

Chiloquin Fire & Rescue is currently well positioned to handle the community's pre-hospital emergency medical and trauma related needs including COVID-19. We are working in cooperation with Sky Lakes Medical Center, Klamath County Public Health, Klamath County Emergency Management, Oregon State Fire Marshal's Office, and mutual aid Fire & EMS agencies to meet the needs of our citizens.

For local up to date COVID-19 information, go to the Klamath County Department of Public Health's website at <http://www.klamathcounty.org/378/Public-Health>.

Call 211 or access the 211 website <http://www.211.org/services/covid19> if you have non-emergency needs.

Call 911 for life threatening illness & injury, to report fires, and for law enforcement needs.

CF&R encourages our community to stay informed, practice social isolation, and to follow local, state, and CDC guidelines to prevent the spread of COVID-19 and other communicable diseases.

Please help us help you, and be safe!
