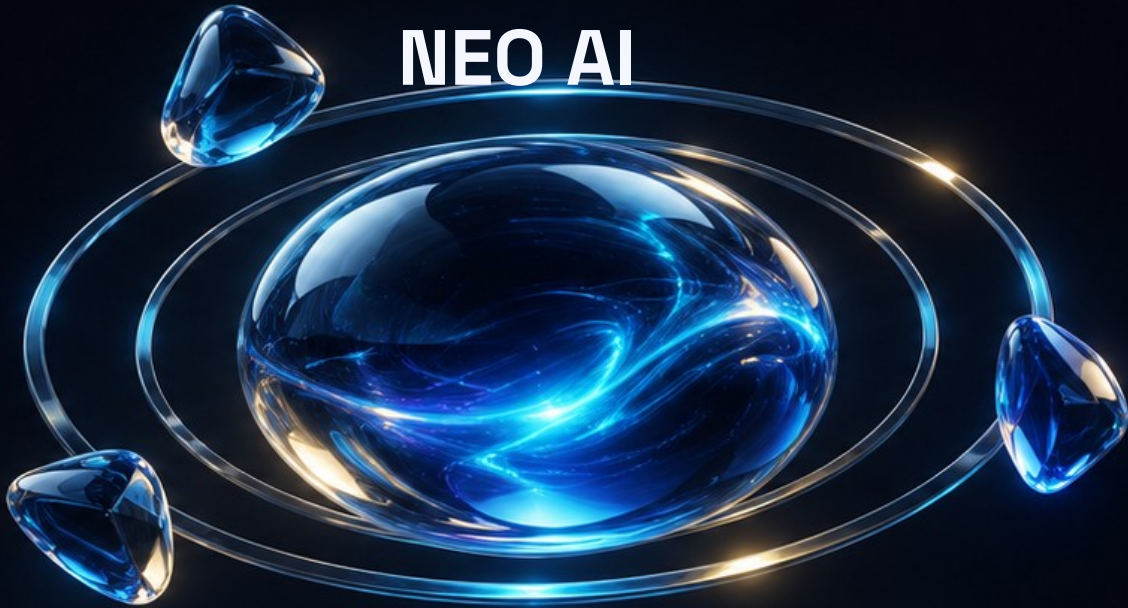

ILLUSTRATIVE JOURNEY

YOU

Help me prepare an investor pitch.

NEO

Who is the audience?
What should they remember?

WORK YOU CAN USE

An investor pitch deck

Story. Slides. Revisions.
Reviewed with you.

MODELS AGENTS TOOLS

ONE NEO ACCOUNT

No subscription juggling

Supported models and usage depend on the NEO plan. Journey shown is illustrative.

NATURAL LANGUAGE

No prompt training

SMART MODEL SELECTION

No model guesswork

MARKET OPPORTUNITY & TRACTION

A global audience. Institutional traction.

WHO NEO IS BUILT FOR

Entrepreneurs

Build the business

Students

Learn and create

Professionals

Deliver the work

MADAGASCAR

SIGNED LOI/MoU

Government & central-bank level

Ministry digitalisation on NEO AI infrastructure

Exploratory, technical-only engagement.

3

SIGNED PAID PILOTS

Hospitality & Nightlife

35+ fine-dining restaurants & nightclubs
3 continents / ~10 countries

Micro-Credit

8 countries in Latin America

Family office

FX / options trading

USD 4B AUM

THE PRODUCT

Talk to NEO. Watch the work happen.

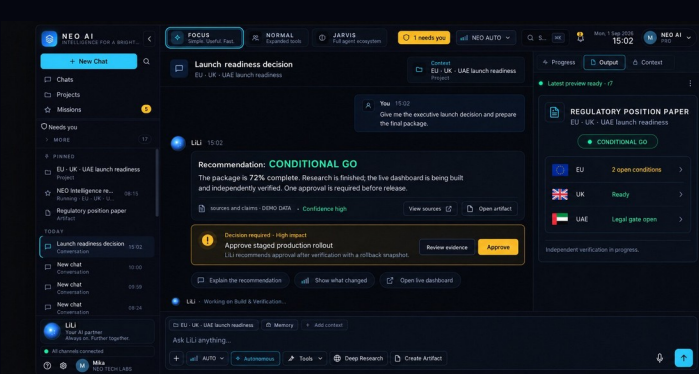

One mission. Three views. You choose how much detail to see.

FOCUS

JARVIS

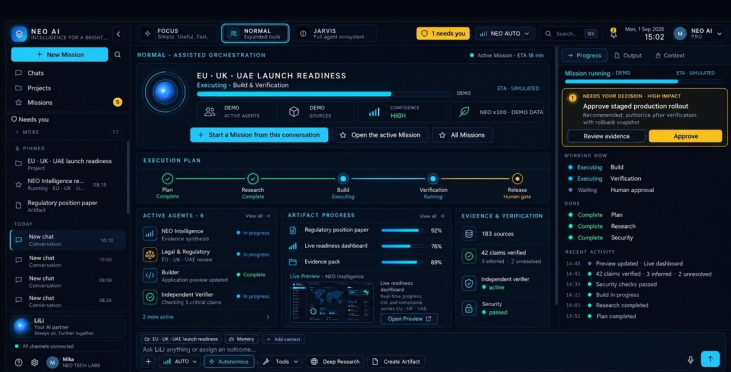

The full AI team in action

The conversation

NORMAL

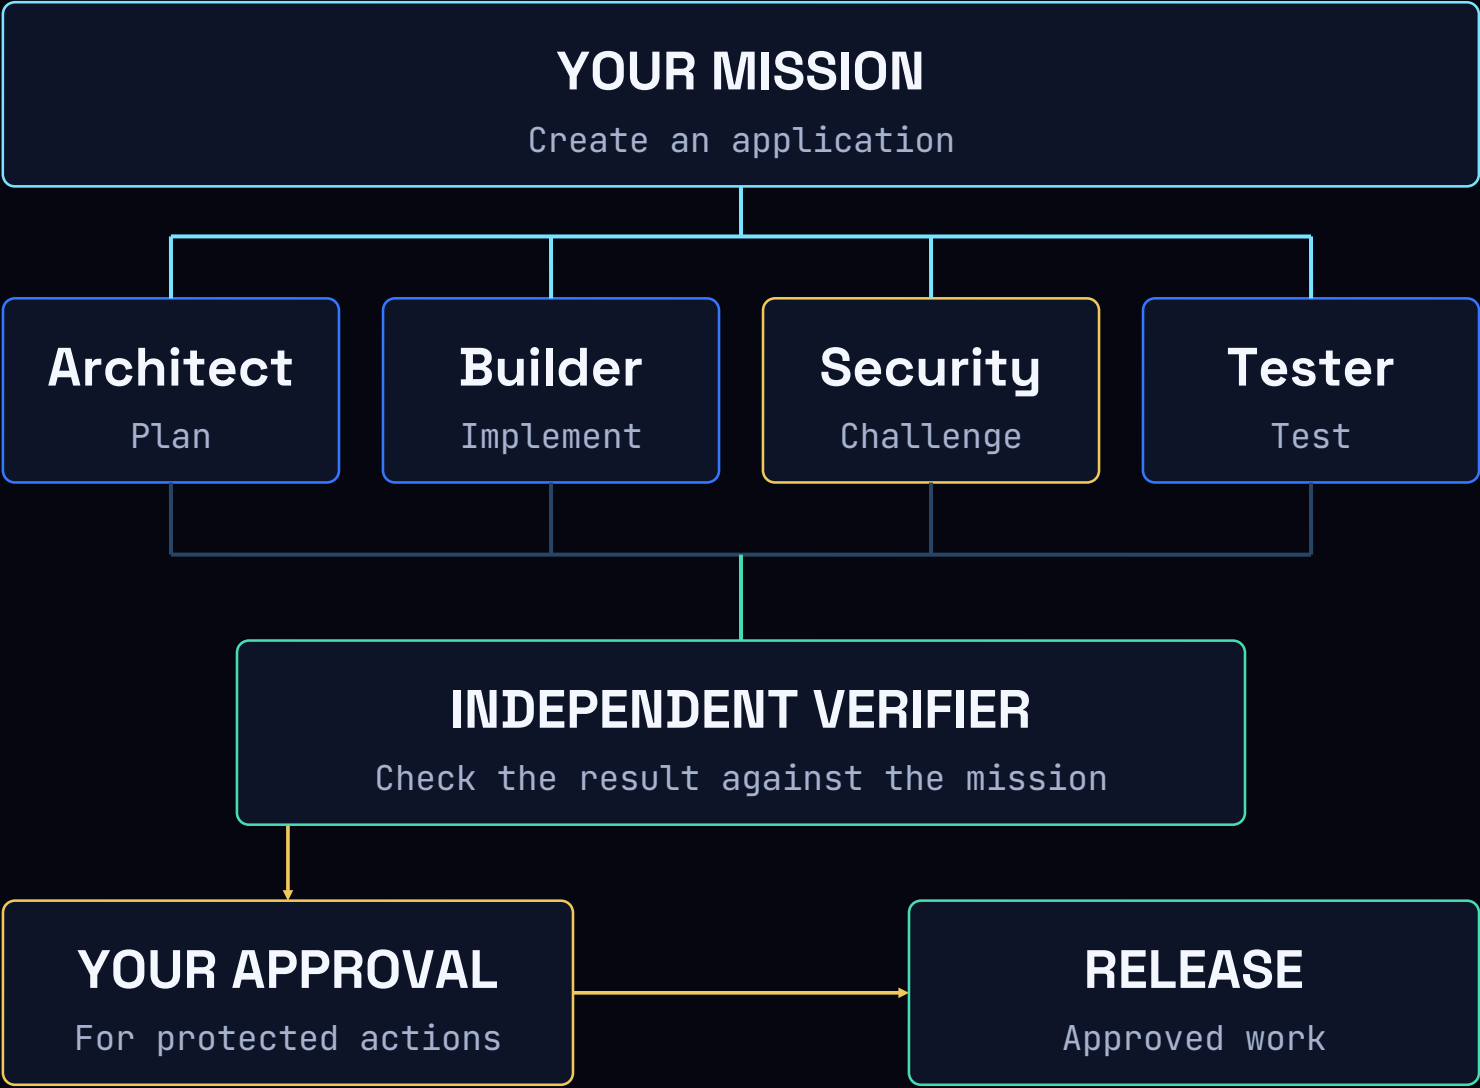

The plan and progress

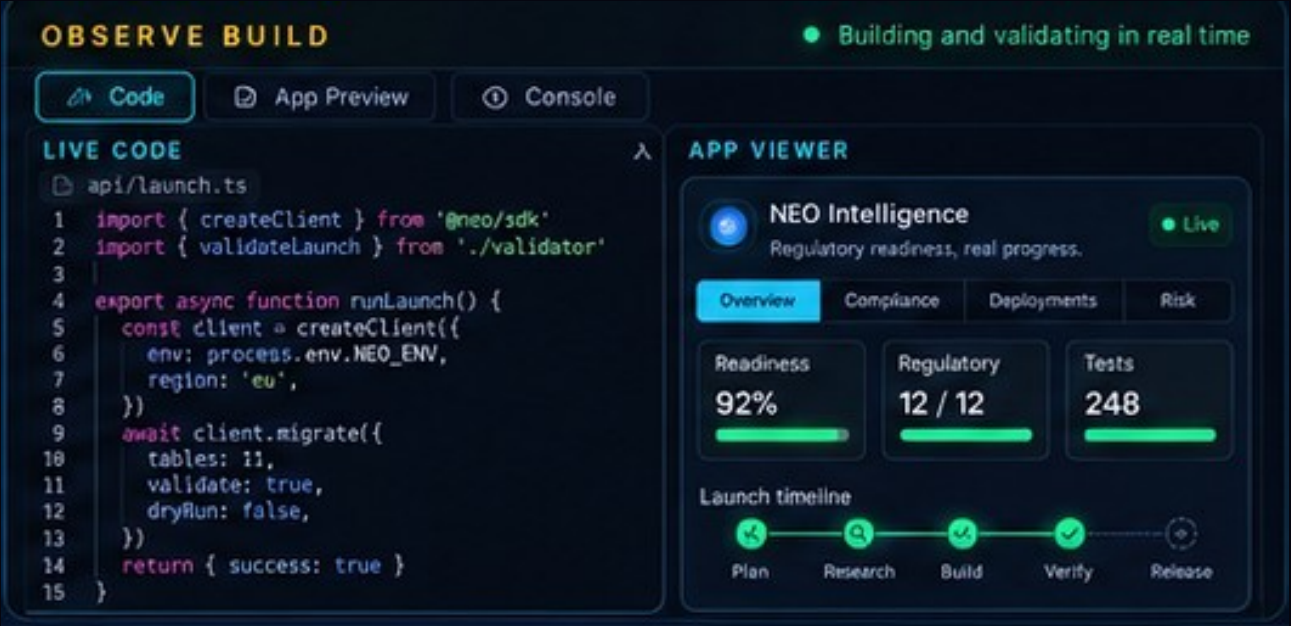

THE TECHNOLOGY

An AI team that plans, builds and checks

Specialists work in parallel. Independent verification challenges the result.

OBSERVE BUILD

See the work as it takes shape

Code, tests and a running preview.
You approve protected release actions.

THE VISION

More intelligence from every unit of compute

x100

LONG-TERM R&D OBJECTIVE

More useful, verified intelligence.
Less unnecessary computation.

Reuse verified work. Route by task.
Escalate when needed.

NEO ROUTER

Quality + policy first

Device / edge

With permission

NEO / private

Controlled resources

Frontier APIs

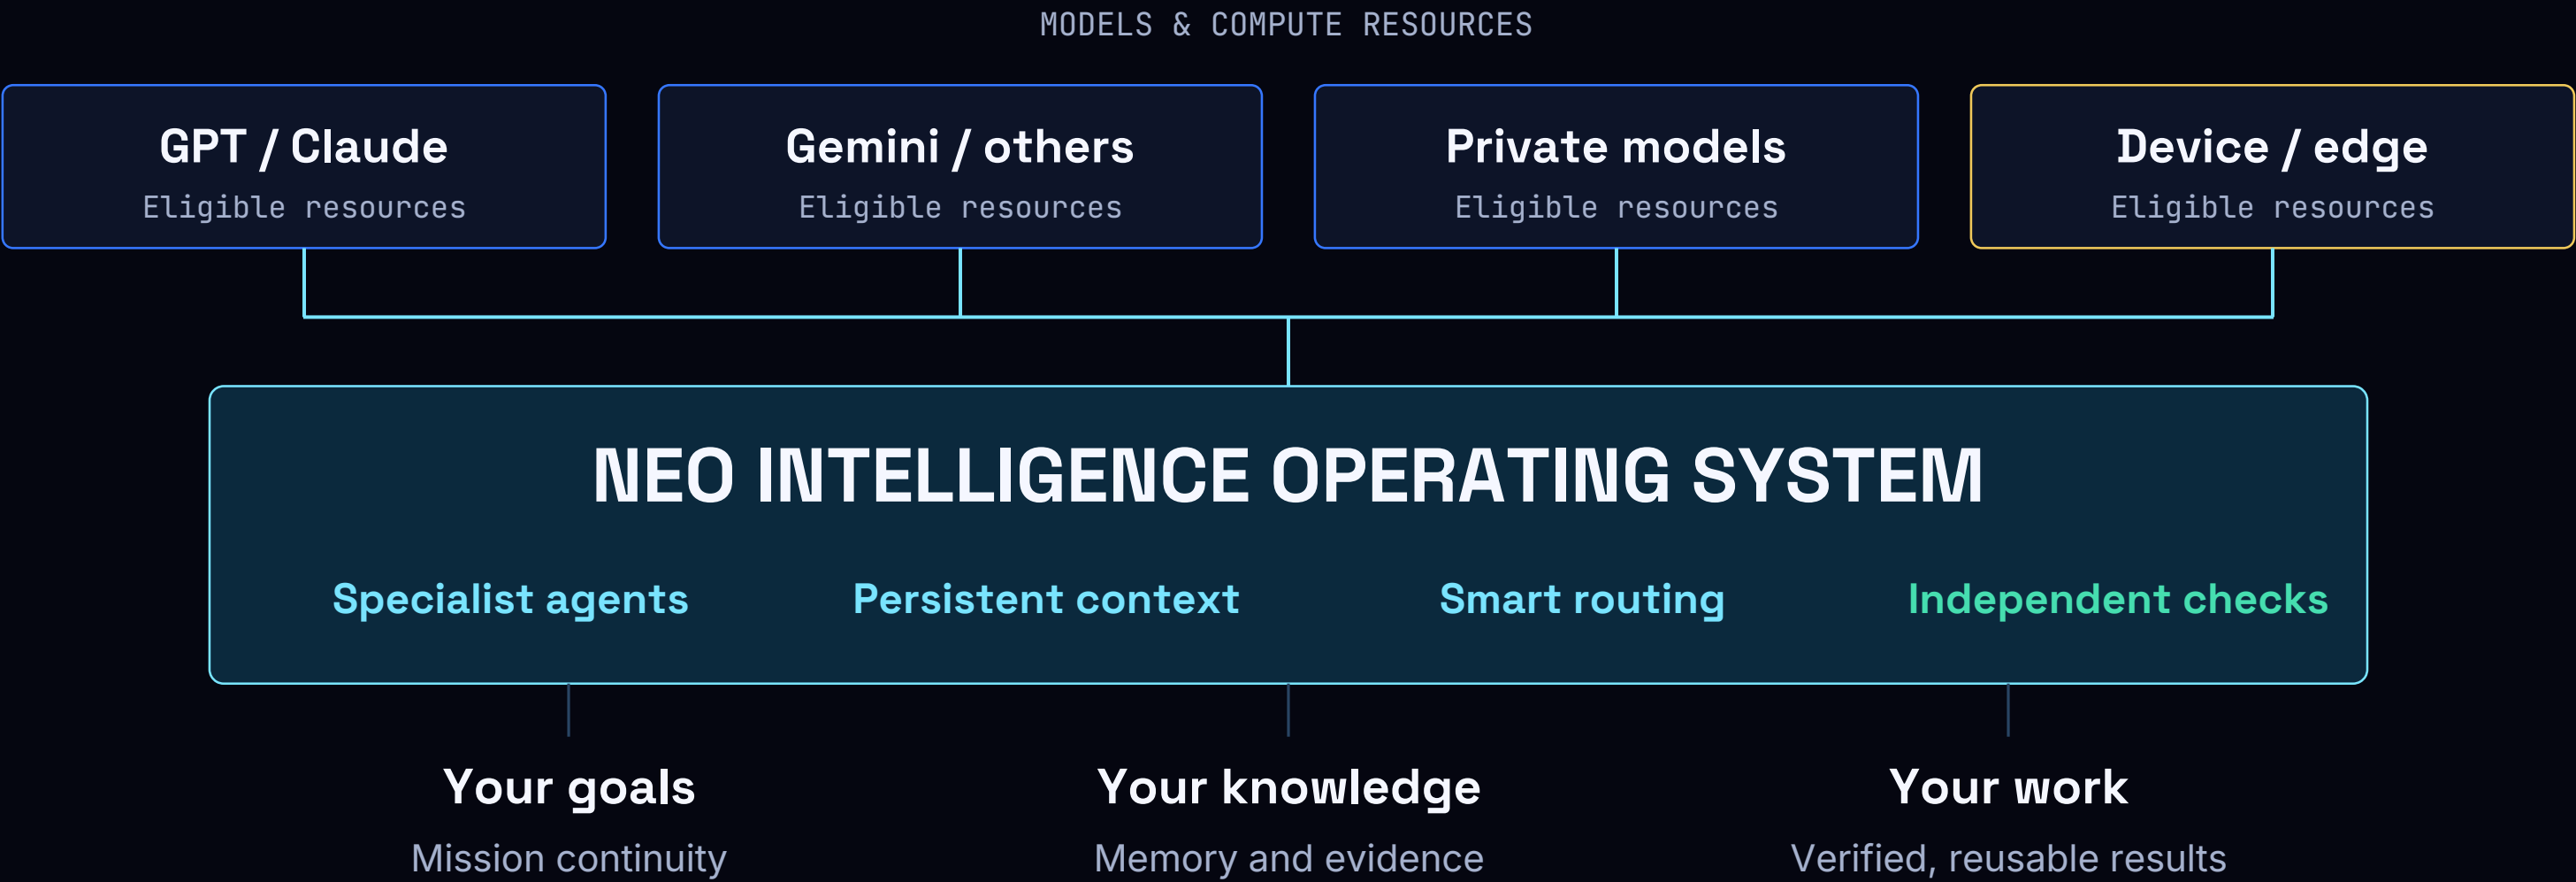

Selective escalation

R&D target, not a measured x100 result or guaranteed saving. Local execution requires supported devices and permission.

COMPETITIVE EDGE

The value sits above the models

NEO brings model choice, context, execution and verification into one system.

Designed integrations and capabilities. Named providers are not represented as partners. Performance remains to be validated.

BUSINESS MODEL

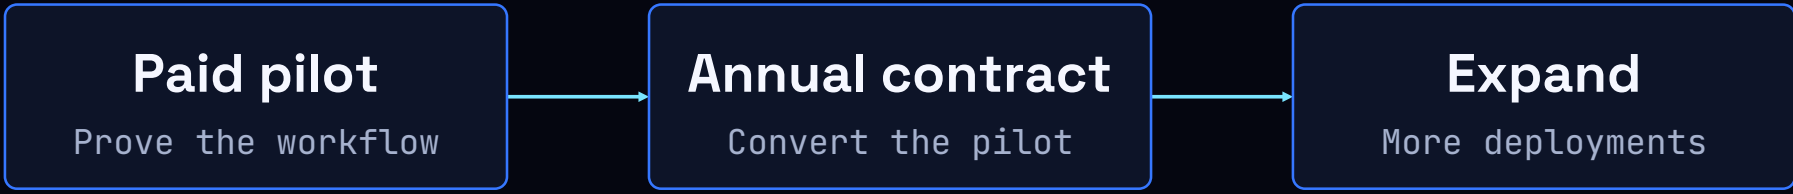

One platform. Two revenue engines

INDIVIDUALS & TEAMS

One account. A plan that grows with use.

ENTERPRISES

Industry workflows, private environments and integrations

ILLUSTRATIVE ANNUAL ENTERPRISE CONTRACT

USD

50k-200k+

per year

After pilot conversion.
Subject to scope and conversion.
Not booked ARR.

NEO Credits are an internal commercial usage unit. The source materials do not establish finalized retail pricing.

THE ASK

An AI team for everyone

EUR 2M

RAISING VIA SAFE

To deliver the platform, convert pilots
and prepare enterprise rollout.

Mickael Mosse

Group CEO & Founder, My NEO Group
