

# INSTRUCTIONS FOR PATIO HEATER

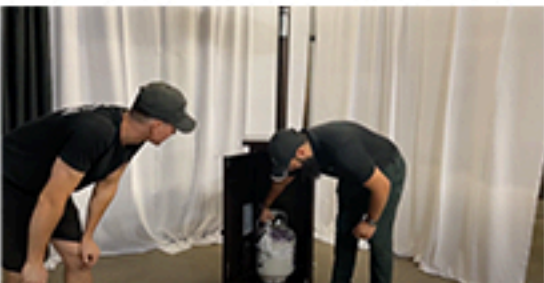

Roll and place the heater at your preferred position, lift off the top and remove the wing nuts + washers.

Place the lid on top and insert the screws.  
Re-apply the wing nuts and washers

(2 - person lift)  
Raise the heater, apply the safety bar underneath, and tighten the main screw.

Attach the propane and apply the safety belt.  
Press and turn temperature to high and press ignite.

Turn off the heater by turning the temperature knob to off.

Reassemble the heater for transportation by doing these steps backwards.

Store indoors to keep dry and out of harsh weather conditions while not using.
