### About our Company and Associates

Quality Business Systems (QBS) is a local sales and service company dedicated to providing optimal solutions for the Workspace and Material Storage/Retrieval needs of the businesses, and organizations in Ohio, Michigan, & Indiana.

#### QBS Specializes In:

- Storage and Retrieval Systems for Office, Backroom, & Warehousing/Manufacturing Environments
- Work Cells, Mailrooms, Shipping/Receiving Areas, Security/Command Centers, Workstations, and Customer Service Counter Design Systems
- Ergonomic Seating for both Office & Manufacturing Environments
- Records Retention / Archive Storage Center Services
- Engineered Workspace with a focus on Automated Storage & Retrieval Systems

QBS is a proud member of a nationwide network of 100+ systems consulting firms. We offer over 50 diverse manufacturer's offerings through a wide range of products and services. Our associates are factory trained in the application and service of the products and services we offer.

QBS Associates are prepared to assist you in determining your specific needs by evaluating space utilization, productivity and ergonomic conditions, as well as the overall economic impact of the proposed Storage & Retrieval Solution(s). We also help with the implementation of the selected system(s) and provide on-going service for the life of the solution.

QBS provides services for the office, storeroom, mailroom, warehouse, & manufacturing work cells via:

- Needs surveys
- Space layouts and design
- Workstation organization
- Records and materials control management
- Hardware/software selection, installation & support
- Service/repairs and preventative maintenance plans
- Conversion services

We invite you to give us a call to find out if we may be of service to you and your organization.
