Medicare

A federal health insurance program for people who are 65 or older, certain younger people with disabilities, and people with end-stage renal disease.

Pros

May pay up to 100 days of medically necessary care in a skilled nursing facility per benefit period and the first 20 days are paid at 100%, however, a qualifying hospitalization must occur to activate this benefit.

Cons

- Days 21-100 require a co-payment.
- Medicare does not provide coverage for LTC with respect to any of the activities of daily living.
- Benefits do not include care or assistance that can help you remain in your home.

Things to Consider

- Once Medicare stops paying, any Medicare supplemental insurance policy will also stop paying.
- Medicare pays for acute care, but not for long-term residency.
