

PEELS AND FACIALS

A chemical peel is a procedure that chemically exfoliates, removing damaged cells from the top layer of skin. It enhances natural skin complexion with visible smoothing effects for a softer, radiant glow and healthier-looking skin.

- Helps diminish fine lines
- Diminishes superficial acne scarring
- Improves dry, flaky, rough and leathery textured skin
- Reduces skin discolouration (sun damage, age spots, and melasma)
- Decreases the appearance of large pores
- Improves acne prone skin problems
- Brightens dull, tired-looking skin

Glycolic Acid Peel (Alpha Hydroxy Acid)

Face	\$130
Pre-pay for 3 Peels	\$350
Pre-pay for 6 Peels	\$650
(Package peels must be used within 1 year)	

Noon Peel (Non-Irritant Chemical Facial)

Face	\$200

COSMETIC MEDICAL SERVICES

Consultation 15 min.	\$25
30 min.	\$50

Fillers

Injectable fillers are injected into the skin to help reduce the appearance of wrinkles and folds, restoring a smoother appearance.

Belotero HA Filler	\$650-750
Radiesse	\$750
Juvederm	\$600-800

Botox®

Botox®, a neuromodulator (muscle relaxant) is comprised of a purified protein which blocks the transmission of nerve impulses to the injected muscle to limit muscle activity. During treatment, very small doses of Botox® Cosmetic are administered to targeted facial muscles via a fine needle. The treatment is about 10 minutes, and no recovery time is required. You will see an improvement within a few days, and your results will last 3 to 4 months.

Botox® Cosmetic	\$10 per unit
Xeomin®	\$8 per unit

PRP

PRP (Platelet-Rich Plasma) stimulates stem cells and hair growth by restoring blood supply to damaged and weak hair follicles to improve hair thickness and density and decrease hair shedding.

Scalp: 3 initial treatments	\$1850
1 additional treatment	\$700

LASER HAIR REDUCTION

Lutronic Clarity Laser Hair Reduction

Laser hair reduction is a medically proven treatment to remove pigmented hair. The hair follicles are destroyed, reducing further growth. The number of treatments depends on each patient and the area of the body that is being treated.

You must be tan free (including tanning beds). Treatments should be done 2 weeks before a sun vacation or 6 weeks upon return. Anti-inflammatory medications as well as any strong creams (retinol or steva A) should be discontinued 5 days prior to treatment.

ESTHETICS

IPL Photorejuvenation
(Intense Pulsed Light)

IPL is a treatment designed to even skin tone and texture by fading pigmented lesions and broken blood vessels caused by sun damage. It also stimulates collagen growth thereby reducing fine lines. IPL is often used as a treatment for Rosacea.

Clear + Brilliant®

Clear + Brilliant® uses fractional laser technology to create hundreds of thousands of microscopic treatment zones in the upper layers of the skin, which replaces damaged skin with healthy-looking tissue.

1 treatment	\$400
Package of 4	\$1250
+ \$350 per additional treatment	

Fraxel® Restore

Fraxel® treatment is designed to help reverse the visible effects of aging. This treatment also works very well for acne scars, melasma, wrinkles and overall texture and tone. The 1550 wavelength safely penetrates the deeper layers of skin to help stimulate your own body's natural healing to create new collagen.

ESTHETICS

The Twist – Microneedling

Microneedling is a clinically proven solution to a wide range of skin conditions in all skin tones. Twist is the only microneedling system that uses its motor to actively retrieve needles from the skin, guaranteeing maximum comfort and precision at every needle length. This treatment improves texture and tone and helps to minimize the appearance of scarring. No pretreatment is required. There is minimal downtime.
