The United States Constitution

Article II, Section 1 of the U.S. Constitution imposes only three eligibility requirements on persons serving as president, based on the officeholder's age, time of residency in the U.S., and citizenship status:

U.S. Constitution - Presidential Candidate Eligibility

"No person except a natural born Citizen, or a Citizen of the United States, at the time of the Adoption of this Constitution, shall be eligible to the Office of President; neither shall any person be eligible to that Office who shall not have attained to the Age of thirty-five Years, and been fourteen Years a Resident within the United States."

Revolutionizing American Innovation: Free IP Access and Federal Funding for Creative Ideas to Propel Growth

"A Vision to Empower Entrepreneurs, Foster Innovation, and Strengthen the U.S. Economy through Public-Private Collaboration"

MANTECA, CA – In a groundbreaking initiative to unlock the nation's full potential, the Vincent Cordova 2028 Presidential Campaign announces a bold plan to offer **free access to intellectual property (IP)** and **federal funding for innovative ideas and businesses**. This visionary program is designed to accelerate economic growth, create jobs, and establish the United States as the global leader in creativity and innovation.

"This plan is about unleashing the creativity of our people, breaking down barriers for innovators, and ensuring that the United States remains a beacon of opportunity and progress," said Vincent Cordova, 2028 Presidential Candidate. "Innovation has always been the backbone of America, and with this initiative, we will empower every dreamer and entrepreneur to succeed."

A Vision for Growth

The initiative will:

- **Provide Free IP Access:** A centralized, publicly accessible repository of unused patents and intellectual property, made available to entrepreneurs, small businesses, and researchers.
- **Fund Innovation:** Direct federal funding for startups and creative ventures in high-impact industries such as renewable energy, biotechnology, clean technology, and digital infrastructure.
- **Strengthen Public-Private Partnerships:** Leverage resources and collaboration with universities, corporations, and research institutions to amplify the program's impact.

Key Goals

This program is designed to:

1. **Accelerate Business Growth:** Lower the barriers for new businesses and encourage rapid development of ideas into market-ready solutions.
2. **Create Jobs:** Stimulate employment opportunities across sectors, ensuring economic prosperity reaches every community.
3. **Enhance Global Competitiveness:** Cement the United States' role as the global leader in innovation and economic resilience.
4. **Ensure Economic Sustainability:** Establish a self-sustaining cycle of growth and reinvestment into innovation and the public good.

How It Works

The initiative will begin with **pilot programs** focusing on high-impact sectors and will be scaled nationally within the first year.

- A streamlined funding process will distribute grants and microloans to startups and entrepreneurs.

- Businesses benefiting from this program will contribute a portion of future revenue back into the public fund to ensure long-term sustainability.
- In cases where additional funding is required, the program will borrow against **future tax revenues**, with confidence that the economic returns from this initiative will far outweigh initial costs.

Immediate Benefits

- **For Entrepreneurs:** Free IP and initial funding lower the financial barriers to entry for startups, allowing ideas to flourish.
- **For Communities:** Job creation and increased economic activity will revitalize communities nationwide.
- **For the Nation:** New revenue streams from successful businesses and reduced reliance on imports will strengthen the economy.

Addressing Concerns

The campaign has outlined several safeguards to ensure the program's success:

- **Transparent Oversight:** A dedicated task force will oversee funding distribution and program implementation to prevent misuse.
- **Performance-Based Funding:** Grants and funding will be tied to specific performance milestones to minimize risk and maximize returns.
- **Public-Private Collaboration:** Partnerships with private institutions will help minimize the financial burden on taxpayers.

“This initiative is not just an investment in ideas—it’s an investment in the future of every American,” Cordova stated.

Call to Action

The Vincent Cordova Campaign invites entrepreneurs, business leaders, and citizens to join this movement. Together, we can transform the United States into the world’s leading hub of creativity
