Subject: Item 4 of March 25 letter to Representative Brigadier General Pendleton

Dear Ms. Vick:

I am working to ensure Smart Meter safety for North Carolinians and have been in discussions with Brigadier General Pendleton. I see from a March 25 letter, item 4, that you have provided him with research regarding the alleged health concerns related to smart meters. As the Brigadier General is exceedingly busy, I would greatly appreciate it if you could provide a copy of that same information to me at your earliest convenience.

My first letter requested I receive it before April 7 as that would have been most helpful. The information can be emailed to me at andrew@raleighes.info.

Because the Smart Meter issue is an ongoing concern of mine and many Carolinians, it would be worthwhile to meet at some point. Perhaps we can schedule a meeting once I receive and review the information that you provided to the Brigadier General.

If there are any concerns with my request, please contact me at andrew@raleighes.info.

Thank you for your time and assistance.

Sincerely,

Andrew McAfee
