Anytime and Anywhere!

---

Clensta® Waterless Healthcare solutions provides a hygiene solution - A technological leap into the future of Medical care. A never-before range of benefits for the Patients and Medical staff.

# Introducing

## Clensta® Waterless Body Bath

Comprehensive Antiseptic Body Hygiene Solution

Clensta® Waterless Body Bath is a comprehensive and effective antiseptic solution, that provides water-free bathing for patients, protecting them from nosocomial infections. It has a significant germ inhibiting effect and provides 99% kill of micro-organism.\*

Whole-body Antisepsis in minutes!

Protection: Kills Germs

Protects Patients

Unhygienic cleansing methods leads to accumulation and growth of harmful and unwanted micro-organisms leading to increased susceptibility of diseases and infections. Skin being a natural barrier needs to be germ-free, hydrated and pliable.

Clensta® Waterless Body Bath is a scientifically developed formula with Chlorhexidine; a time tested antiseptic that protects against more than 100 diseases and provide health to patients.\*

### Benefits
