HOSPITALITY & RETAIL CASE STUDY
Davilia Barber & Barista
Duncraig, Western Australia

16 m² Outdoor Seating Deck. No Concrete Footings. Removable & Reusable.

GRIDBASE Gen 2 panels, Davilia Barber & Barista, Duncraig WA.

16 m²
Connected platform area

4
2 m × 2 m panels

2–3 hours
To install, 2 people, sloping site

The Problem

Davilia Barber & Barista wanted outdoor seating for customers. The spot beside the shop was a sloping car bay, so it needed a level surface.

The Solution

4 GRIDBASE Gen 2 panels were placed over the car bay and levelled on adjustable supports. Matching WPC fascia finishes the edges. No concrete footings and no excavation.

The Result

A 16 m² outdoor seating deck, installed by 2 people in 2–3 hours. The fascia took another 30 minutes.

> *"Alex went above and beyond with helping me install the panels, it was obvious to see how proud he is about GRIDBASE and so he should be as it's a fantastic product!"*
