"The Strength Paddles are one of my favorite tools that we've developed, because they basically give you the feel of the hand and the way it is when it's swimming because of the raised portion under the palm of your hand. It's not a flat surface. You're actually in a much more natural position."  
- Coach Bob Bowman

The Strength Paddle is a high-performance resistance tool that provides a natural feel of the water thanks to its shape and raised palm supports.
