

# Meet Our Team – Nirmal PV

## Tech Park, Restaurant, and Hospitality Strategic Advisor

- **Pioneered Technology-Integrated Hospitality Platforms** by combining operational excellence with digital systems, enabling scalable, data-driven management across multi-location hospitality environments.
- **Architected High-Volume Operational Systems** supporting the delivery of **18,000+ meals daily**, leveraging process automation, logistics optimization, and workflow technologies to ensure consistency, efficiency, and cost control.
- **Led the Development of Early Tech Infrastructure Ecosystems**, playing a key role in building one of Bangalore's first **22-acre Technology Parks**, accelerating regional IT/ITES growth and enterprise adoption.
- **Built and Scaled IT/ITES Delivery Centers**, including software development hubs and BPO operations, implementing global service models, performance tracking systems, and client-centric digital workflows.
- **Driving Global Digital Expansion** as Director – European Operations & Global Sales at Datatemplate Infotech, leading **technology-enabled client acquisition, cross-border delivery, and enterprise solution positioning**.
- **Engineered Smart Hospitality Concepts** (including 1000+ seat venues and breweries) integrating POS systems, supply chain tech, customer analytics, and experience optimization tools to enhance profitability and guest engagement.
- **Structured Strategic Partnerships with Global Brands**, utilizing data insights, digital reporting frameworks, and performance analytics to negotiate and execute high-value management contracts.
- **Launched Multi-Sector Business Platforms** across hospitality, real estate, and services, embedding **technology-led transformation strategies, digital marketing ecosystems, and operational intelligence systems** to drive growth and scalability.
