WHAT IS A CRYPTO WALLET?

A crypto wallet is where your cryptocurrency is stored. Think of your crypto wallet as a debit card. Just like a debit card comes with a pin to access your funds, your crypto wallet has a seed/recovery phrase to access your crypto.

Hot or cold wallets, which one is right for you?

Hot wallets are connected to the internet. Within these wallets you have software, paper, and hardware.

Cold wallets are not connected to the internet. They are a lot less receptive to hacks. However, you should always be aware of scams.

Want to learn more about crypto wallets?

Come to our next meetup, we will be hosting Paul Puey from Edge.

Want help selecting the right wallet for you?

Check out our upcoming workshop to get individualized hands on help.

LET'S GET EDGE-UCATED

Come join us at our next meet-up where we will be hosting Paul Puey, CEO of Edge.

One app for all your cryptocurrency needs! Edge's goal is to partner with top blockchain services around the world so users can maximize their assets. In-app buy/sell, mobile top-ups, gift cards, and crypto to crypto exchange, all inside Edge. Come hear more about upcoming Edge announcements.
