

CRYPTOHEADZ

CRYPTOHEADZ

NEWSLETTER

September 2022

HAVE YOU INVESTED IN CRYPTO AND GOT RUGGED?

If you have been rugged, know that there are things you can do to prevent this from happening again.

Have you heard of a pump and dump scheme?

This is when someone owns a security and they convince others to buy the security hoping that the demand will drive the price up. The idea is that the person(s) hyping that security is going to sell when the price is artificially high before the whole thing collapses.

How can you stay protected yourself?

- » Always do your own research.
- » Stay on top of project announcements.
- » Review the transactions.
- » Find out who is behind a project? who are they? Where are they located? Do they have multiple projects? What is their track record?
- » Stay connected with the CryptoHeadz, we are always working on further education.

Come to our next meetup to learn from an expert. Chris Groshong, will be teaching us how to protect our assets at our next event.

CRYPTO FORENSICS

Come join us at our next meet-up where we will be hosting Chris Groshong, President of CoinStructive.

Chris Groshong is a Certified Fraud Investigator who focuses on helping victims of cryptocurrency frauds and scams and is the Chief Compliance Officer for several Bitcoin ATM operators.
