You never know when an unexpected illness or injury could leave you and your family with financial difficulties. Health insurance can help, but you can still have deductibles, co-payments and other out-of-pocket expenses. That's where voluntary benefits come in. Sometimes called supplemental insurance, voluntary benefits are designed to complement your health insurance and help provide extra financial protection.

Open enrollment has never been easier. You can enroll online at work or at the comfort of your own home.
