

2019 BUYERS GUIDE

WE LIVE TO SWIM

AQUA SPHERE

Established in Genoa, Italy, in 1998 Aqua Sphere was launched by Aqua Lung, the world's leader in scuba diving and snorkeling equipment. Today, with a global footprint in over 60 countries, Aqua Sphere is the premier swimming equipment manufacturer for fitness and recreational swimming, aquatic exercise and triathlons.

Aqua Sphere is dedicated to meeting the needs of everyday swimmers who enjoy swimming at a variety of levels and for a variety of reasons: fun, fitness, stress relief and more. For Aqua Sphere, people are true swimmers not because of how or why they swim, but because they do swim. With these swimmers in mind, Aqua Sphere developed an innovative range of premium products, including eye protection, triathlon wetsuits, footwear, and fitness and training accessories.

In 2014, Aqua Sphere entered into a partnership with Michael Phelps, the world's most decorated Olympian. Designed and distributed by Aqua Sphere, the MP Michael Phelps brand provides elite competitive swimming products and the Michael Phelps Swim Method brand provides products to help children learn to swim.

THE COLLECTION

OPEN WATER SWIMMING

Designed to take the chill out of your swim, the Aqua Skin Full suit uses 1.5 mm glideskin neoprene to increase speed and freedom of movement in the water by reducing drag coefficient. Thermo-Guard technology provides warmth and max flexibility and range of motion in the shoulders, legs and chest.

AQUASKIN the Aqua Sphere difference

LIMITLESS swim and run

CORE POWER SYSTEM NEW

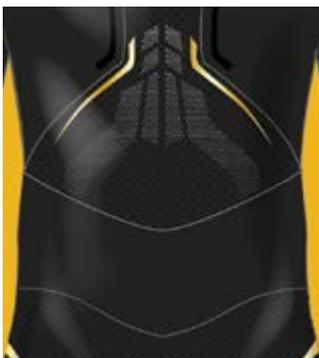

Internal support system that improves posture, enhancing hip rotation and lengthening stroke.

BIO STRETCH ZONE

Lower back panel with a V shape and under arm panel, to keep water out arm and shoulder movement (Available across all models except Rage).

BUOYANCY SUPPORT NEW

Aerodome 5MM: new dedicated neoprene panels on the Phantom and Short tech gives athletes the good buoyancy support

YAMAMOTO 40, 39 & 38 with SCS coating

NEW Yamamoto 40
Super stretch,
SCS-Coated
Yamamoto 40
Neoprene for
ultimate flexibility
Available in:
Phantom, Racer.

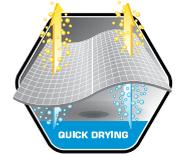

Yamamoto 39
Super stretch,
SCS-Coated
Yamamoto 39
Neoprene for
ultimate comfort
Available in:
Phantom, Racer.

Yamamoto 38
Super stretch,
SCS-Coated
Yamamoto 38
Neoprene
Available in: Pursuit.

TECHNOLOGY

QUICK DRYING

Quick drying with super stretch fabric

BOOSTER PAD

Strategically positioned sections of the forearm, externally coated with a super-stretch material engineered to increase traction during the pull phase of the stroke, maximizing forward propulsion

CORE POWER SYSTEM

Internal-Adjustable belt support - Improves posture enhancing hip rotation and lengthens stroke

BIO-STRETCH ZONE

Strategically placed 1.5mm - 2mm stretch zone - Allows for max range of motion

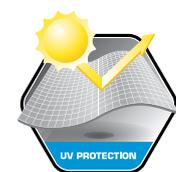

THERMO GUARD

Thermo-Guard technology provides warmth and maximum flexibility and range of motion in the shoulders, legs and chest

100% UV PROTECTION

100% UVA/UVB protection

AQUA FLEX COLLAR

Watertight seal with maximum comfort through its double layer, ultra-fine design which minimizes neck chaffing

YKK ZIPPER & LEASH

Extended length, ykk zipper with leash for easy on/off and quick transitions

PHANTOM 2.0

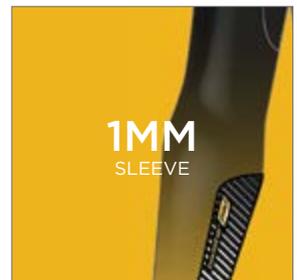

elite triathlete

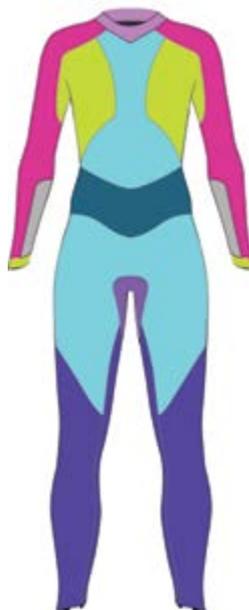

IDEAL FIT. ULTIMATE POWER

- Bio-Stretch Zone: Strategically placed 1.5mm panels (under arms and lower back), 1mm panels (arm, shoulder and collar)
- Core Power System: Internal support system that improves posture, enhancing hip rotation and lengthening stroke
- 5mm Aqua Drive core body panel maximizes buoyancy and reduces drag thanks to Aerodome Neoprene
- Thermo-Guard technology on chest, shoulders and legs to retain body heat
- Quick-release ankle transition panels (horseshoe-cut design) for improved transition time
- Extended length, reverse-pull zipper with leash for easy on/off and quick transitions
- Aqua-Flex collar seal to keep water out and prevent chaffing and restriction
- Super stretch, SCS-Coated Yamamoto 40 Neoprene for ultimate flexibility
- 100% UV protection

TECHNOLOGY

Developed using our expertise in Competitive Swimwear (The MP Michael Phelps Brand). The new Phantom Speedsuit is engineered with Aqua Sphere's exclusive Exo-Core technology - a combination of Exo-Foil and Aqua Core in relationship with Triathlon Wetsuit Core Power System. The innovation provides the Elite Triathlete an amazing new swim sensation that conserves their core leg and back muscles while maintaining freedom of movement and allowing them to reach their utmost potential.

THERMO BONDED SEAMS

Seams have been thermo bonded to ensure comfort and help prevent chafing

LOCKING ZIPPER

A locking zipper feature on the back of the suit helps to reduce drag

SILICONE GRIPPERS

Silicone grippers help to keep the suit in place for the active athlete

men and women

SPEEDSUIT PHANTOM

- Exo-core technology combines 2 kinds of fabrics for compression and freedom of movement
- Aqua Core high compression panels conserves quads during swim
- Integrated Core Power system improves posture and core stability
- High frequency welded seams deliver optimum hydrodynamics, comfort, and anti-chafing.
- Water repellent treatment for superior glide
- Locking back zipper for suit for less drag

SWIM GOGGLES & MASKS

The genesis of the Aqua Sphere Brand is in our Swim Goggles and Masks. Developed from our core engineering of precision Aqua Lung dive mask technology, the Aqua Sphere difference starts with an efficient seal and unrivaled visibility, equating to long lasting comfort and crystal clear underwater vision. Our new focus is delivering specific types of eye protection to suit the individual. Aqua Sphere creates goggles and masks for both recreational use and advanced protection in the open waters of the ocean, the lane lines of a competition pool and in the comfort of your neighbor's backyard. Designed for adults and youth, we place comfort and vision first, letting your personal water activity dictate the type of eye protection you require.

5X IRONMAN WORLD CHAMPION
VISTA PRO

KAYENNE JR

VISTA JR

LENS TECHNOLOGY

● CLEAR LENS LOW LIGHT

Transmits a natural light, which makes it ideal for low light and overcast conditions where maximum visibility is required. Clear lens is also ideal for consistent lighting as it provides accurate vision without filtering out color
ENVIRONMENT : Indoor pools and Dark conditions

● DARK LENS BRIGHT LIGHT

Reduces light transmission to the eye, reducing brightness and glare, making it ideal for conditions with high light levels
ENVIRONMENT : Outdoor - Sunny - Bright conditions

● MIRROR LENS BRIGHT LIGHT

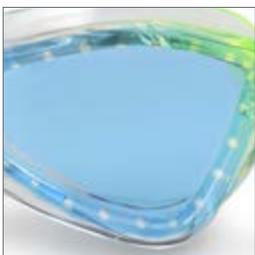

The metalized coating is typically applied on top of a dark lens, resulting in maximum reduction of light transmission to the eye. This lens reduces brightness and glare, making it ideal for conditions with high light levels
ENVIRONMENT : Outdoor - Sunny - Bright conditions

NEW - VISTA PRO - GOLD, BLUE, GREEN MIRRORED LENS

● POLARIZED LENS BRIGHT LIGHT

Polarized lenses offer improved color and depth perception by filtering out the sun's horizontal light rays to eliminate glare reflected off shiny surfaces, such as water, increasing contrast for a sharper and improved vision
ENVIRONMENT : Outdoor - Bright conditions

● BLUE LENS MEDIUM LIGHT

Allows a moderate level of light into the eye and provide some glare protection. It's a practical color for changing conditions.
ENVIRONMENT : Indoors and Moderate-light outdoor conditions.

● AMBER LENS BRIGHT LIGHT MEDIUM LIGHT LOW LIGHT

Provides excellent vision in both high and low light environments. In low level light (i.e. indoor swimming pool, overcast conditions) amber lenses amplify the light offering clearer vision. In high light levels it reduces glare.
ENVIRONMENT : All conditions

TECHNOLOGY

The Aqua Sphere Difference

MADE IN ITALY

Born in 1998 in Genoa, Italy, Aqua Sphere began a quest to create the most comfortable eyewear for swimming. The innovative Seal swim mask was truly revolutionary, introducing unparalleled peripheral vision with its patented curved lenses, easy-to-adjust straps, and Long Lasting Comfort. Aqua Sphere continues to lead the industry, developing technologies that improve performance, fit, and comfort in any use, casual or athletic. The “Aqua Sphere Difference” starts in Italy with superior research, craftsmanship and design. It is this great “vision” and commitment to quality that drives development of all Aqua Sphere swim products and the advanced range of MP Michael Phelps competition swim gear.

Find this Made In Italy Icon on all Aqua Sphere Brand Eye Protection

CURVED LENS

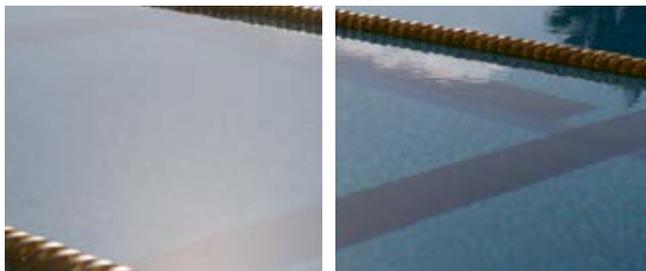

Our patented curved lens technology offers the clearest possible visibility through superior optics engineering based on 3 key placed radii, virtually eliminating distortion while delivering an uninterrupted, 180° wide field of vision with exceptional hydrodynamics.

*Available In:
All Goggles and Masks except Mako and Moby Kid*

POLARIZED LENS

STANDARD LENS

POLARIZED LENS

The most advanced Polarized Plexisol lens technology has specially bonded 4 layers of lamination which offers improved light filtration as well as durability and longevity. Through our testing, we found 3 layers on the lens de-laminates quickly whereas our solution of 4 does not. We are committed to a quality lens technology and an overall better product.

POLARIZED LENS GLARE FILTRATION

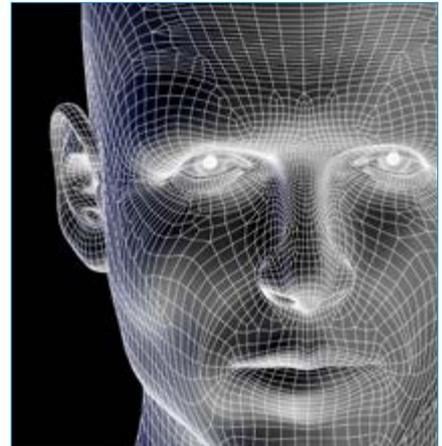

Polarized lenses provide Anti-Glare properties & enhanced contrast.

Available In: Kayenne Goggles

FACIAL GEOMETRY

No two faces are alike. Understanding facial geometry is both an art and a science. Every year, the Italian design team continues to refine and improve the fit of our masks and goggles. Aqua Sphere eye protection offers an optimized fit, unequaled comfort and performance to the widest possible range of facial shapes.

EXO-CORE

EXO-Core is the evolution of Aqua Sphere's best selling technology. The new bi-material frame technology combines exceptional stability with maximum comfort. The two are a marriage of a semi-rigid exoskeleton for lens protection and structure paired with an integrated, ultra soft Softeril material to offer a streamlined, lightweight design with enhanced durability.

Available In:
Kaiman EXO. Seal XP2

(Advanced Fit Technology) - A.F.T.

The patented A.F.T. is integrated into the gasket design, offering an enhanced watertight seal around the eyes and maximum comfort. Alternating matte and polished zones on the gasket, it reduces the marks on the skin after swimming by providing a softer grip to the face.

Available In:
Kaiman EXO. Seal XP2, Vista Pro

BUCKLE SYSTEM

Aqua Sphere Buckle Systems are simple to operate. Micro adjustments allow for the precise tension and most comfortable fit without need for over-tightening. The combination of our facial geometry research, advanced materials and amazingly simple-to-operate buckle systems guarantee you the perfect, leak-free fit every time.

QUICK FIT

An easy to operate, push button buckle adjustment makes tightening and loosening quick and simple, even while wearing. The low profile, micro-metric strap adjustment buckle streamlines the goggle and improves strap adjustment precision and comfort.

Available In: Kayenne, Vista, Vista Jr

NEW PIVOTING QUICK FIT BUCKLE SYSTEM

Utilizing the easy to operate, Quick Fit push button buckle system makes tightening and loosening quick and simple. Now paired with a Pivoting Buckle that adjusts and rotates to the shape of the head for comfort and fit.

Available In: Vista PRO

E-Z ADJUST

The EZ Adjust buckle is a low profile, micro-metric strap adjustment buckle that streamlines the goggle while allowing for precise strap adjustment. Simply pull the straps back to your desired level of tension for a leak free fit, or lift the buckle tabs and pull the goggle forward to loosen.

Available In: Kaiman Exo, Kaiman, Seal 2.0, Seal XP2, Kayenne Jr, Mako, Eagle, Moby Kid, Seal Kid2

E-Z ADJUST PULL STRAP BUCKLE

A low-profile pull strap adjustment is the natural evolution of our signature buckle systems - simple to operate allowing a comfortable and smooth transition.

Available In: Kameleon, Kameleon Jr, Kameleon Kid

ANTI FOG

Lenses are protected by special anti-fog and anti-scratch treatments.

LATEX FREE

All Aqua Sphere eye protection materials are hypoallergenic and latex free.

100% UVA / UVB PROTECTION

SILICONE

Surgical grade Silicone provides optimum, long-lasting comfort and product longevity. Available in all straps and some gaskets

Silicone

SOFTERIL

A proprietary material substantially softer and gentler to the face versus the traditional TPR (Thermoplastic Rubber) materials used by the competition.

Softeril®

POLYCARBONATE LENS

Six times lighter than glass, ultra durable with superior optic qualities.

Polycarbonate

PLEXISOL LENS

Sourced in Italy with excellent anti-fog properties. Ten times stronger than glass and 100 times lighter, Plexisol is ultra durable and distortion free.

FOOTWEAR

The Aqua Sphere footwear collection offers athletes and water enthusiasts protection and comfort for all aquatic environments. Our range leverages quality, light weight materials and technologies across sandals, slides and neoprene water shoes in men, ladies and youth sizes. Whether you're on the pool deck or around open water, Aqua Sphere has engineered unique, comfortable models that will protect your feet in style.

TECHNOLOGY

The Aqua Sphere Difference

ERGONOMIC SOLE

Aqua Sphere's unique cut of the sole creates a better fitting shoe. The footbed and outsole are cut to match the profile of the foot, which guarantees excellent comfort.

PURGE VALVE

The exclusive purge valve on the heel improves drying and ventilation for better comfort.

MASSAGING FOOTBED

The footbed's pattern of small therapeutic nodules provides support and a massaging effect that guarantees maximum comfort.

E.V.A. (ethylene-vinyl acetate)

E.V.A.
Durable
Foam

An elastomeric polymer that produces materials which are "rubber-like" in softness and flexibility. Aqua Sphere sandals in EVA are lightweight and water repellent.

T.P.R. (thermoplastic rubber)

These materials have the potential to be recycled since they can be molded, extruded and reused like plastics, but they have typical elastic properties of rubbers. Thanks to this material, our water shoes feature a very good grip on slippery surfaces.

NATURAL RUBBER

Natural rubber, also called caoutchouc, is a product of the Rubber tree. After the vulcanization process it becomes an elastic material with the highest stretch ratio and is extremely waterproof.

It rarely deforms, even if stored poorly in your gear bag. For these unique features, natural rubber is used extensively in many product applications, either alone or in combination with other materials such as neoprene

NABUK

Synthetic leather created from the outer side of a hide, giving it strength, thickness and a fine grain. It is soft to the touch and at the same time gives structure to the neoprene for better comfort.

MEGOL

Based on SEBS (Styrene-Ethylene-Butadiene-Styrene), which is characterized by excellent elastomeric properties, Megol has good UV and ozone resistance and is easily colorable, durable and lightweight. Our water shoes made with Megol are very flexible, soft and comfortable.

TRAINING GEAR AND ACCESSORIES

Aqua Sphere supports our swimmers with a range of performance and fitness equipment to help them achieve their unique training goals. Our commitment to innovation can be exemplified in our selection of training fins, our vast expertise in aquatic fitness and the detail offered in our caps and accessories. Our product design is tailored to meet the needs for swimmers and water exercise enthusiasts with equipment dedicated to developing specific workouts and muscle groups to achieve an individual's personal fitness requirements.

ALPHA FIN

ALPHA FINS

ISOLATED LEG WORKOUT AND BODY POSITION

- Provides isolated leg workout
- Buoyancy improves body position
- Water channels provide stability and maximum power transfer
- Dedicated right and left fins with full arch support
- Made of non-waterlogging, EVA foam
