

TRUPCR® NAAT Kit

The TRUPCR® NAAT Kit (RUO) is a qualitative Real-time PCR kit for the detection of Hepatitis B viral DNA, Hepatitis C viral RNA & Human Immunodeficiency type-1 viral RNA in human serum or plasma (EDTA).

The analytical sensitivity of the Kit meets WHO International Standards and consistently detects the presence of:

- HBV at the level of = 2.5 IU/ml
- HCV at the level of = 25 IU/ml
- HIV-1 at the level of = 100 IU/ml

Key Features:

- Rapid and accurate detection of HBV, HCV & HIV-1 infection
- Uses hot start technology for increased specificity and sensitivity
- Uses uracil DNA glycosylase (UDG) eliminating possible amplicon contamination
- Meets WHO standards.
- Compatible with various Real time PCR instruments
- Internal Control included in the kit eliminating false negative results

Ordering information:

Cat. No.	Product	Contents
3B251	TRUPCR® NAAT Kit	48 Rxns
3B252	TRUPCR® NAATKit	96 Rxns
