Individual Flexible Learning Programs

Helping engage all students in learning

What we offer:

A 1:1 individualised program working with a student to develop their personal goals. Through participation in outdoor activities, the student is guided to work on their goals that have been developed with input from the student, school staff and Barwon Nature Adventures staff.

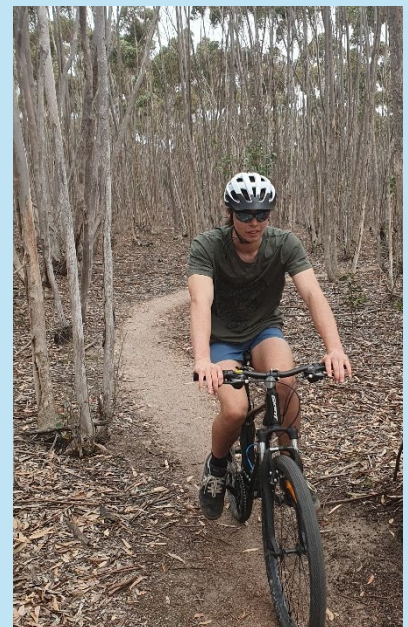

Barwon Nature Adventures prides itself on our regular communication with schools which is crucial to the ongoing success of our programs. Through this communication, the focus of each program can be tailored and adapted to helping the student with their personal and school goals. A progress report is completed for each student at the end of each term discussing their achievement.

Activities:

Programs are designed around student interest and are flexible in activity and location.

- ❖ Surfing / Bodyboarding
- ❖ Hiking
- ❖ Swimming
- ❖ Geocaching
- ❖ Environment exploration
- ❖ Kayaking
- ❖ Bike Riding
- ❖ Fishing
- ❖ Indoor rock climbing
- ❖ Conservation activities

Focus of Programs

- ❖ Positive interactions
- ❖ Building self-esteem
- ❖ Consistent engagement in program
- ❖ Developing new skills
- ❖ Achieving Personal Learning Goals
- ❖ Building strategies to engage positively at school

Proven benefits & success

Barwon Nature Adventures has been implementing these individual programs with schools since 2023 and have had many successes with students. This has included helping students achieve their goals and helping them engage more positively with school.

- ❖ Physical activity and being outside in nature are proven to be good for mental health and wellbeing
- ❖ Working 1:1 with BNA staff builds a strong relationship
- ❖ Students engage in building their own goals and giving their own feedback
- ❖ Students help create the program to cater for their interests and goals

Testimonials

“Barwon Nature Adventures has not only supported some of our most complex students but also provided outdoor experiences in our community that not many would”

“Individualised programs that keep young people with complex challenges engaged”
