

Powder-free nitrile examination gloves

# Cardinal Health™ Flexal™ Touch

## Everyday protection with improved tactile sensitivity

Cardinal Health™ Flexal™ Touch is our newest addition to the Flexal™ family. Your perfect choice if you are looking for a glove with the dependable protection of Flexal™ but the tactile sensitivity of Flexal™ Feel.

### Features and benefits:

- Textured fingertips enable grip even when wet
- Appropriate for those with a natural rubber latex sensitivity
- Tested for use with 12 chemotherapy drugs (with a breakthrough time for Thiotepea of 30.2 min)<sup>1</sup>
- 25 percent more gloves per box than Flexal™ — saving storage space and packaging material<sup>2</sup>

Note: Test results are printed directly on the packaging.

- Nominal fingertip thickness: 3.5 mil (.09 mm)

For more information or to order, contact your Cardinal Health sales representative, call 877.CARDINAL or visit [cardinalhealth.com](http://cardinalhealth.com).

<sup>1</sup> This glove has been tested for resistance to permeation of various chemotherapy drugs per ASTM D6978, "Standard Practice for Assessment of Resistance of Medical Gloves to Permeation by Chemotherapy Drugs." Caution: Gloves used for protection against chemotherapy drug and laboratory chemical exposure should be selected specifically for the type of chemicals being used. Note: Review Safety Data Sheets (SDS) for the chemicals/drugs being used to determine required level of protection.

<sup>2</sup> 1000 gloves of Flexal™ Touch require 8 percent less storage space and use 9 percent less packaging material when compared to 1000 gloves of Flexal™
