**Here are some tips for an awesome interview !**

- 1. Think like your audience.** Who will be listening to the call? What will they most want to know?
- 2. Because you are being interviewed online and over your phone or computer please make sure you are in a quiet place.**
- 3. Make sure you don't drink an hour before the interview or during the interview. Burping or coughing can result and ruin the interview.**
- 4 If you can, buy a mic for your computer because speaking directly in the mic of the laptop or computer can sometimes cause distortion. A mic will give you a clearer result.**

- 5. If you are home make sure all the animals are put up and no barking or panting can be heard in background.**
- 6. Be sure to alert family or others if you are home or at the office that you will be on an interview.**
- 6. Make sure you have a strong Wifi connection if not many of our guest have gone to the library, Starbucks parking lot or a friends home.**
- 7. Project your voice so the audience can hear you.**

**8. Be sure to test yourself and your system by calling a friend to be sure you can be heard over the mic system you have.**
