# Introduction

---

Whether you have an idea in mind or you're not sure what you want, the process begins the same way.

Together, we look at the space in question and talk about the kind of environment you wish to create or canvas in which you wish to capture the essence of the heart. Through discussion, we establish a direction for the artwork and from this, a scale rendering is produced for you to view, together with a quotation.

The enclosed are works of art I've created in my 20+ years. I create in a variety of mediums and this portfolio show samples of my work.

I look forward to developing this opportunity with you to create your art piece with the heArt of the Matter.

All artwork and concepts sketches (unless indicated) are designed by Jessica N. Gray.

It's always a good year to grow.

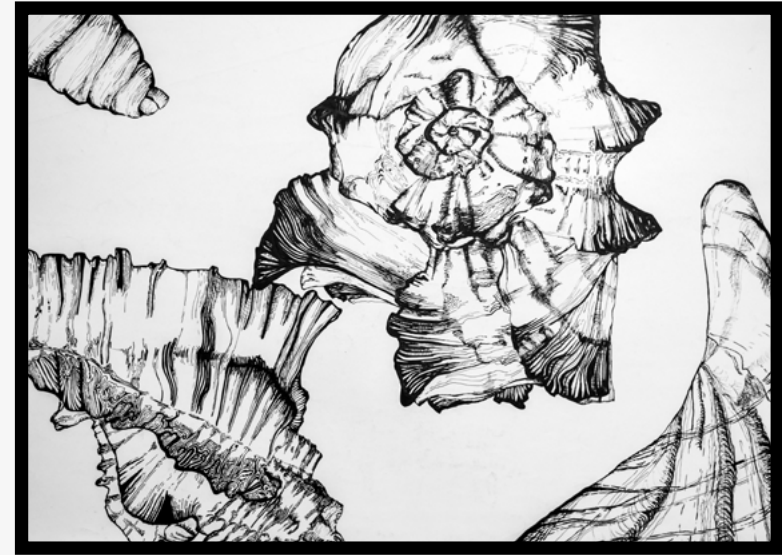

“Mighty Oaks in Texas,” Watercolor, 18” x 24”
