EU Chemical Regulation REACH
SVHC (Candidate list of Substances of Very High Concern)

Dear Valued Customer:

Under REACH article 33(2), manufacturers have a responsibility to identify and communicate to customers whether “Substances of Very High Concern” (SVHC), are contained in their products at greater than 0.1 weight percent.

The European Chemicals Agency (ECHA) has published candidate lists for authorization of SVHC’s. As of the date of this letter, there are 247 substances listed as a SVHC.

Products provided, supplied, and applied by Nylok LLC, do not contain any SVHC above reportable quantities, with exception of Nylok’s Nyplas product. For specific SVHC content information, please see product Material Safety Data Sheet or contact Nylok LLC.
