

To: All vaccinators and local health departments

From: California Department of Public Health

Date: February 12, 2021

We thank you for your tremendous work to vaccinate Californians.

This bulletin is meant to update you on current guidance for distributing vaccine.

Vaccine Prioritization (as vaccine supply allows)

- 1) Currently vaccines may be distributed to populations identified in Phase 1A and Phase 1B, Tier 1.

- 2) Beginning March 15, healthcare providers may use their clinical judgement to vaccinate individuals age 16-64 who are deemed to be at the very highest risk for morbidity and mortality from COVID-19 as a direct result of one or more of the following severe health conditions:
 - **Cancer**, current with debilitated or immunocompromised state
 - **Chronic kidney disease**, stage 4 or above
 - **Chronic pulmonary disease**, oxygen dependent
 - **Down syndrome**
 - **Immunocompromised state** (weakened immune system) from **solid organ transplant**
 - **Pregnancy**
 - **Sickle cell disease**
 - **Heart conditions**, such as heart failure, coronary artery disease, or cardiomyopathies (excludes hypertension)
 - **Severe obesity** (Body Mass Index ≥ 40 kg/m²)
 - **Type 2 diabetes mellitus** with hemoglobin A1c level greater than 7.5%

OR

If as a result of a developmental or other severe high-risk disability one or more of the following applies:

- The individual is likely to develop severe life-threatening illness or death from COVID-19 infection
- Acquiring COVID-19 will limit the individual's ability to receive ongoing care or services vital to their well-being and survival
- Providing adequate and timely COVID care will be particularly challenging as a result of the individual's disability

The list of eligible conditions is subject to change as additional scientific evidence is published and as CDPH obtains and analyzes additional state-specific data.

This provider bulletin is meant to clarify and update California's vaccine administration prioritization policy. It may be updated periodically to aid all vaccinators as the state moves through its efforts to vaccinate all eligible populations and as supplies increase over time.

Thank you for your partnership and work to protect Californian's during the pandemic.
