

DocVoice & eNotary – Advisor & Guest Demo Overview

Live Demo: January 14, 2026

Time: 10:00 AM ET

SPG Advisors have been given the green light to invite a few qualified contacts. The session will show how organizations can streamline operations, reduce friction, and modernize workflows—while also opening up new business opportunities.

DocVoice Platform

DocVoice is a next-generation healthcare communication and remote care platform that improves patient engagement, supports chronic care management, telehealth, and hospital-at-home programs, and helps reduce avoidable hospital readmissions through real-time data and secure communication tools.

- Best Client Profile:
 - Healthcare providers and clinics
 - Hospital systems and physician groups
 - Organizations focused on chronic care, telehealth, or patient monitoring

eNotary Platform

eNotary delivers fast, secure, and compliant remote online notarization—available anytime, anywhere. It eliminates in-person appointments while accelerating document workflows for businesses and professionals.

- Best Client Profile:
 - Real estate professionals and title companies
 - Legal and financial services firms
 - Businesses requiring secure, on-demand document notarization

Advisor Opportunity

Advisors may introduce these platforms to their networks, facilitate introductions, and earn commissions on successful engagements.

Please confirm attendance to receive the calendar invite and presentation link.
