

## COSMETIC/ESTHETIC SERVICES

### Glycolic Acid Peel (Alpha Hydroxy Acid)

A Glycolic Acid Peel is a procedure that chemically exfoliates, removing damaged cells from the top layer of skin. It enhances natural skin complexion with visible smoothing effects for a softer, radiant glow and healthier-looking skin.

- Helps diminish fine lines
- Diminishes superficial acne scarring
- Improves dry, flaky, rough and leathery textured skin
- Reduces skin discolouration (sun damage, age spots, and melasma)
- Decreases the appearance of large pores
- Improves acne prone skin problems
- Evens skin tones

## COSMETIC MEDICAL SERVICES

### Fillers

Injectable fillers are injected into the skin to help reduce the appearance of wrinkles and folds; restoring a smoother appearance for:

- Volume loss
- Lip augmentation
- Hand rejuvenation
- Horizontal neck lines

Please inquire for pricing

### Botox®

Botox®, a neuromodulator (muscle relaxant) is comprised of a purified protein which blocks the transmission of nerve impulses to the injected muscle to limit muscle activity. During treatment, very small doses of Botox® Cosmetic are administered to targeted facial muscles via a fine needle. The treatment is about 10 minutes, and no recovery time is required. You will see an improvement within a few days, and your results will last 3 to 4 months.

Botox® Cosmetic ..... \$10 per unit

### PRP

PRP (Platelet-Rich Plasma) stimulates stem cells and hair growth by restoring blood supply to damaged and weak hair follicles to improve hair thickness and density and decrease hair shedding.

Consultation .....	\$25
Scalp: 1 treatment .....	\$700
3 treatments .....	\$1850

## LASER HAIR REDUCTION

### Lutronic Clarity Laser Hair Reduction

Test Patch + Medical Consultation ..... \$70

Laser hair reduction is a medically proven treatment to remove pigmented hair. The hair follicles are destroyed, reducing further growth. The number of treatments depends on each patient and the area of the body that is being treated.

You must be tan free (including tanning beds). Treatments should be done 2 weeks before a sun vacation or 6 weeks upon return. Anti-inflammatory medications as well as any strong creams (retinol, steva A, or Erfa) should be discontinued 5 days prior to treatment.

- Upper Lip and Chin ..... \$50
- Full Face & Neck ..... \$100
- Full Arms ..... \$100
- 1/2 Arms ..... \$50
- Underarms ..... \$50
- Chest ..... \$100
- Abdomen ..... \$100
- Brazilian ..... \$100
- Bikini (tops & sides only) ..... \$50
- Full Legs ..... \$200
- 1/2 Legs ..... \$100
- Full Back ..... \$150
- Lower Back ..... \$70

## ESTHETICS

### IPL Photorejuvenation (Intense Pulsed Light)

IPL is a treatment designed to even skin tone and texture by fading pigmented lesions and broken blood vessels caused by sun damage. It also stimulates collagen growth thereby reducing fine lines. IPL is often used as a treatment for Rosacea.

Consultation ..... \$25  
*(Consultation fee will be deducted from price of first treatment when booked at time of consult).*

Face ..... \$295  
Male Face (minus hair-bearing area) ..... \$245  
Neck ..... \$220  
Chest ..... \$275  
Hands ..... \$145

### Clear + Brilliant®

Clear + Brilliant® uses fractional laser technology to create hundreds of thousands of microscopic treatment zones in the upper layers of the skin, which replaces damaged skin with healthy-looking tissue.

1 treatment ..... \$400  
Package of 4 ..... \$1250  
+ \$350 per additional treatment

### Fraxel® Restore

Fraxel® treatment is designed to help reverse the visible effects of aging. This treatment also works very well for acne scars, melasma, wrinkles and overall texture and tone. The 1550 wavelength safely penetrates the deeper layers of skin to help stimulate your own body's natural healing to create new collagen.

Consultation ..... \$25  
Full Face ..... \$800  
Face & Neck ..... \$900  
Neck ..... \$400

## ESTHETICS

### INFINI – Microneedling with Radio Frequency

Lutronic INFINI is a new dimension in radio frequency (RF) technology used to address saggy skin, wrinkles and changes in skin texture. It uses a 3-dimensional approach of delivering RF energy to create tissue volumization.

INFINI combines fractional radio frequency with microneedling. By delivering heat energy from RF to the dermis, INFINI encourages collagen growth and tissue tightening precisely at pre-determined depths in the skin. The result can greatly improve wrinkling, scars and skin laxity.

- Consultation ..... \$25
- Full Face ..... \$1000

### Extractions

- 15 minutes ..... \$25

### Microdermabrasion

A minimally invasive procedure used to do a deep exfoliation on the skin using our Diamond Tone crystal-free wand tip. It can be useful for thick, dull skin; improving the skin's texture and overall appearance, making the skin look brighter, and adding an overall glow and soft to the touch.

- 30 minutes ..... \$85

## ELECTROLYSIS

New Patient Medical Consultation ..... \$25

### Electrolysis

Electrolysis can be used safely to remove hair permanently from the face.

The number of treatments required and the duration of the treatments depend on a number of factors such as heredity, hair type, amount of hair that must be removed and area to be treated on the body. Most patients return weekly or every other week. The unwanted hair will be removed with little or no re-growth when treatments are completed.

Occasionally a slight reddening of the skin occurs during or immediately after treatment but this will only last for a short time. Electrolysis is very safe and no harsh chemicals are used.

- 15 minutes ..... \$25
- 30 minutes ..... \$35
