

GAPOA Discount Septic Cleaning available through Rooter-Man of Virginia

Septic tank cleaning is an important action each household can take to help ensure bacteria / e coli does not seep from our septic systems into our Lake. Tank pumping is recommended every 3 – 5 years and the Board has secured a bulk discounted rate from Rooter-Man Septic of \$340.00 per 1000 gallon tank.

Several community members have already taken advantage of this discount as well as the Beach Bath house Septic Tank.

Please do your part to help keep our Lake clean by ensuring your tank is pumped every 3 – 5 years.

Please reach out to Derek Arnold, Chair, Environmental and Lake Quality at 203-313-3905 or DerekArnold73@gmail.com for scheduling. Rooter- Man will confirm pricing before pumping and payment.
