

CABO TMS

QUOTES IN ONE LOCATION

Access to all of your quotes in one central location and the capabilities to book and track your shipments all in the same place

REAL TIME RATES

With our API technology, you can access real-time rates which include digital truckload pricing, tracking, and visibility. We have access to more than 100 LTL carriers with Tier-1 pricing nationwide and cross-border. Directly from the portal, you can download BOLs, pallet labels, and invoices.

CENTRALIZED TRACKING

Know where all your shipments are at all times. Your proof of delivery/delivery receipt/pickup documents are automatically uploaded in the portal so you know where your shipments are at all times

HOSTED IN THE CLOUD

Access to your Cabo account from anywhere on any device with EDI/API integration.

BUILT BY EXPERTS

Decades of industry experience combined into one platform. Cabo TMS is user friendly and convenient for all of our customers.

TMS THAT IS CUSTOMIZABLE

Unlimited user accounts are available to you with the ability to customize the following tools: Address Book, Inventory List, NMFC/Class. A density calculator is included to instantly calculate density upon entering load details.
