

Employee Spotlight

Mike Mitchell joined Nouryon as the Site Director on May 1st of 2022 relocating to Alabama with his family. Mike has been a chemical engineer since his graduation from the Colorado School of Mines in 2003. He worked as a chemical engineer for ten years with FMC in various roles and received an MBA during that time. Interested in working more in business he then progressed to roles as a plant manager for both Durez and Air Liquide before his move to Nouryon.

In 2022 several Nouryon employees spent an afternoon volunteering at Dumas Wesley for the after school program. We are looking forward to participating in their trunk or treat event in October of this year.
