A FIVE STEP PROCESS TO HEAL CONFLICT

WHAT IS CONFLICT RESOLUTION?

Our first preventative strategy [for school shootings] should be to make sure kids are respected, that they feel connected. That means building kids' skills around conflict resolution, stress management and empathy for their fellow classmates – skills that can help reduce all sorts of unwanted behaviors, including fighting and bullying.

Using the tenets of anchor based, social-emotional learning we have devised a musical film to entertain and introduce the ideas.

This 'gateway', hooking young people through a form they naturally gravitate to, is further supported by a list of the proven and freely available resources for a wide range of curriculum that explore and practice those skills.
