### Company Statement

“We are dedicated to the advancement of general gnathological knowledge concerning maintenance and care of horses teeth through education, improved instruments, related products and customer service”, from the Jeffrey Brothers, Lloyd and Dale.

When ordering, we are happy to accept payment by check, Master Card, Visa, American Express or will ship C.O.D. throughout the U.S. unless prior arrangements have been made. Orders may be placed via Email, U.S. Postal Service, Fax, Telephone or online at [www.horsedentistry.com](http://www.horsedentistry.com). Visitors are always welcome at our facilities.

**To place your order within the United States and Canada call our toll free order line at 1-800-331-5485.** You may order by email, phone, fax or online at [www.horsedentistry.com](http://www.horsedentistry.com). Idaho residents, need to add 6% sales tax. Foreign residents should remit payment in United States funds. When wiring funds from another country please contact our office for instructions. There may be inbound wiring fees on smaller orders. On orders over \$1000.00 there are no inbound wiring charges.

**Your Satisfaction is Guaranteed  
With Our 30 Day Return Policy**

**You may return any product purchased from World Wide Equine, Inc. within 30 days, less a restocking fee based on the condition of the returned merchandise.**

**Office Hours are Monday Through Friday  
8:00 AM -- 4:00 PM Mountain Standard Time**

620 4000 P/PMC S	Single (One) extended polished large surface tooth plate	\$97.50

# Gag Speculums & Bits

**Double Jeffrey Mouth Gag:** Incisor work may be performed more easily by doubling the poly Jeffrey gags. One gag is used for each arcade while they are held in place with a strap over the poll. By using two gags excessive unbalanced pressure upon the TMJ is kept to a minimum. Horses are much more receptive to incisor work given the even pressure throughout the jaw and head. This set of double gags comes with an off cheek hook enabling the use of one gag at a time if needed.

Order #	Full Size Gag Speculums	Price
600 2311	Full size stainless steel Jeffrey poly gag, poll strap and off cheek hook	\$141.50
600 2311 DBL	Double stainless steel Jeffrey poly mouth gag for full size horses; includes extra off cheek hook	\$251.50
600 2311 MP	Replacement polypropalene mouth piece for full size Jeffrey gag	\$30.25
<b>Miniature Gag Speculums</b>		
600 1197	Miniature stainless steel Jeffrey poly gag, poll strap and off cheek hook	\$141.50
600 1197 DBL	Double miniature stainless steel Jeffrey poly mouth gag; includes extra off cheek hook	\$251.50
600 1197 MP	Replacement polypropalene mouth piece for miniature Jeffrey gag	\$30.25

Hippus bits have been designed to fit comfortably and give optimal response to both horse and rider without constant pressure and pain. Hippus bits are uniquely designed with the horse's comfort and welfare at the forefront.

Order #	Therapeutic Hippus Bits	Price

# WWE Bulb Handled Instruments

## World Wide Equine Hardened Tool Grade Stainless Steel Bulb Handled Elevators, Curettes, Osteotomes & Picks

The solid stainless steel handles of these instruments have great weight and feel. They don't get lost in your hand like some lighter instruments. The cutting blades are made from tool grade stainless steel and hardened creating long lasting edges.

All are made in house at World Wide Equine, Inc., Idaho, USA.

# MMXV Twist Lock Handle

**100% American Made by World Wide Equine of Glens Ferry, Idaho**

Stainless Steel Gear Head and Shaft Housing

Adjustable 3/4" Twist Lock Handle

Titanium Drive Shaft

Each Unit Comes With A Set Of Twist Lock Handle Wrenches  
Grease Gun, 1 Tube Grease  
Keyway or Square Drive Wrench  
Burr/Disk Wrench

### Composition:

- All corrosion resistant materials
- Stainless steel gear head housing
- 5/16" Diameter Titanium Drive Shaft
- Full contact non corrosive bearings
- Hardened corrosive resistant steel gears

### Manufacturing:

- Designed by Master Machinists and Field Tested by Prominent Practitioners
- Precision set and tuned stainless steel gear head
- All parts are hand built to exact specifications for consistency
- 30 Minute break in time at full speed

### Final Product:

- Fully polished
- Adjustable interchangeable handles
- Weight saving design
- Long lasting bearings and titanium drive shaft with a stainless steel housing
- Lower maintenance costs
- Custom lengths
- Custom engraving available
- Customer support and service
- Satisfaction is guaranteed through our in house full service shop.

**Available in 1" or 1 1/4" Guarded Disk or Non-Guarded Styles; Keyway or Square Drive  
In 12" and 21" Lengths**

**All Heads Are 1/4" x 28 Threads. Units Are Normally Shipped Keyway Unless Square Drive Is Specified**

**Does Not Include 1/4" x 28 Threaded Burr \*\*\* For Burrs See Page 24**

## MMXV Hand Piece Testimonials

The MMXV is the first and last instrument I use while floating horses. The weight, balance and ergonomic design make it a pleasure to use. I'm very impressed with the stainless steel head. It won't dent, even when chewed on. I've floated over 1000 head with this smooth running instrument. I definitely give it a thumbs up. Jeff Micheel CEqD

I have used the MMXV on approximately 2800 horses and it is still running flawlessly. The light weight really makes a difference through a long day of horses. The hexagonal handle, I didn't think I would like, but to my surprise it is more comfortable and user friendly than the round handles of other hand pieces on the market. The gear set of this unit runs really smooth with no vibrations. I am very familiar with the inner mechanics of multiple other hand pieces and the MMXV is Superior. World Wide Equine eliminated the ball bearings that would wear out and have to be replaced yearly for most practitioners. They replaced most bearings with long lived, rifled, grease-able, non-rusting, sleeve bearings. The drive shaft is larger (5/16") light weight space age non-rusting titanium so warping or rusting would be a feat. All together this new unit is very light, smooth, comfortable and should last for thousands of horses. Tyler Dees, DVM CEqD

## How To Get the Most From Your MMXV Hand Piece

We like to run our MMXV hand pieces on Freedom's TX Series Motors. These heavy duty 1/3rd horse power motors run from 500 to 15,000 RPM. They are made in key-way and square drive. We use diamond burrs and disks, cleaning them frequently maximizing their cutting ability and reducing heat from friction. Clean sharp burrs are a must for proper dental maintenance. We have found that higher speeds are advantageous over lower speeds for maximum tooth removal, minimal heat build up and comfort for the horse. Most competitive products use lower speed drills and die grinders to run their hand pieces. I have found the lower speed units take much longer to get the job done and burrs and disks bounce around making horses and burrs harder to control. Dale Jeffrey, Principal, Equine Gnathological Training Institute, Inc.

TX Motor Description: Series TX motors are Freedom's most powerful flex shaft machines with 1/3HP. They have permanent magnet DC motors that feature the latest in flex shaft technology. These ball bearing models utilize advanced rare earth magnets (in place of the wound fields in our universal type Series SR motors) that deliver more torque at the low end and throughout the entire speed range of 500 to 15,000 RPM. No other flex shaft gives you greater control of the cutting tool, drill, or burr under any load.

## Horse Power Conversions

### Convert Internal Components of Horse Power Units "Big John" to World Wide's MMXV

*Avoid continued costly repair bills with long lived non-corrosive reasonably priced  
WWE Conversion Parts*

World Wide Equine has converted many Horse Power Units over to their non-corrosive internal system installing their tested gears, titanium drive shafts and bearings. If the customer wishes, rusting gear boxes can be replaced with WWE's stainless steel gear box which will run Super Burrs.

Conversions for Horse Power Hand Pieces to MMXV Internal Shaft, Gears and Bearings Run \$600.00+- To Include New Stainless Steel Gear Box Add Approximately: \$150.00 +-. Keyway and square drive wrenches sold separately.

To lower your maintenance costs and reduce future repair bills call Lola or Dale at 208-366-2550 \*\*\* 208-366-2569 or email [wwequine@horsedentistry.com](mailto:wwequine@horsedentistry.com) for more information about Horse Power upgrades.
