

Please join the Greene Acres community on May 28th at noon for a virtual seminar to learn about GAPOA's water quality strategy and hear from water quality experts associated with SePRO lab about the health of our lake.

Presenters:

Derek Arnold, Chair, GAPOA Environmental Committee.

An owner at Greene Acres Lake for 9 years, Derek has spent over 30 years in the pharmaceutical industry addressing issues of access and affordability for life saving / life changing medicines. He graduated with High Distinction from Babson College with a BS in Business. Derek has three children, grandchildren and six Labrador retrievers all of whom love swimming in Greene Acres Lake. Derek and his wife Cristina also have a farm in Rochelle where they Garden and grow Hops commercially.

Dr. Rory Roten, Market Development Leader, SePRO Corporation. Rory started his aquatics career in 2006 and has extensive experience in the applied sciences. As such, he is passionate about the stewardship of all pesticides and the environments in which they are used. Rory received his B.S (2007, Ag. Ext.) and M.S. (2011, Crop Science) from North Carolina State University; he then went to work in New Zealand where he also acquired is Ph.D. in Plant Protection. In 2017, Rory returned to the US and began working for SePRO as a Technical Specialist in Florida (2017-2021) and currently oversees the Mid-Atlantic territory from his home base in Staunton, VA.

Dr. West Bishop is the Algae Scientist and Water Quality Research Manager at SePRO Corporation and focused on developing and implementing solutions for nuisance algal and cyanobacterial management, including proactive nutrient mitigation. He is a Certified Lake Manager and collaboratively works to solve algae and water quality issues in diverse systems. Dr. Bishop has been with SePRO for over 14 years. He provides technical support to EutroPHIX, a division of SePRO focused on nutrient mitigation and water quality restoration. He has numerous publications and patents and is also the Host of Algae Corner®, an informational video series on all things algae.
