

# WELCOME TO ONPOINT AUTO CUSTOMS

Performance • Precision • Perfection

## How Communication Works

You will receive updates **every Tuesday and Friday**.

These updates include:

- Current status
- Next steps
- Parts ETAs
- Completion estimates
- Photos when applicable

## How Long Builds Take

Classic restorations, swaps, and custom work vary based on parts availability and fabrication needs. We set timelines honestly and transparently as the build progresses.

## Our Promise

- Clean, professional workmanship
- Aggressive attention to detail
- High-end materials and components
- Communication you can count on
- A final result made to OEM+ standards

## What Can Cause Delays

- Specialty part availability
- Fabrication complexity
- Machine shop wait times
- Scope changes
- Add-ons or customer requests

You will always be notified immediately if a delay occurs.

## Our Philosophy

“Build it the way it should have been designed.”  
This is the standard we hold every project to.
