

# CREATE PROGRAMS Inc.

I've always been the artsy-craftsy type, and I truly believe everyone has a creative spark inside them. Crafting is fun because it's about expression, not perfection. It's handmade, full of love, and always unique. ✨

My projects are current, fun, exciting and perfect for Adults, Teens, and Kids! With every workshop, I provide all the materials and resources needed so everyone can explore, create, and learn. For teens especially, I focus on building dignity, confidence, and a sense of connection to their community.

Right now, I offer over 100 programs and partner with more than 60 libraries across Nassau & Suffolk Long Island. I'd love to bring my fun, hands-on workshops to your location too!

Check out my website, [www.iCreatePrograms.com](http://www.iCreatePrograms.com), and Instagram [@CreatePrograms](https://www.instagram.com/CreatePrograms) to see photos of programs that have been a big hit.

Also, if you have a special request for a program, I can help with that too! I'd be happy to chat and share more about what I offer.

Reach out anytime by phone, email, or through the website. Hope to hear from you soon!

LISA  
COLÓN
