Calling for Public Input on Corporate Accountability

MANTECA, CA – Vincent Cordova's campaign for the 2028 presidential election is proud to unveil a draft Executive Order titled ***Ensuring Corporate Accountability to Constitutional Principles***. This initiative invites public input to shape a transformative policy aimed at extending constitutional protections into areas where corporate power intersects with public life.

As corporations continue to wield significant influence in society, it is vital that their actions align with the constitutional rights guaranteed to every American. This draft Executive Order addresses this challenge by setting a framework to ensure that corporations respect and uphold principles such as free speech, privacy, and equality. Public participation is central to ensuring that the final policy reflects the needs and concerns of the people it aims to protect.

"The Constitution was created to safeguard the freedoms of all people, yet in today's world, corporations often act in ways that undermine these rights," said Vincent Cordova. "This Executive Order is about restoring balance, ensuring accountability, and protecting the public from overreach by any entity."
