## **LOS ANGELES COUNTY FLOOD CONTROL DISTRICT – LOS ANGELES COUNTY, CALIFORNIA**

### **HISTORY:**

The Los Angeles County Flood Control Act (ACT) was adopted by the State Legislature in 1915, after a disastrous regional flood took a heavy toll on lives and property. The Act established the Los Angeles County Flood Control District and empowered it to provide flood protection, water conservation, recreation and aesthetic enhancement within its boundaries. The Flood Control District is governed, as a separate entity, by the County of Los Angeles Board of Supervisors.

### **ABOUT:**

The Flood Control District encompasses more than 2,700 square miles and approximately 2.1 million land parcels within 6 major watersheds. The program participated in funding projects within its boundaries.
