5-Hour CODING Experience (Video, Tour, Creative Coding Class & Lunch Break)

This tour includes a video introduction of the history of Garner Holt Productions, Inc. as well as a guided tour of the animatronics production facility and an animatronic show "Reflections of the Face of Lincoln". This option also includes our Creative Coding Class where students use servo motors, arduino boards, and a variety of creative materials to learn to code to make a little mechanical magic of their own! Our Creative Coding Class is inspired by the work that happens in each of the GHP departments. We customize the coding activities to the age/grade of your students. These learning activities are designed to be completed in teams of 3-4 and foster the use of 21st Century Skills. A location and time will also be allocated for students to eat lunch.

Cost: \$52.00 per student
Minimum: 20 students
Maximum: 75 students
