### The United States Constitution

Article II, Section 1 of the U.S. Constitution imposes only three eligibility requirements on persons serving as president, based on the officeholder's age, time of residency in the U.S., and citizenship status:

### U.S. Constitution - Presidential Candidate Eligibility

"No person except a natural born Citizen, or a Citizen of the United States, at the time of the Adoption of this Constitution, shall be eligible to the Office of President; neither shall any person be eligible to that Office who shall not have attained to the Age of thirty-five Years, and been fourteen Years a Resident within the United States."

# Vincent Cordova's 2028 U.S. Presidential Campaign: Federal Executive Order to Transition Government Banking to Public Institutions in 2028

📍 Washington, D.C. | March 10, 2025

**In a historic move to restore financial accountability and eliminate wasteful banking fees, an Executive Order will go into effect in 2028 requiring all federal financial operations to transition from for-profit banks to public banks and credit unions.**

This policy shift, spearheaded by **Vincent Cordova**, marks a major step toward ensuring that **public money benefits taxpayers rather than corporate shareholders.**

Key Provisions of the Executive Order:

- ✔ **Federal agencies must transition all deposits and financial transactions to public banks and credit unions within a five-year period.**
- ✔ **For-profit banks will no longer receive federal banking contracts**, ensuring that taxpayer funds are not used to fuel corporate profits.
- ✔ **A Public Business Growth Fund will be established** to provide **low-interest loans to small businesses** through public financial institutions.
- ✔ **Public banks will remain free from corporate ownership**, ensuring that **financial power stays in the hands of the people.**

“This Executive Order is about **fairness, accountability, and economic justice**,” said Vincent Cordova. “For too long, taxpayer dollars have been funneled into corporate banks that prioritize profit over people. This policy ensures that public money is used to support **small businesses, infrastructure, and economic growth—directly benefiting Americans.**”

The Shift Toward Public Banking: A Necessary Reform

The federal government **currently pays billions in banking fees and interest** to for-profit banks each year. By transitioning to **public banking, these unnecessary costs will be eliminated**, allowing those funds to be redirected into **public services, infrastructure, and economic development.**

The move also comes in response to **widespread concerns about corporate influence over government financial operations.** By **breaking the government’s reliance on Wall Street banks**, the policy ensures **greater transparency, financial stability, and long-term economic benefits for the American people.**

Implementation Timeline

- 📅 **2028** – Official transition begins; **federal agencies begin shifting accounts** to public banks and credit unions.
- 📅 **2030** – **All federal banking operations must be fully transitioned**, with all accounts removed from for-profit banks.

A Future Built on Financial Independence

This Executive Order represents a **landmark shift in government financial policy**, setting the stage for a **new era of economic fairness and fiscal responsibility.**

“Public money should serve **the public, not corporate shareholders**,” Cordova stated. “This Executive Order ensures that **every dollar works for the people, not the banks**.”
